

## Poster Instructions

The Poster Session is Thursday afternoon. During the lunch break you can place your presentation on the boards hanging on the walls in the Popper room at CEU. One of the boards will have your name on it; you should be able to find it without any problem. **Please be sure to have it ready by the time the Poster Session begins at 1 pm on Thursday.**

The board will measure 100 cm wide by 70 cm tall (about 40 x 28 in.). It will hold up to 15 sheets (5 across, 3 down) of A4 or letter-size paper in portrait orientation, with a little overhang in both directions. But you may use whatever sizes, orientations, and combinations of paper that you would like to display your research. You might want to have a title with a very large font to attract attention.

Please design your presentation to fit this board size, print out the pages of the presentation, and bring them with you to the conference. There are too many participants for us to be able to help with on-site photocopying and printing. We will provide fasteners to attach the pages of your presentation to the board, but **you must assemble it yourself.**

If you would like to make your full paper available (which we encourage), send us an electronic file which we will post on the conference website. You may also bring your own hard copies.

During the Poster Session, there will be Hungarian pastries and coffee in both rooms for you and others to enjoy while discussing your research.
