Contents

1 Introduction
  1.1 Energy Star® .......................................................................................................................... 1-3
  1.2 Software licence agreement ................................................................................................. 1-4
  1.3 Explanation of manual conventions ....................................................................................... 1-5
  1.4 Descriptions of originals and paper ..................................................................................... 1-6

2 Installation and operation precautions
  2.1 Safety information ................................................................................................................. 2-3
     Warning and precaution symbols......................................................................................... 2-3
     Meaning of symbols .............................................................................................................. 2-3
     Disassemble and modification ............................................................................................ 2-4
     Power cord ......................................................................................................................... 2-4
     Power source .................................................................................................................... 2-5
     Power plug ....................................................................................................................... 2-5
     Grounding ......................................................................................................................... 2-6
     Installation ........................................................................................................................ 2-7
     Ventilation .......................................................................................................................... 2-7
     Actions in response to troubles .......................................................................................... 2-8
     Consumables ..................................................................................................................... 2-8
     When moving the machine ............................................................................................... 2-9
     Before successive holidays .............................................................................................. 2-9
  2.2 Regulation notices .................................................................................................................. 2-10
     CE Marking (Declaration of Conformity) for users of the European Union (EU) .................. 2-10
     Interference-Causing Equipment Standard (ICES-003 ISSUE 4) (for Canada users) ........ 2-10
     For users in countries not subject to class B regulations .................................................. 2-10
     Laser safety ....................................................................................................................... 2-10
     Internal laser radiation ...................................................................................................... 2-11
     CDRH regulations ............................................................................................................ 2-11
     For European users ........................................................................................................... 2-12
     For Denmark users ............................................................................................................ 2-12
     For Finland, Sweden users ............................................................................................... 2-12
     For Norway users ............................................................................................................. 2-13
     Laser safety label ............................................................................................................. 2-13
     Ozone release .................................................................................................................... 2-14
     Acoustic noise (for European users only) ......................................................................... 2-14
     For EU member states only .............................................................................................. 2-14
  2.3 Caution notations and labels ................................................................................................ 2-15
  2.4 Space requirements .............................................................................................................. 2-17
  2.5 Operation precautions ........................................................................................................... 2-18
     Power source .................................................................................................................... 2-18
     Operating environment ...................................................................................................... 2-18
     Storage of copies .............................................................................................................. 2-18
  2.6 Legal restrictions on copying .............................................................................................. 2-19
3 Copy Operations

3.1 Part names and their functions ................................................................. 3-3
3.1.1 Control panel ..................................................................................... 3-3
3.1.2 Basic settings screens ........................................................................ 3-5
3.1.3 Icons that appear in the screen .......................................................... 3-7
3.2 Turning on the main power and the sub power ....................................... 3-8
3.2.1 Turning on the machine ...................................................................... 3-8
3.2.2 Scanning during warm-up ................................................................... 3-9
3.2.3 Turning off the machine ...................................................................... 3-10
3.2.4 Manually conserving energy ............................................................... 3-11
3.2.5 Controlling each user’s use of this machine (User Authentication) .... 3-12
3.2.6 Controlling each account’s use of this machine (Account Track) ....... 3-16
3.3 Loading paper into tray 1/2/3/4 ............................................................... 3-19
3.4 Loading paper into the LCT .................................................................. 3-21
3.5 Loading paper into the bypass tray ......................................................... 3-23
3.6 Feeding the original ............................................................................... 3-28
3.6.1 Loading the original into the ADF ...................................................... 3-28
3.6.2 Placing the original on the original glass .......................................... 3-29
3.6.3 Scanning the original in separate batches (“Separate Scan” setting) ... 3-31
3.6.4 Scanning a multi-page original from the original glass ................... 3-35
3.7 Selecting a Paper Setting ......................................................................... 3-39
3.7.1 Automatically selecting the paper size (“Auto” Paper setting) ......... 3-40
3.7.2 Manually selecting the desired paper size .......................................... 3-41
3.8 Specifying a Zoom setting ...................................................................... 3-42
3.8.1 Automatically selecting the zoom ratio (“Auto” Zoom Setting) ....... 3-42
3.8.2 Specifying the zoom ratio of the original (“Full Size” setting) ......... 3-43
3.8.3 Slightly reducing the copy (“Minimal” setting) .................................. 3-44
3.8.4 Selecting a preset zoom ratio (Enlarge and Reduce settings) ........... 3-45
3.9 Selecting an Original > Copy setting ....................................................... 3-46
3.10 Selecting a combined copy setting ........................................................ 3-47
3.11 Selecting the quality of the original ..................................................... 3-50
3.11.1 Loading originals with small print or photos (Original Type settings)... 3-50
3.11.2 To select an Original Type setting .................................................... 3-51
3.12 Selecting Finishing settings ................................................................ 3-53
3.12.1 Separating copies by sets (“Sort” setting) ........................................... 3-56
3.12.2 Separating copies by pages (“Group” Setting) .................................. 3-57
3.12.3 Selecting the output tray ................................................................. 3-58
3.12.4 Stapling copies (Staple settings) ....................................................... 3-59
3.12.5 Punching holes in copies (Punch settings) ...................................... 3-63
3.13 Selecting a folding setting .................................................................... 3-65
3.13.1 Folding copies in half (“Half-Fold” setting) ...................................... 3-66
3.13.2 Binding copies at the center (“Center Staple” and “Half-Fold” setting/“Center Staple & Fold” setting) 3-68
3.14 Temporarily stopping scanning/printing .............................................. 3-72
3.15 Checking the print image as a preview image (Advanced Preview) ... 3-73
3.15.1 Preview screen ................................................................................ 3-73
3.15.2 Page Rotation ................................................................................ 3-75
3.15.3 View Finishing .............................................................................. 3-76
3.15.4 Change Setting ............................................................................. 3-76
3.15.2 Checking the advanced preview ...................................................... 3-77
3.16 Interrupting a copy job (Interrupt mode) ............................................ 3-79
3.17 Registering copy programs (Mode Memory) ........................................ 3-80
3.18 Copying with programmed copy settings (Mode Memory) ................. 3-83
4 Print Operations

4.1 Common settings (PCL/PS drivers for Windows) ............................................................... 4-3
4.2 Parameter details (PCL/PS drivers for Windows) ............................................................ 4-4
  4.2.1 Basic tab .................................................................................................................... 4-4
  4.2.2 Layout tab .................................................................................................................. 4-6
  4.2.3 Finish tab .................................................................................................................. 4-8
  4.2.4 Cover Mode tab ........................................................................................................ 4-9
  4.2.5 Stamp/Composition tab ............................................................................................ 4-11
  4.2.6 Quality tab ................................................................................................................. 4-17
  4.2.7 Other tab .................................................................................................................. 4-18

4.3 Common settings (Mac OS X) ......................................................................................... 4-19

4.4 How to add a custom size (Mac OS X) ......................................................................... 4-20
5 Box Operations

5.1 User Box functions ................................................................. 5-3
5.1.1 Available User Box functions ........................................... 5-3
      Saving documents ............................................................. 5-3
      Using document data ......................................................... 5-4
      Organizing document data ............................................... 5-5
5.1.2 Set-up for User Box functions ........................................ 5-6
      User box registration ....................................................... 5-6
      To use the machine for relay device ............................... 5-6
      To use Memory RX user box ........................................... 5-6

5.2 User box registration ............................................................ 5-7
5.2.1 User box registration ....................................................... 5-7
      Public/Personal/Group user boxes ............................... 5-8
      Delete Empty User Box(es) ............................................ 5-9
      Bulletin Board User Box .................................................. 5-10
      Relay User Box .............................................................. 5-11

5.3 Saving documents in user boxes ......................................... 5-12
5.3.1 Available operations in the Save Document screen ......... 5-12
      Public/personal/group user boxes ................................ 5-15
      Annotation User Box ...................................................... 5-15
      External Memory ............................................................ 5-15
5.3.2 Initial screen of Save Document................................................................. 5-16
Public/Personal/Group user box ...................................................................... 5-16
System User Box ......................................................................................... 5-16
5.3.3 Description of the Save Document screen .................................................. 5-16
5.4 Printing documents in user boxes ................................................................. 5-17
5.4.1 Available operations in the Use Document screen ................................. 5-20
Print ........................................................................................................... 5-20
Transmitting ............................................................................................... 5-20
Document Details ....................................................................................... 5-20
5.4.2 Initial screen of Use Document ................................................................. 5-21
Public/Personal/Group user box ...................................................................... 5-21
System User Box ......................................................................................... 5-21
5.4.3 Description of Use Document screen ........................................................ 5-22
5.4.4 When a password is specified for the user box ............................................. 5-23
5.4.5 Overview of Print .................................................................................. 5-23
5.4.6 Description of the Print screen ................................................................. 5-24
5.4.7 Copies .................................................................................................. 5-24
5.4.8 1-Sided/2-Sided .................................................................................... 5-25
5.4.9 Finishing ................................................................................................ 5-25
Sort/Group .................................................................................................. 5-25
Offset ......................................................................................................... 5-25
Staple ......................................................................................................... 5-25
Staple - Position Setting ............................................................................. 5-26
Punch ......................................................................................................... 5-26
Punch - Position Setting ............................................................................. 5-26
Center Staple/Fold ..................................................................................... 5-27
Center Staple & Fold .................................................................................. 5-28
5.4.10 Combining Order .................................................................................. 5-29
5.5 Sending documents in user boxes ................................................................. 5-30
5.5.1 Overview of Send .................................................................................. 5-36
5.5.2 Description of the Send screen ................................................................. 5-36
5.6 Organizing user box documents ................................................................... 5-37
5.6.1 Public/Personal/Group ........................................................................... 5-38
System ........................................................................................................ 5-38
5.6.2 Description of the File Document screen ................................................... 5-39
Public/Personal/Group ............................................................................. 5-39
System User Box ....................................................................................... 5-40
5.6.3 Deleting a document ............................................................................. 5-40
5.6.4 Edit Name ............................................................................................ 5-40
5.6.5 Move .................................................................................................. 5-41
5.6.6 Copy .................................................................................................. 5-41
5.6.7 Document Details ................................................................................ 5-42
Display of detailed information .................................................................. 5-42
Preview ...................................................................................................... 5-43
5.7 Secure Print User Box (System User Box) ................................................... 5-44
5.7.1 What is Secure Print User Box? ............................................................... 5-44
5.7.2 Authentication procedure 1 ..................................................................... 5-44
5.7.3 Authentication procedure 2 ..................................................................... 5-44
5.7.4 Printing ................................................................................................. 5-45
5.7.5 Deleting ................................................................................................. 5-45
5.8 Encrypted PDF User Box (System User Box) ............................................... 5-46
5.8.1 What is Encrypted PDF User Box? .......................................................... 5-46
5.8.2 Encrypted PDF User Box screen ............................................................. 5-46
5.8.3 Printing ................................................................................................. 5-46
5.8.4 Deleting ................................................................................................. 5-46
6 Network Scan/Fax/Network Fax Operations

6.1 Transmission functions

- Function type ................................................. 6-3
- Precautions for using fax function (G3) ................. 6-3
- Precautions for using network fax .......................... 6-3
- Precautions for using Internet fax .......................... 6-4
- Precautions for using IP Address Fax ....................... 6-4

6.2 Overview ...................................................... 6-5

6.2.1 Available Network Scan functions ................. 6-5
- Scan to E-Mail ..................................................... 6-5
- FTP TX ................................................................. 6-5
- SMB TX ................................................................. 6-6
- Save in User Box .................................................. 6-6
- WebDAV TX ......................................................... 6-7
- Web Service .......................................................... 6-7

6.2.2 Available Fax functions ................................. 6-8
- G3 fax transmission/reception ................................. 6-8
- Polling ................................................................. 6-8

6.2.3 Available Network Fax functions .................. 6-9
- Internet Fax .......................................................... 6-9
- IP Address Fax ..................................................... 6-9

6.3 Address Registration ...................................... 6-10

6.3.1 Address Book .............................................. 6-10
6.3.2 Group .......................................................... 6-10

6.4 Optional settings .......................................... 6-10

6.5 Using Web services ........................................ 6-11

6.5.1 Settings required for using Web services ........... 6-11
6.5.2 Installing the driver of this machine on the computer .... 6-11
- Pre-installation checking ....................................... 6-11
- Installation procedure ......................................... 6-11

6.6 Operation flow ............................................. 6-12

6.6.1 Scan/Network fax ........................................ 6-12
6.6.2 Fax (G3) ....................................................... 6-16
6.6.3 Recalling a program ....................................... 6-20
6.6.4 Broadcasting ............................................... 6-23

6.7 Using Advanced Preview ............................... 6-27

6.7.1 Preview screen ............................................ 6-27
- Preview - View Pages ........................................ 6-27
- Preview - View Pages - Change Setting .................. 6-28
- Preview - View Status ......................................... 6-28

6.7.2 Sending using Advanced Preview .................... 6-29

6.8 Menu tree in Fax/Scan mode ............................ 6-31

6.9 Initial screen for fax/scan operations ................. 6-38

6.9.1 Screen layout .............................................. 6-38
6.9.2 Address Book .............................................. 6-39
- Search - Address Type ....................................... 6-39
- Search - Index ..................................................... 6-40
- Search - Detail Search ......................................... 6-41
- Detail Search - Search Options ............................. 6-41
6.9.1 Direct Input - Fax .......................................................... 6-43
6.9.2 Direct Input - E-Mail .................................................. 6-44
6.9.3 Direct Input - User Box ............................................. 6-44
6.9.4 Direct Input - Internet Fax ........................................ 6-45
6.9.5 Direct Input - FTP ...................................................... 6-48
6.9.6 Direct Input - User Box ............................................. 6-44
6.9.7 Direct Input - User Box ............................................. 6-44
6.9.8 Direct Input - IP Address Fax ................................. 6-46
6.9.9 Direct Input - PC (SMB) ........................................... 6-47
6.9.10 Direct Input - FTP .................................................. 6-48
6.9.11 Direct Input - WebDAV ........................................... 6-50
6.9.12 Direct Input - Web Service ..................................... 6-52
6.9.13 Job History (G3) ..................................................... 6-52
6.9.14 Address Search - Search ........................................... 6-53
6.9.15 Address Search - Advanced Search..................... 6-54
6.9.16 Off-Hook (G3) .......................................................... 6-55

6.10 Scan Settings .............................................................. 6-56
6.10.1 Basic - Original Type .............................................. 6-56
6.10.2 Basic - Simplex/Duplex ............................................ 6-57
6.10.3 Basic - Resolution ................................................... 6-58
6.10.4  File Type ................................................................. 6-59
       File Type ........................................................................................................ 6-59
6.10.5  Scan Settings .................................................................................. 6-60
       Encryption - Encryption Level, Password, Document Permissions, and Detail Settings .......... 6-60
       Encryption - Password .............................................................. 6-60
       Encryption - Document Permissions ............................................. 6-60
       Encryption - Detail Settings - Printing Allowed/Enable copying of text, images and other content ... 6-61
       Encryption - Detail Settings - Changes Allowed .......................... 6-62
6.10.6  Stamp Composition ........................................................................ 6-63
6.10.7  Quality Adjustment ........................................................................ 6-65
       Color (E-Mail/User Box/SMB/FTP/WebDAV/IP) ........................................... 6-65
       Auto Color ............................................................................................. 6-65
       Full Color .............................................................................................. 6-65
       Gray Scale ............................................................................................ 6-65
       Black ...................................................................................................... 6-65
       Background Removal ........................................................................... 6-66
       Sharpness .............................................................................................. 6-66
6.10.8  Erase ............................................................................................... 6-67
       Frame Erase ............................................................................................ 6-67
6.10.9  Book Scan - Book Copy ................................................................ 6-68
       Book Spread .......................................................................................... 6-68
       Separation ............................................................................................... 6-68
       Front Cover ............................................................................................. 6-68
       Front + Back Covers .............................................................................. 6-68
       Book Erase - Frame Erase ................................................................. 6-69
       Book Erase - Center Erase ................................................................. 6-69
       Book Erase - Center Erase ................................................................. 6-70
6.10.10 Application - Scan Size ............................................................ 6-71
       Standard ............................................................................................... 6-71
       Custom Size .......................................................................................... 6-71
       Photo Size ............................................................................................. 6-72
6.10.11 Application - Annotation ............................................................. 6-72
       Selecting an annotation user box ......................................................... 6-72
6.10.12 Application - Stamp/Composition - Date/Time .......................... 6-73
       Date Format ........................................................................................... 6-73
       Time Format .......................................................................................... 6-73
       Pages ........................................................................................................ 6-73
       Text Color ............................................................................................. 6-73
       Text Size ................................................................................................. 6-74
       Print Position - Print Position .......................................................... 6-74
       Print Position - Fine-Tune ................................................................. 6-74
6.10.13 Application - Stamp/Composition - Page Number .................. 6-75
       Starting Page Number ........................................................................ 6-75
       Starting Chapter Number ........................................................................ 6-75
       Page Number Type ................................................................................. 6-75
       Text Color .............................................................................................. 6-75
       Text Size ................................................................................................. 6-76
6.10.14 Application - Stamp/Composition - Stamp ................................ 6-77
       Stamp Type/Preset Stamps .................................................................. 6-77
       Pages ........................................................................................................ 6-77
       Text Color .............................................................................................. 6-77
       Text Size ................................................................................................. 6-78
       Print Position - Print Position .......................................................... 6-78
       Print Position - Fine-Tune ................................................................. 6-78
6.10.15 Application - Stamp/Composition - Header/Footer .......................................................... 6-79
Recall Header/Footer .................................................................................................................. 6-79
Check/Change Temporarily ...................................................................................................... 6-79
Check/Change Temporarily - Header Settings/Footer Settings .............................................. 6-80
Check/Change Temporarily - Header Settings/Footer Settings - Text .................................. 6-80
Check/Change Temporarily - Header Settings/Footer Settings - Date/Time .......................... 6-81
Check/Change Temporarily - Header Settings/Footer Settings - Other ............................... 6-81
Check/Change Temporarily - Pages ....................................................................................... 6-81
Check/Change Temporarily - Text Color ................................................................................ 6-82
Check/Change Temporarily - Text Size .................................................................................. 6-82

6.10.16 Application - Send & Print .......................................................................................... 6-83
Send & Print ............................................................................................................................. 6-83
Copies .................................................................................................................................... 6-83
Simplex/Duplex ....................................................................................................................... 6-83
Staple ...................................................................................................................................... 6-83
Staple - Position Setting ........................................................................................................ 6-83

6.10.17 Application - TX Stamp (G3/IP/I-FAX) ........................................................................ 6-84
TX Stamp ............................................................................................................................... 6-84
Printing a TX stamp .............................................................................................................. 6-84

6.10.18 Document Name (E-Mail/User Box/SMTP/FTP/WebDAV/I-FAX)... ............................... 6-84

6.11 Original Settings .............................................................................................................. 6-85

6.11.1 Special Original - Mixed Original .................................................................................. 6-85
6.11.2 Special Original - Z-Folded Original .............................................................................. 6-85
6.11.3 Special Original - Long Original .................................................................................... 6-85
6.11.4 Direction Settings - Original Direction ......................................................................... 6-86
6.11.5 Direction Settings - Binding Position .......................................................................... 6-86
6.11.6 Total # of Pages (Quick Memory TX) (G3) .................................................................. 6-87
6.11.7 Despecック .................................................................................................................... 6-88

6.12 Communication Settings ............................................................................................... 6-89

6.12.1 Line Settings (G3) ........................................................................................................ 6-89

Introduction
1 Introduction

Thank you for choosing this machine.

This manual contains details on the operation of the various functions of the machine, precautions on its use, and basic troubleshooting procedures. In order to ensure that this machine is used correctly and efficiently, carefully read this manual as needed.

The illustrations used in this manual may appear slightly different from views of the actual equipment.

1.1 Energy Star®

As an ENERGY STAR® Partner, we have determined that this machine meets the ENERGY STAR® Guidelines for energy efficiency.

What is an ENERGY STAR® product?

An ENERGY STAR® product has a special feature that allows it to automatically switch to a "low-power mode" after a period of inactivity. An ENERGY STAR® product uses energy more efficiently, saves you money on utility bills and helps protect the environment.
1.2 Software licence agreement

This package contains the following materials provided by KONICA MINOLTA BUSINESS TECHNOLOGIES, INC. (KMBT): software included as part of the printing system, the digitally-encoded machine-readable outline data encoded in the special format and in the encrypted form ("Font Programs"), other software which runs on a computer system for use in conjunction with the Printing Software ("Host Software"), and related explanatory written materials ("Documentation"). The term "Software" shall be used to describe Printing Software, Font Programs and/or Host Software and also include any upgrades, modified versions, additions, and copies of the Software.

The Software is being licensed to you under the terms of this Agreement.

KMBT grants to you a non-exclusive sublicense to use the Software and Documentation, provided that you agree to the following:

1. You may use the Printing Software and accompanying Font Programs for imaging to the licensed output device(s), solely for your own internal business purposes.
2. In addition to the license for Font Programs set forth in Section 1 ("Printing Software") above, you may use Roman Font Programs to reproduce weights, styles, and versions of letters, numerals, characters and symbols ("Typefaces") on the display or monitor for your own internal business purposes.
3. You may make one backup copy of the Host Software, provided your backup copy is not installed or used on any computer. Notwithstanding the above restrictions, you may install the on any number of computers solely for use with one or more printing systems running the Printing Software.
4. You may assign its rights under this Agreement to an assignee of all of Licensee’s right and interest to such Software and Documentation ("Assignee") provided you transfer to Assignee all copies of such Software and Documentation Assignee agrees to be bound by all of the terms and conditions of this Agreement.
5. You agree not to modify, adapt or translate the Software and Documentation.
6. You agree that you will not attempt to alter, disassemble, decrypt, reverse engineer or decompile the Software.
7. Title to and ownership of the Software and Documentation and any reproductions thereof shall remain with KMBT and its licensor.
8. Trademarks shall be used in accordance with accepted trademark practice, including identification of the trademark owner’s name. Trademarks can only be used to identify printed output produced by the Software. Such use of any trademark does not give you any rights of ownership in that trademark.
9. You may not rent, lease, sublicense, lend or transfer versions or copies of the Software Licensee does not use, or Software contained on any unused media, except as part of the permanent transfer of all Software and Documentation as described above.
10. IN NO EVENT WILL KMBT OR ITS LICENSOR BE LIABLE TO YOU FOR ANY CONSEQUENTIAL, INCIDENTAL INDIRECT, PUNITIVE OR SPECIAL DAMAGES, INCLUDING ANY LOST PROFITS OR LOST SAVING, EVEN IF KMBT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY ANY THIRD PARTY. KMBT OR ITS LICENSOR DISCLAIMS ALL WARRANTIES WITH REGARD TO THE SOFTWARE, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT OF THIRD PARTY RIGHTS. SOME STATES OR JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.
11. Notice to Government End Users: The Software is a “commercial item,” as that term is defined at 48 C.F.R.2.101, consisting of “commercial computer software” and “commercial computer software documentation,” as such terms are used in 48 C.F.R. 12.212. Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4, all U.S. Government End Users acquire the Software with only those rights set forth herein.
12. You agree that you will not export the Software in any form in violation of any applicable laws and regulations regarding export control of any countries.
1.3 **Explanation of manual conventions**
The marks and text formats used in this manual are described below.

**Safety advices**

⚠️ **DANGER**
Failure to observe instructions highlighted in this manner may result in fatal or critical injuries in fact of electrical power.
→ Observe all dangers in order to prevent injuries.

⚠️ **WARNING**
Failure to observe instructions highlighted in this manner may result in serious injuries or property damage.
→ Observe all warnings in order to prevent injuries and to ensure safe use of the machine.

⚠️ **CAUTION**
Failure to observe instructions highlighted in this manner may result in slight injuries or property damage.
→ Observe all cautions in order to prevent injuries and to ensure safe use of the machine.

**Sequence of action**

1 The number 1 as formatted here indicates the first step of a sequence of actions.

2 Subsequent numbers as formatted here indicate subsequent steps of a sequence of actions.

? Text formatted in this style provides additional assistance.

→ Text formatted in this style describes the action that will ensure the desired results are achieved.

**Tips**

atitude

Note
Text highlighted in this manner contains useful information and tips to ensure safe use of the machine.

Reminder
Text highlighted in this manner contains information that should be reminded.

Detail
Text highlighted in this manner contains references for more detailed information.
1.4 Descriptions of originals and paper

The descriptions used in this manual for originals and paper are explained below. Whenever original and paper dimensions are mentioned in this manual, the value shown as Y in the illustration refers to the width, and the value shown as X refers to the length.

Lengthwise (▼)
If the width (Y) of the paper is shorter than the length (X), the paper has a vertical or portrait orientation, indicated by ▼.

Crosswise (▼)
If the width (Y) of the paper is longer than the length (X), the paper has a horizontal or landscape orientation, indicated by ▲.
2 Installation and operation precautions
2 Installation and operation precautions

2.1 Safety information

This section contains detailed instructions on the operation and maintenance of this machine. To achieve optimum utility of this device, all operators should carefully read and follow the instructions in this manual.

Please read the following section before connecting the machine to the supply. It contains important information related to user safety and preventing equipment problems.

Please keep this manual in a handy place near the machine.

Make sure you observe all of the precautions appear in each section of this manual.

Note

Some parts of the contents of this section may not correspond with the purchased product.

Warning and precaution symbols

The following indicators are used on the warning labels or in this manual to categorize the level of safety warnings.

⚠️ WARNING

Ignoring these warnings could cause serious injury or even death.

⇒ Do not ignore these safety advices.

⚠️ CAUTION

Ignoring this cautions could cause injury or damage to property.

⇒ Do not ignore these safety advices.

Meaning of symbols

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Meaning</th>
<th>Example</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>△</td>
<td>A triangle indicates a danger against which you should take precaution.</td>
<td>⚠️</td>
<td>This symbol warns against possible causes of burns.</td>
</tr>
<tr>
<td>☞</td>
<td>A diagonal line indicates a prohibited course of action.</td>
<td>☮️</td>
<td>This symbol warns against dismantling the device.</td>
</tr>
<tr>
<td>●</td>
<td>A black circle indicates an imperative course of action.</td>
<td>⚪️</td>
<td>This symbol indicates you must unplug the device.</td>
</tr>
</tbody>
</table>
Disassemble and modification

⚠️ WARNING
Ignoring these warnings could cause serious injury or even death.
⇒ Do not ignore these safety advices.

<table>
<thead>
<tr>
<th>Warning</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Do not attempt to remove the covers and panels which have been fixed to the product. Some products have a high-voltage part or a laser beam source inside that could cause an electrical shock or blindness.</td>
<td>![Symbol]</td>
</tr>
<tr>
<td>• Do not modify this product, as a fire, electrical shock, or breakdown could result. If the product employs a laser, the laser beam source could cause blindness.</td>
<td>![Symbol]</td>
</tr>
</tbody>
</table>

Power cord

⚠️ WARNING
Ignoring these warnings could cause serious injury or even death.
⇒ Do not ignore these safety advices.

<table>
<thead>
<tr>
<th>Warning</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Use only the power cord supplied in the package. If a power cord is not supplied, only use the power cord and plug that is specified in POWER CORD INSTRUCTION. Failure to use this cord could result in a fire or electrical shock.</td>
<td>![Symbol]</td>
</tr>
<tr>
<td>• Use the power cord supplied in the package only for this machine and NEVER use it for any other product. Failure to observe this precaution could result in a fire or electrical shock.</td>
<td>![Symbol]</td>
</tr>
<tr>
<td>• Do not scratch, abrade, place a heavy object on, heat, twist, bend, pull on, or damage the power cord. Use of a damaged power cord (exposed core wire, broken wire, etc.) could result in a fire or breakdown. Should any of these conditions be found, immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your authorized service representative.</td>
<td>![Symbol]</td>
</tr>
</tbody>
</table>
Power source

⚠️ WARNING

Ignoring these warnings could cause serious injury or even death.
→ Do not ignore these safety advices.

<table>
<thead>
<tr>
<th>Warning</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Use only the specified power source voltage. Failure to do that could result in a fire or electrical shock.</td>
<td>![Warning Symbol]</td>
</tr>
<tr>
<td>• Connect power plug directly into wall outlet having the same configuration as the plug. Use of an adapter leads to the product connecting to inadequate power supply (voltage, current capacity, grounding), and may result in fire or shock. If proper wall outlet is not available, the customer shall ask qualified electrician for the installation.</td>
<td>![Warning Symbol]</td>
</tr>
<tr>
<td>• Do not use a multiple outlet adapter nor an extension cord in principle. Use of an adapter or an extension cord could cause a fire or electrical shock. Contact your authorized service representative if an extension cord is required.</td>
<td>![Warning Symbol]</td>
</tr>
<tr>
<td>• Consult your authorized service representative before connecting other equipment on the same wall outlet. Overload could result in a fire.</td>
<td>![Warning Symbol]</td>
</tr>
</tbody>
</table>

⚠️ CAUTION

Ignoring this cautions could cause injury or damage to property.
→ Do not ignore these safety advices.

<table>
<thead>
<tr>
<th>Caution</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>• The outlet must be near the equipment and easily accessible. Otherwise you can not pull out the power plug when an emergency occurs.</td>
<td>![Warning Symbol]</td>
</tr>
</tbody>
</table>

Power plug

⚠️ WARNING

Ignoring these warnings could cause serious injury or even death.
→ Do not ignore these safety advices.

<table>
<thead>
<tr>
<th>Warning</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Do not unplug and plug in the power cord with a wet hand, as an electrical shock could result.</td>
<td>![Warning Symbol]</td>
</tr>
<tr>
<td>• Plug the power cord all the way into the power outlet. Failure to do this could result in a fire or electrical shock.</td>
<td>![Warning Symbol]</td>
</tr>
</tbody>
</table>

⚠️ CAUTION

Ignoring this cautions could cause injury or damage to property.
→ Do not ignore these safety advices.
Installation and operation precautions

2

2-6 bizhub C353/C253/C203 (FE2)

Grounding

⚠️ WARNING

Ignoring these warnings could cause serious injury or even death.

Do not ignore these safety advices.

Caution

Symbol

- Do not tug the power cord when unplugging. Pulling on the power cord could damage the cord, resulting in a fire or electrical shock.

- Remove the power plug from the outlet more than one time a year and clean the area between the plug terminals. Dust that accumulates between the plug terminals may cause a fire.

Caution

Symbol

- Do not tug the power cord when unplugging. Pulling on the power cord could damage the cord, resulting in a fire or electrical shock.

- Remove the power plug from the outlet more than one time a year and clean the area between the plug terminals. Dust that accumulates between the plug terminals may cause a fire.

Warning

Symbol

- Connect the power cord to an electrical outlet that is equipped with a grounding terminal.
Installation

⚠️ WARNING

Ignoring these warnings could cause serious injury or even death.

Do not ignore these safety advices.

- Do not place a flower vase or other container that contains water, or metal clips or other small metallic objects on this product. Spilled water or metallic objects dropped inside the product could result in a fire, electrical shock, or breakdown. Should a piece of metal, water, or any other similar foreign matter get inside the product, immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your authorized service representative.

⚠️ CAUTION

Ignoring this cautions could cause injury or damage to property.

Do not ignore these safety advices.

- After installing this product, mount it on a secure base. If the unit moves or falls, it may cause personal injury.

- Do not place the product in a dusty place, or a site exposed to soot or steam, near a kitchen table, bath, or a humidifier. A fire, electrical shock, or breakdown could result.

- Do not place this product on an unstable or tilted bench, or in a location subject to a lot of vibration and shock. It could drop or fall, causing personal injury or mechanical breakdown.

- Do not let any object plug the ventilation holes of this product. Heat could accumulate inside the product, resulting in a fire or malfunction.

- Do not use flammable sprays, liquids, or gases near this product, as a fire could result.

Ventilation

⚠️ CAUTION

Ignoring this cautions could cause injury or damage to property.

Do not ignore these safety advices.

- Always use this product in a well ventilated location. Operating the product in a poorly ventilated room for an extended period of time could injure your health. Ventilate the room at regular intervals.
Actions in response to troubles

⚠️ WARNING
Ignoring these warnings could cause serious injury or even death.
→ Do not ignore these safety advices.

<table>
<thead>
<tr>
<th>Warning</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Do not keep using this product, if this product becomes inordinately hot or emits smoke, or unusual odor or noise. Immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your authorized service representative. If you keep on using it as is, a fire or electrical shock could result.</td>
<td>![Symbol]</td>
</tr>
<tr>
<td>• Do not keep using this product, if this product has been dropped or its cover damaged. Immediately turn OFF the power switch, unplug the power cord from the power outlet, and then call your authorized service representative. If you keep on using it as is, a fire or electrical shock could result.</td>
<td>![Symbol]</td>
</tr>
</tbody>
</table>

⚠️ CAUTION
Ignoring this cautions could cause injury or damage to property.
→ Do not ignore these safety advices.

<table>
<thead>
<tr>
<th>Caution</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>• The inside of this product has areas subject to high temperature, which may cause burns. When checking the inside of the unit for malfunctions such as a paper misfeed, do not touch the locations (around the fusing unit, etc.) which are indicated by a &quot;Caution HOT&quot; caution label.</td>
<td>![Symbol]</td>
</tr>
</tbody>
</table>

Consumables

⚠️ WARNING
Ignoring these warnings could cause serious injury or even death.
→ Do not ignore these safety advices.

<table>
<thead>
<tr>
<th>Warning</th>
<th>Symbol</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Do not throw the toner cartridge or toner into an open flame. The hot toner may scatter and cause burns or other damage.</td>
<td>![Symbol]</td>
</tr>
</tbody>
</table>

⚠️ CAUTION
Ignoring this cautions could cause injury or damage to property.
→ Do not ignore these safety advices.

<table>
<thead>
<tr>
<th>Caution</th>

2.2 Regulation notices

CE Marking (Declaration of Conformity) for users of the European Union (EU)

This product complies with the following EU directives: 2006/95/EC, 2004/108/EC and 1999/5/EC directives.

This declaration is valid for the area of the European Union.

This device must be used with a shielded network cable. The use of non-shielded cables is likely to result in interference with radio communications and is prohibited under CISPR rules and local rules.

Optional Authentication Unit AU-201 (IC Card Reader/Writer):
This product is wireless system equipment (Short-Range Device) which the R & TTE directive (1999/5/EC) covers. Frequency of operation is 13.56 MHz.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

⚠️ WARNING

The design and production of this unit conform to FCC regulations, and any changes or modifications must be registered with the FCC and are subject to FCC control.

Any changes made by the purchaser or user without first contacting the manufacturer will be subject to penalty under FCC regulations.

- This device must be used with a shielded network (10 Base-T/100 Base-TX) cable and a shielded parallel cable. The use of non-shielded cables is likely to result in interference with radio communications and is prohibited under FCC rules.

Interference-Causing Equipment Standard (ICES-003 ISSUE 4) (for Canada users)

This Class A digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

For users in countries not subject to class B regulations

⚠️ WARNING

Interference with radio communications:

- This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

- This device must be used with a shielded network cable. The use of non-shielded cables is likely to result in interference with radio communications and is prohibited under CISPR rules and local rules.

Laser safety

This is a digital machine which operates using a laser. There is no possibility of danger from the laser provided the machine is operated according to the instructions in this manual.

Since radiation emitted by the laser is completely confined within protective housing, the laser beam cannot escape from the machine during any phase of user operation.

This machine is certified as a Class 1 laser product: This means the machine does not produce hazardous laser radiation.
Internal laser radiation

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>Maximum average radiation power</td>
<td>7.7 μW at the laser aperture of the print head unit</td>
</tr>
<tr>
<td></td>
<td>bizhub C353:</td>
</tr>
<tr>
<td></td>
<td>11.6 μW at the laser aperture of the print head unit</td>
</tr>
<tr>
<td>Wavelength</td>
<td>775-800 nm</td>
</tr>
</tbody>
</table>

⚠️ **WARNING**

This product employs a Class 3B laser diode that emits an invisible laser beam.

- The laser diode and the scanning polygon mirror are incorporated in the print head unit.
- The print head unit is NOT A FIELD SERVICE ITEM:
  Therefore, the print head unit should not be opened under any circumstances.

CDRH regulations

This machine is certified as a Class 1 Laser product under Radiation Performance Standard according to the Food, Drug and Cosmetic Act of 1990. Compliance is mandatory for Laser products marketed in the United States and is reported to the Center for Devices and Radiological Health (CDRH) of the U.S. Food and Drug Administration of the U.S. Department of Health and Human Services (DHHS). This means that the device does not produce hazardous laser radiation.

The label shown on page 2-13 indicates compliance with the CDRH regulations and must be attached to laser products marketed in the United States.

⚠️ **CAUTION**

Use of controls, adjustments or performance of procedures other than those specified in this manual may result in hazardous radiation exposure.

- This is a semiconductor laser. The maximum power of the laser diode is 30 mW and the wavelength is 775-800 nm.
\textbf{CAUTION}

Use of controls, adjustments or performance of procedures other than those specified in this manual may result in hazardous radiation exposure.

- This is a semiconductor laser. The maximum power of the laser diode is 30 mW and the wavelength is 775-800 nm.

\textbf{ADVARSEL}

Dette er en halvlederlaser.

Dette er en halvlederlaser. Laserdiodens højeste styrke er 30 mW og bølgelængden er 775-800 nm.

\textbf{VAROITUS}

Tämä on puolijohdelaser.

- Laitteen Käyttäminen muuilla kuin tässä käyttöohjeessa mainitulla tavalla saattaa altistaa käyttäjän turvallisuusluokan 1 ylittävälle näkymättömälle lasersäteilylle.

Tämä on puolijohdelaser. Laserdiodin sunrin teho on 30 mW ja aallonpituus on 775-800 nm.

\textbf{WARNING}

Det här är en halvledarlaser.

- Om apparaten används på annat sätt än i denna bruksanvisning specificerats, kan användaren utsätta för osynlig laserstrålning, som överskrider gränsen för laserklass 1.

Det här är en halvledarlaser. Den maximala effekten för laserdioden är 30 mW och våglängden är 775-800 nm.

\textbf{VAROITUS}

Avattaessa ja suojalukitus ohitettaessa olet alttiina näkymättömälle lasersäteilylle.

- Älä katso säteeseen.

\textbf{WARNING}

Osynlig laserstråning när denna del är öppnad och spårren är urkopplad.

- Betrakta ej strålen.
For Norway users

⚠️ ADVARSEL!

Dette en halvleder laser.

⇒ Dersom apparatet brukes på annen måte enn spesifisert i denne bruksanvisning, kan brukeren utsettes for unsynlig laserstråling som overskrider grensen for laser klass 1.

Dette en halvleder laser. Maksimal effekt till laserdiode er 30 mW og bølgelengde er 775-800 nm.

Laser safety label

A laser safety label is attached to the outside of the machine, as shown below.
Ozone release

⚠️ CAUTION

Locate the machine in a well ventilated room

→ A negligible amount of ozone is generated during normal operation of this machine. An unpleasant odor may, however, be created in poorly ventilated rooms during extensive machine operations. For a comfortable, healthy, and safe operating environment, it is recommended that the room well ventilated.

⚠️ ATTENTION

Placer l’appareil dans une pièce largement ventilée.

→ Une quantité d’ozone négligable est dégagée pendant le fonctionnement de l’appareil quand celui-ci est utilisé normalement. Cependant, une odeur désagréable peut être ressentie dans les pièces dont l’aération est insuffisante et lorsque une utilisation prolongée de l’appareil est effectuée. Pour avoir la certitude de travailler dans un environnement réunissant des conditions de confort, santé et de sécurité, il est préférable de bien aérer la pièce ou se trouve l’appareil.

Acoustic noise (for European users only)

Maschinenlärminformations-Verordnung 3. GPSGV: Der höchste Schalldruckpegel beträgt 70 dB(A) oder weniger gemäß EN ISO 7779.

For EU member states only

This symbol means: Do not dispose of this product together with your household waste!

Please refer to the information of your local community or contact our dealers regrading the proper handling of end-of-life electric and electronic equipments. Recycling of this product will help to conserve natural resources and prevent potential negative consequences for the environment and human health caused by inappropriate waste handling.

This product complies with RoHS (2002/95/EC) Directive.

This device is not intended for use at a video workstation in compliance with BildscharbV.

Das Gerät ist nicht für die Benutzung am Bildschirmarbeitsplatz gemäß BildscharbV vorgesehen.
2.3 Caution notations and labels

Safety precaution notations and labels appear on this machine at the following positions.

Be very careful that an accident does not occur when operations such as removing paper misfeeds are performed.
Only for Europe

CAUTION
This unit has more than one power-supply cord. To reduce the risk of electric shock disconnect all power supply cords before servicing.

Only for USA and Taiwan

CAUTION
This unit has more than one power-supply cord. To reduce the risk of electric shock disconnect all power supply cords before servicing.
2.4 **Space requirements**

To ensure that machine operation, consumables replenishing, part replacement, and regular maintenance can easily be performed, adhere to the recommended space requirements detailed below.

### Reminder

*When the option is not installed, be sure to allow a clearance of 200 mm or more at the back of this machine for the ventilation duct.*
2.5 Operation precautions

To ensure the optimum performance of this machine, observe the precautions described below.

**Power source**

The power source requirements are as follows.

- Voltage fluctuation: Maximum ± 10% (at 220 to 240 V AC)
- Frequency fluctuation: Maximum ± 3 Hz (at 50 Hz/60 Hz)
  - Use a power source with as little voltage or frequency fluctuations as possible.

**Operating environment**

The environmental requirements for correct operation of the machine are as follows.

- Temperature: 10°C (50°F) to 30°C (86°F) with fluctuations of no more than 10°C (18°F) within an hour
- Humidity: 15% to 85% with fluctuations of no more than 10% within an hour

**Storage of copies**

To store copies, follow the recommendation listed below.

- Copies that are to be kept for a long time should be kept where they are not exposed to light in order to prevent them from fading.
- Adhesive that contains solvent (e.g., spray glue) may dissolve the toner on copies.
- Color copies have a thicker layer of toner than normal black-and-white copies. Therefore, when a color copy is folded, the toner at the fold may peel off.
2.6 Legal restrictions on copying

Certain types of originals must never be copied with the purpose or intent to pass copies of such originals off as the originals.

The following is not a complete list, but is meant to be used as a guide to responsible copying.

Financial Instruments
- Personal checks
- Traveler’s checks
- Money orders
- Certificates of deposit
- Bonds or other certificates of indebtedness
- Stock certificates

Legal Originals
- Food stamps
- Postage stamps (canceled or uncanceled)
- Checks or drafts drawn by government agencies
- Internal revenue stamps (canceled or uncanceled)
- Passports
- Immigration papers
- Motor vehicle licenses and titles
- House and property titles and deeds

General
- Identification cards, badges, or insignias
- Copyrighted works without permission of the copyright owner

In addition, it is prohibited under any circumstances to copy domestic or foreign currencies, or works of art without permission of the copyright owner.

When in doubt about the nature of an original, consult with legal counsel.

Detail

In order to prohibit the illegal reproduction of certain originals, such as paper currency, this machine is equipped with a counterfeit prevention feature.

Due to the counterfeit prevention feature that this machine is equipped with, images may be distorted.
3 Copy Operations

<tr>
<td>3</td>
<td>Sub power switch</td>
<td>Press to turn on/off machine operations. When turned off, the machine enters a state where it conserves energy.</td>
</tr>
<tr>
<td>4</td>
<td>[Mode Memory] key</td>
<td>Press to register (store) the desired copy/fax/scan settings as a program or to recall a registered program. (See p. 3-80.)</td>
</tr>
<tr>
<td>5</td>
<td>[Utility/Counter] key</td>
<td>Press to display the Meter Count screen and the Utility screen.</td>
</tr>
<tr>
<td>6</td>
<td>[Reset] key</td>
<td>Press to clear all settings (except programmed settings) entered in the control panel and touch panel.</td>
</tr>
<tr>
<td>7</td>
<td>[Interrupt] key</td>
<td>Press to enter Interrupt mode. While the machine is in Interrupt mode, the indicator on the [Interrupt] key lights up in green and the message “Now in Interrupt mode.” appears on the touch panel. To cancel Interrupt mode, press the [Interrupt] key again.</td>
</tr>
<tr>
<td>8</td>
<td>[Stop] key</td>
<td>Pressing the [Stop] key while copying, scanning or printing temporarily stops the operation.</td>
</tr>
<tr>
<td>9</td>
<td>[Proof Copy] key</td>
<td>Press to print a single proof copy to be checked before printing a large number of copies. Press the [Proof Copy] key before pressing the [Start] key to display the preview image of the currently specified settings on the touch panel. (See p. 3-73)</td>
</tr>
<tr>
<td>10</td>
<td>[Start] key</td>
<td>Press to start the copy, scan or fax operation. When this machine is ready to begin the operation, the indicator on the [Start] key lights up in blue. If the indicator on the [Start] key lights up in orange, copying cannot begin. Press to restart a stopped job.</td>
</tr>
</tbody>
</table>
### Part name | Description
--- | ---
11 | Data indicator
   | Flashes in blue while a print job is being received. Lights up in blue when a print job is queued to be printed or while it is being printed. The indicator lights up in blue when there is saved fax data or unprinted fax data.
12 | [C] (clear) key
   | Press to clear a value (such as the number of copies, a zoom ratio, or a size) entered using the keypad.
13 | Keypad
   | Use to type in the number of copies to be produced.
   | Use to type in the zoom ratio.
   | Use to type in the various settings.
14 | [Help] key
   | Press to display the Help Menu screen. From this screen, descriptions of the various functions and details of operations can be displayed. (See p. 3-85.)
15 | [Enlarge Display] key
   | Press to enter Enlarge Display mode. If authentication is performed with PageScope Authentication Manager, it does not enter Enlarge Display mode.
16 | [Accessibility] key
   | Press to display the screen for specifying settings for user accessibility functions.
17 | [Power Save] key
   | Press to enter Power Save mode. The indicator on the [Power Save] key lights up in green and the touch panel goes off. To cancel Power Save mode, press the [Power Save] key again.
18 | [Access] key
   | If user authentication or account track settings have been applied, press this key after entering the user name and password (for user authentication) or the account name and password (for account track) in order to use this machine.
19 | [Brightness] dial
   | Use to adjust the Brightness of the touch panel.
20 | [User Box] key
   | Press to enter User Box mode. While the machine is in User Box mode, the indicator on the [User Box] key lights up in green.
21 | [Fax/Scan] key
   | Press to enter Fax/Scan mode. While the machine is in Fax/Scan mode, the indicator on the [Fax/Scan] key lights up in green.
22 | [Copy] key
   | Press to enter Copy mode. (As a default, the machine is in Copy mode.) While the machine is in Copy mode, the indicator on the [Copy] key lights up in green.

---

### Reminder

Do not apply extreme pressure to the touch panel, otherwise it may be scratched or damaged.

Never push down on the touch panel with force, and never use a hard or pointed object to make a selection in the touch panel.
3.1.2 Basic settings screens

When the machine is ready to begin making copies after being turned on, the Basic screen appears.

To activate a function or to select a setting, lightly touch the desired button in the touch panel.

Basic screen

</tbody>
</table>

**Detail**

The basic settings screen (Basic screen or Quick Copy screen) that appears can be set with the “Copier Settings” parameter in the Custom Display Settings screen (displayed from the User Setting screen). The arrangement of the buttons and screens differ with the Basic screen and Quick Copy screen; however, the functions that can be set are the same. As a default, “Basic” is selected.

The Quick Copy screen displays all of the settings from the Basic screen so that many settings can easily be specified.

**Note**

If settings have been changed from the factory defaults, the tab for the screen containing the changed settings appears framed with a green line.

The green line can be changed to another color with the “Color Selection Settings” parameter in the Custom Display Settings screen (displayed from the User Setting screen in Utility mode).
### 3.1.3 Icons that appear in the screen

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
3.2 Turning on the main power and the sub power

This machine has two power controls: the main power switch and the sub power switch.

3.2.1 Turning on the machine

The main power switch turns on/off all functions of the machine. Normally, the main power switch is turned on.

The sub power switch turns on/off machine operations, for example, for copying, printing or scanning. When the sub power switch is turned off, the machine enters a state where it conserves energy.

1. Open the front door, and then set the main power switch to [I].

2. Close the front door.

3. Press the sub power switch.

   Check that the touch panel is turned on.

   **Detail**
   
   When the sub power switch is turned on, the indicator on the [Start] key lights up in orange, and a screen indicating that the machine is starting up appears. After a few seconds, the message “Warming up. Ready to scan.” appears on the touch panel, and the indicator on the [Start] key lights up in blue, indicating that a job can now be queued.

   The default settings are the settings that are selected immediately after the machine is turned on (the power switch is set to [I]) and before any setting is specified from the control panel or touch panel, and those that are selected when the [Reset] key is pressed to cancel all settings specified from the control panel or touch panel. The default settings can be changed. The factory default settings are the settings that were selected when this machine was sent from the factory.

   **Note**
   
   A job can also be queued while the machine is warming up after the sub power switch is turned on. For details, refer to “Scanning during warm-up” on page 3-9. After the machine has finished warming up, the scanned image will be printed.
3.2.2 Scanning during warm-up

1. Press the sub power switch.
   - For details on turning on the machine, refer to “Turning off the machine” on page 3-10.
   The indicator on the [Start] key lights up in orange.
   After the warm-up message is displayed, the Basic screen appears. The indicator on the [Start] key
   lights up in blue.

2. Check that the message "Warming up. Ready to scan." appears on the touch panel.

3. Position the original to be copied.
   - For details on positioning the original, refer to “Feeding the original” on page 3-28.

4. Specify any other desired copy settings.

5. Using the keypad, specify the desired number of copies.

6. Press the [Start] key.
   The original is scanned, and the job is added to the list of queued jobs.
   - If the "Copy Operating Screen" parameter in Utility mode was set to “Yes”, touch [Next Copy Job]
     to display the Basic screen.
– After the machine has finished warming up, the jobs will automatically be printed.

? How can the job being printed be stopped?
→ Press the [Stop] key. For details, refer to “Temporarily stopping scanning/printing” on page 3-72.

Detail
While the machine is warming up to begin printing after it is turned on using the sub power switch, copy settings can be specified and an original can be scanned to reserve a copy job. After the machine has finished warming up, the copies are automatically printed.

The print order can be changed or jobs can be deleted from the Detail screen of a job from the Current Jobs list in the Job List screen.

3.2.3 Turning off the machine

1 Press the sub power switch.
Check that the touch panel is turned off.

2 Open the front door, and then set the main power switch to .

3 Close the front door.

... Reminder
When the machine is turned off, then on again with the main power switch, wait at least 10 seconds to turn the machine on after turning it off. The machine may not operate correctly if it is turned on immediately after being turned off.

Do not turn off the machine with the main power switch or the sub power switch while it is making copies or printing, otherwise a paper misfeed may occur.

Do not turn off the machine with the main power switch or the sub power switch while it is scanning or sending or receiving data, otherwise all scan data or transmission data will be deleted.

Do not turn off the machine with the main power switch while a queued job or stored data is waiting to be printed, otherwise the jobs will be deleted.

Detail
The following are cleared when the main power switch and sub power switch are turned off.
Settings that have not been programmed
Jobs queued to be printed
3.2.4 Manually conserving energy

The machine can be manually set to an energy conservation mode (Low Power mode or Sleep mode).

- Press the [Power Save] key (or press the sub power switch).
  - As the factory default, the machine enters Low Power mode.

**Detail**

*Whether the machine enters Low Power mode or Sleep mode when the [Power Save] key is pressed can be set from the Administrator Settings mode.*
### Controlling each user’s use of this machine (User Authentication)

If user authentication settings have been specified by the administrator, only users that have been registered can use this machine. In addition, the number of printed pages can be managed for each user.

- When user authentication settings have been specified, only users who enter passwords for specified users can use this machine.
- Contact the administrator for a user name and password and for the server name.
- If machine authentication or external server authentication has been set, a total of 1,000 users and accounts can be registered.

1. Touch [User Name].

- If a list of user names can be displayed, the desired user name can be selected from the list. Touch [User Name List], touch the button for the desired user name to select it, and then touch [OK].
- Users who have no access to a user name and password can touch [Public User Access] to use this machine.
If external server authentication was selected as the user authentication method, [Server Name] appears with the name of the default server. Touch [Server Name] to display the names of the registered servers, and then select the desired server.

If any print job exists in the ID & Print User Box, [Begin Printing] and [Print & Login] appear. If authentication is performed with PageScope Authentication Manager, contact your server administrator for log on.

2 Type in the user name, and then touch [OK].
3 Touch [Password].

4 Type in the password, and then touch [OK].

5 Touch [Login] or press the [Access] key.

The Basic screen appears. If account track settings have been applied, the account track screen appears. However, if "Synchronize User Authentication & Account Track" has been set to "Synchronize", the account track screen does not appear if the users and accounts are synchronized.

6 Make copies using the desired copy settings.
When you are finished printing, press the [Access] key.
A message appears, requesting confirmation to log off.

Touch [Yes], and then touch [OK].
The user authentication screen appears.

Note
The user authentication settings can be used together with the account track settings. If the "Synchronize User Authentication & Account Track" parameter is set to "Synchronize", complete user authentication, and then log on by using the account track screen.

User authentication settings can be specified using the User Authentication parameters in Administrator Settings mode, available from the Utility mode. Settings should be specified by the administrator.
3.2.6 Controlling each account's use of this machine (Account Track)

If the account track settings have been specified by the administrator, only users of registered accounts can use this machine. In addition, the number of prints produced with each account can be controlled.

This is account track.

✔️ When account track settings have been specified, only users who enter passwords for specified accounts can use this machine.

✔️ If you do not know the account name or password, contact your administrator.

✔️ A total of 1,000 users and accounts can be registered.

1. Touch [Account Name].

   - If the Administrator Settings mode settings have been set to "Password Only", touch [Password], and then continue with step 4.
2 Type in the account name, and then touch [OK].

3 Touch [Password].

4 Type in the password, and then touch [OK].
3 Copy Operations

5 Touch [Login] or press the [Access] key.
The Basic screen appears.

6 Make copies using the desired copy settings.

7 When you are finished printing, press the [Access] key.
A message appears, requesting confirmation to log off.

8 Touch [Yes], and then touch [OK].
The account track screen appears.

Detail
The accounts can be managed in Administrator Settings mode, available from the Utility mode. Settings should be specified by the administrator.

If "Account Track Input Method" on the General Settings screen of Administrator Settings mode was set to "Password Only", log on is possible by only entering the password.
3.3 **Loading paper into tray 1/2/3/4**

The paper loading method is the same for trays 1, 2, 3, and 4. The following describes the paper loading procedure for tray 1.

- Tray 3/4 is an option.

1. Pull out tray 1.

2. Slide the lateral guides to fit the size of paper to be loaded.
   - If the lateral guides are not positioned correctly for the loaded paper, the paper size will not be correctly detected. Be sure to adjust the lateral guides to the size of the loaded paper.

3. Load the paper into the tray so that the side of the paper to be printed on (the side facing up when the package was unwrapped) faces up.
Load letterhead paper so that the side to be printed on faces down.
If letterhead paper is loaded as shown below to make a single-sided copy, the document image is printed on the side that was previously printed on. The paper will be fed out facing down.

How is curled paper loaded?
Flatten the paper before loading it.

How many sheets of paper and other media can be loaded?
Do not load so many sheets of plain paper that the top of the stack is higher than the ▼ mark.

4 Close tray 1.

Detail
If special paper is loaded, the paper type setting must be specified.

Reminder
Be careful not to touch the film.

For details on selecting the size and type of paper loaded in tray 1/2/3/4, refer to “Copy paper” on page 3-90.

To print on OHP transparencies, thick paper 4, envelopes or postcards, use the bypass tray.
3.4 Loading paper into the LCT

- If the sub power switch is turned off, even while the main power switch is on, the LCT cannot be pulled out, even after the tray release button is pressed. Be sure that the machine is turned on with the sub power switch.
- LCT is an option.

1. Press the tray release button.
   The LCT is unlocked and the LCT tray slides out slightly to the front.

2. Pull out the LCT.

3. Load the paper into the right side of the LCT so that the side of the paper to be printed on (the side facing up when the package was unwrapped) faces up.
   - To print on OHP transparencies, thick paper 4, envelopes or postcards, use the bypass tray.
- Load letterhead paper so that the side to be printed on faces down.
- If letterhead paper is loaded as shown below to make a single-sided copy, the document image is printed on the side that was previously printed on. The paper will be fed out facing down.

> How is curled paper loaded?

> Flatten the paper before loading it.

4 Load the paper into the left side of the LCT so that the side of the paper to be printed on (the side facing up when the package was unwrapped) faces up.

5 Close the LCT.
- If special paper is loaded, the paper type setting must be specified. For details, refer to “Specifying a setting for special paper” on page 3-106.

⚠️ Reminder
Be careful not to touch the film.

Do not load so many sheets of paper that the top of the stack is higher than the ▼ mark.

For details on the paper that can be loaded into the LCT, refer to “Copy paper” on page 3-90.

⚠️ Note
If the machine has entered Low Power mode or Sleep mode, the LCT cannot be pulled out, even after the tray release button is pressed. Be sure to first cancel Low Power mode or Sleep mode.
3.5 Loading paper into the bypass tray

Paper can be fed manually through the bypass tray if you wish to copy onto paper that is not loaded into a paper tray, or if you wish to copy onto thick paper 4, postcards, envelopes, OHP transparencies or label sheets.

Detail

For thick paper 4, only A3, A4, 11 × 17 and 8-1/2 × 11 are available for printing.

1 Open the bypass tray.
   - When loading large-sized paper, pull out the tray extension.

2 With the side to be printed on facing down, insert the paper as much as possible into the feed slot.

3 Slide the lateral guides to fit the size of paper being loaded.
   - How is curled paper loaded? 
     ➔ Flatten the paper before loading it.
   - How many sheets of paper and other media can be loaded?
     ➔ Do not load so many sheets of plain paper that the top of the stack is higher than the ▼ mark.
4 Select the paper type.

- To print on colored paper, envelopes or letterheads, touch \[Colored paper\], and then select the paper type.

  - If “A6Card” is selected, the paper type is automatically set to “Thick 3”.
  - For details on selecting a setting for non-standard-size paper, refer to “Storing a non-standard paper size (Custom Size settings)” on page 3-100.
  - For details on selecting a setting for wide paper, refer to “Selecting a setting for oversized paper (Wide Paper settings)” on page 3-103.
  - For details on special paper, refer to “Special paper” on page 3-92.

5 Touch [OK], and then touch [OK] in the next screen that appears.

The Basic screen appears again.
Reminder

Push the paper guides firmly up against the edges of the paper.

When loading postcards, load them in the $\square$ orientation, as shown in the illustration. Do not load postcards in the $\triangle$ orientation.

If media other than postcards are inserted, select the appropriate paper type.

If label sheets are loaded, select “Thick 1”.

Printing on OHP transparencies is possible only in black. When selecting OHP transparencies, select the “Black” Color setting, and then select the paper type.

A maximum of 20 postcards can be loaded into the bypass tray.

When loading OHP transparencies, load them in the $\square$ orientation, as shown in the illustration. Do not load OHP transparencies in the $\triangle$ orientation.

A maximum of 20 OHP transparencies can be loaded into the bypass tray.

Printing on OHP transparencies is possible only in black.
Before loading envelopes, press them down to make sure that all air is removed, and make sure that the folds of the flaps are firmly pressed, otherwise the envelopes may become wrinkled or a paper misfeed may occur.

When loading envelopes, load them with the flap side up, as shown in the illustration. If the envelopes are loaded with the flap side down, a paper misfeed may occur. The flap side of envelopes cannot be printed on.

A maximum of 10 envelopes can be loaded into the bypass tray.

When loading label sheets, load them in the orientation, as shown in the illustration. Do not load label sheets in the orientation.

A maximum of 20 label sheets can be loaded into the bypass tray.
Be sure to load letterhead paper so that the side to be printed on faces up.

If letterhead paper is loaded as shown below to make a single-sided copy, the document image is printed on the side that was previously printed on. The paper will be fed out facing down.

Note
The image will be printed on the surface of the paper facing down when the paper is loaded into the bypass tray.

Detail
For details on specifying the paper size for the bypass tray, refer to "Selecting a paper size setting (Size Setting)" on page 3-96.

For details on the paper sizes, refer to "Copy paper" on page 3-90.
3.6 Feeding the original

The original can be fed in either of the following two ways. Be sure to position the original correctly according to the type of original being copied.

<table>
<thead>
<tr>
<th>Original Feed Method</th>
<th>Features</th>
</tr>
</thead>
<tbody>
<tr>
<td>Using the ADF</td>
<td>By using the ADF, a multi-page original can be fed automatically, one page at a time. This feed method can also be used to automatically scan double-sided originals.</td>
</tr>
<tr>
<td>Using the original glass</td>
<td>Place the original directly on the original glass so that it can be scanned. This method is best with books and other originals that cannot be fed through the ADF.</td>
</tr>
</tbody>
</table>

3.6.1 Loading the original into the ADF

✔ The ADF is an option.
✔ Do not load originals that are bound together, for example, with paper clips or staples.
✔ For details on the types of originals that can be loaded into the ADF, refer to “Originals” on page 3-110.
✔ Do not load more than 100 sheets or so many sheets that the top of the stack is higher than the t mark, otherwise an original misfeed or damage to the original or machine may occur. However, a original that exceeds 100 pages can be scanned in separate batches. For details, refer to “Scanning the original in separate batches (“Separate Scan” setting)” on page 3-31.
✔ If the original is not loaded correctly, it may not be fed in straight or an original misfeed or damage to the original may occur.
✔ If the original is loaded in any orientation other than with the top of the original toward the back of the machine, be sure to select the original orientation.

1. Slide the lateral guides to fit the size of the original.

2. Place the original in the original feed tray in the order to be scanned with the side to be scanned faces up.
   - Load the original pages so that the top of the original is toward the back or the right side of the machine.
3.6.2 Placing the original on the original glass

✓ For details on the types of originals that can be placed on the original glass, refer to "Originals" on page 3-110.

✓ When placing the original on the original glass, be sure to lift open the ADF or the original cover at least 20°.
   If the original is placed on the original glass without the ADF or the original cover being lifted at least 20°, the correct original size may not be detected.

✓ Do not place objects weighing more than 2 kg on the original glass. In addition, do not press down extremely hard on a book spread on the original glass, otherwise the original glass may be damaged.

✓ For thick books or large objects, make the copy without closing the ADF or the original cover. When an original is being scanned with the ADF or the original cover open, do not look directly at the light that may shine through the original glass. Although the light that shines through the original glass is bright, it is not a laser beam and, therefore, is not as dangerous.

1 Lift open the ADF or the original cover.

2 Place the original face down on the original glass.
   - Load the original pages so that the top of the original is toward the back or the left side of the machine.

   ![Image showing the correct orientation of the original on the glass, with lateral guides shown at 20° for both orientations.](image-url)
3 Align the original with the mark in the back-left corner of the original scales.

- For transparent or translucent originals, place a blank sheet of paper of the same size as the original over the original.

- For bound originals spread over two facing pages, such as a book or magazine, position the top of the original toward the back of this machine and align the original with the mark in the back-left corner of the original scales, as shown.

4 Close the ADF or the original cover.
3.6.3 Scanning the original in separate batches ("Separate Scan" setting)

A large original can be divided and scanned in a number of batches.

A maximum of 100 original pages can be loaded into the ADF at one time. However, by specifying the "Separate Scan" setting, an original that exceeds 100 pages can be scanned and treated as a single copy job. In addition, the scanning location can be switched between the original glass and the ADF during the scanning operation.

- The loading capacity of the ADF is 100 sheets of plain paper (80 g/m²) or 38 sheets of thick paper (210 g/m²).
- The output method used with the "Separate Scan" setting can be set to "Page Print" or "Batch Print". As a default, "Batch Print" is selected.

1. Position the original to be copied.
   - For details on positioning the original, refer to "Feeding the original" on page 3-28.

2. In the Basic screen, touch [Separate Scan].
   - To cancel the "Separate Scan" setting, touch [Separate Scan] again to deselect it.
3 Press the [Start] key.
After the original has been scanned, the following message appears.

- Load the next batch of the original, and then press the [Start] key.
- If the "Separate Scan Output Method" parameter is set to "Batch Print", touch [Finish] in the following screen, which appears while the original is scanned with the ADF, to continue to step 5.

- If the original cannot be loaded into the ADF, place it on the original glass. For details on the types of originals that can be loaded into the ADF, refer to "Originals" on page 3-110.
- To change the scanning settings, touch [Change Setting].
The buttons that appear in the screen for changing the settings differ depending on the specified settings. Settings for the following can be changed:

1-Sided/2-Sided, Binding Position, Zoom, Frame Erase, Center Erase, Original Size

To cancel changes to the settings, touch [Cancel].

The amount of memory available can be checked beside "Memory" in the lower-left corner of the screen.
To delete the image data, press the [Stop] key, and then delete the job. For details, refer to “Temporarily stopping scanning/printing” on page 3-72.

After all original pages have been scanned, touch [Finish].
5 Press the [Start] key.
   - If the "Separate Scan Output Method" parameter is set to "Batch Print", touch [Print] or press the [Start] key.

   If the "Separate Scan Output Method" parameter is set to "Batch Print", the copy settings can be changed. To change the copy settings, touch [Change Setting], and then touch [OK] after changing the settings as desired.
3.6.4 Scanning a multi-page original from the original glass

When making double-sided or combined copies using the original glass, place each page of a multi-page original on the original glass to scan it. The following procedure describes how to place single-sided original pages on the original glass to make double-sided copies.

- The output method used with the "Separate Scan" setting can be set to "Page Print" or "Batch Print". As a default, "Page Print" is selected.

1. Lift open the ADF or the original cover.

2. Position the first page or the first side of the original face down onto the original glass.

   - For details on positioning the original, refer to “Placing the original on the original glass” on page 3-29.

3. Close the ADF or the original cover.

4. In the Basic screen, touch [Duplex/Combine].

The Duplex/Combine screen appears.
5 Touch [1-Sided > 2-Sided].

6 Touch [Binding Position], select the binding position for the copy, and then touch [OK].

7 Touch [Original Direction], select the orientation of the loaded original, and then touch [OK].

8 Touch [OK].
9 Press the [Start] key.
Scanning begins.

10 Position the second page or second side of the original onto the original glass, and then press the [Start] key.
- To scan the remaining pages in the original, repeat step 10.
- To change the scanning settings, touch [Change Setting].
- The buttons that appear in the screen for changing the settings differ depending on the specified settings. Settings for the following can be changed.
  1-Sided/2-Sided, Binding Position, Zoom, Frame Erase, Center Erase, Original Size
- To cancel changes to the settings, touch [Cancel].
11 After all original pages have been scanned, touch [Finish].

12 Press the [Start] key.
   - If the "Separate Scan Output Method" parameter is set to "Batch Print", touch [Print] or press the [Start] key.
   - If the "Separate Scan Output Method" parameter is set to "Batch Print", the copy settings can be changed. To change the copy settings, touch [Change Setting], and then touch [OK] after changing the settings as desired.
3.7 Selecting a Paper Setting

The paper size can be selected automatically according to the original size or it can be specified manually. Specify the paper size according to the corresponding procedure, depending on the desired copy settings. As the factory default, “Auto” is selected.

Reminder
When copying after selecting a paper tray with letterhead paper selected as the paper type, the copy speed will be slow, even with single-sided copying, since the paper alignment operation is performed.

Note
If a setting for special paper is selected for a paper tray, that tray is not selected automatically with the “Auto” Paper setting. (However, a paper tray set to “Single Side Only” is given priority to be selected with single-sided printing.) Be sure to specify a paper setting when special paper is loaded into a paper tray. For details, refer to “Specifying a setting for special paper” on page 3-106.

If the “Auto Paper Select” was selected at the “Auto Zoom” setting, the Zoom screen appears. Touch the button for the desired zoom ratio.

The “Auto” Paper setting cannot be combined with the “Auto” Zoom Setting.
3.7.1 Automatically selecting the paper size ("Auto" Paper setting)

The size of the loaded original is detected, and copies are produced using paper of the same size.
If the "Full Size" Zoom setting was specified, paper of the same size as the original is selected.
If the zoom ratio was increased or decreased, a paper size that corresponds to the specified zoom ratio is automatically selected.

1 In the Basic screen, touch [Paper].

The Paper screen appears.

2 Touch [Auto].

3 Touch [OK].
The Basic screen appears again.
3.7.2 Manually selecting the desired paper size

- By also selecting the “Auto” Zoom setting, the most appropriate zoom ratio is selected based on the size of the loaded original and the specified paper size. For details on the “Auto” Zoom setting, refer to “Automatically selecting the zoom ratio (“Auto” Zoom Setting)” on page 3-42.
- Load the appropriate papers into the paper tray in advance.

1 In the Basic screen, touch [Paper].

2 Select the paper tray loaded with the desired paper.

3 Touch [OK].

The Basic screen appears again.
3.8 Specifying a Zoom setting

The zoom ratio can be set in order to make a copy on paper with a size different than the original or to enlarge or reduce the size of the copy image. As the factory default, "Full Size" is selected.

The following procedures describe how to specify the Zoom setting.

Note
The "Auto" Zoom setting cannot be combined with the "Auto" Paper Setting.

3.8.1 Automatically selecting the zoom ratio ("Auto" Zoom Setting)

The most appropriate zoom ratio is automatically selected based on the size of the loaded original and the specified paper size.

- If the "Auto" Zoom setting is selected and an enlargement is to be copied on paper larger than the original, load the original with the same orientation as the paper.
- If the "Auto Zoom" was selected at the "Auto Paper Select" setting, the Paper screen appears.

1 In the Basic screen, touch [Zoom].

The Zoom screen appears.

2 Touch [Auto].

3 Touch [OK].

The Basic screen appears again.
3.8.2 Specifying the zoom ratio of the original ("Full Size" setting)
A copy that is the same size as the original (100%) is produced.

- Touch [+ ] to enlarge the zoom ratio, and touch [- ] to reduce the zoom ratio in 0.1% increments.

1. In the Basic screen, touch [Zoom].

![Zoom screen](image)

The Zoom screen appears.

2. Touch [Full Size].

![Basic screen](image)

3. Touch [OK].

The Basic screen appears again.
3.8.3 Slightly reducing the copy ("Minimal" setting)

An original image can be printed slightly smaller (93.0%) than the original size and centered in the copy.

✔ The zoom ratio of the "Minimal" setting can be changed (between 90.0% and 99.9%).

1. In the Basic screen, touch [Zoom].

   ![Image 1](image1.png)

   The Zoom screen appears.

2. Touch [Minimal].

   ![Image 2](image2.png)

3. Touch [OK].

   The Basic screen appears again.

   ![Image 3](image3.png)
3.8.4 Selecting a preset zoom ratio (Enlarge and Reduce settings)

The most suitable zoom ratios for copying from common standard original sizes to standard paper sizes are preset.

1. In the Basic screen, touch [Zoom].

![Zoom screen](image1)

The Zoom screen appears.

2. Touch the button for the appropriate zoom ratio beside “Enlarge” and “Reduce”, depending on the original and paper sizes.

![Zoom screen](image2)

3. Touch [OK].
The Basic screen appears again.

![Zoom screen](image3)
### 3.9 Selecting an Original > Copy setting

The following four Original > Copy setting combinations are possible.

<table>
<thead>
<tr>
<th>Original &gt; Copy settings</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-Sided &gt; 1-Sided</td>
<td>Select this setting to produce single-sided copies from single-sided originals.</td>
</tr>
<tr>
<td><img src="1-sided_1-sided.png" alt="Image" /></td>
<td><img src="1-sided_1-sided_result.png" alt="Image" /></td>
</tr>
<tr>
<td>1-Sided &gt; 2-Sided</td>
<td>Select this setting to produce one double-sided copy from two single-sided originals.</td>
</tr>
<tr>
<td><img src="1-sided_2-sided.png" alt="Image" /></td>
<td><img src="1-sided_2-sided_result.png" alt="Image" /></td>
</tr>
<tr>
<td>2-Sided &gt; 1-Sided</td>
<td>Select this setting to produce two single-sided copies from one double-sided original.</td>
</tr>
<tr>
<td><img src="2-sided_1-sided.png" alt="Image" /></td>
<td><img src="2-sided_1-sided_result.png" alt="Image" /></td>
</tr>
<tr>
<td>2-Sided &gt; 2-Sided</td>
<td>Select this setting to produce double-sided copies from double-sided originals.</td>
</tr>
<tr>
<td><img src="2-sided_2-sided.png" alt="Image" /></td>
<td><img src="2-sided_2-sided_result.png" alt="Image" /></td>
</tr>
</tbody>
</table>

The following procedures describe how to select Original and Copy settings.
### 3.10 Selecting a combined copy setting

Original images of multiple pages (2, 4 or 8 pages) can be combined and printed on a single page, reducing paper use.

The following three combined copy settings are available.

**Detail**

*When select the combined copy setting, copies are produced with the most appropriate zoom ratio (recommended zoom ratio) selected for the original and paper size. The zoom ratio that is selected can be changed manually.*

**Note**

*As the factory default, "Auto Display Zoom Ratio" is selected.

*The "Auto Zoom for Combine/Booklet" parameter in Utility mode can be set so that the recommended zoom ratios are not used. In that case, specify the zoom ratio manually.*

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>2in1</td>
<td>Select this setting to print two original pages on one page.</td>
</tr>
<tr>
<td></td>
<td><img src="image1" alt="2in1 Diagram" /></td>
</tr>
<tr>
<td></td>
<td><img src="image2" alt="2in1 Diagram" /></td>
</tr>
<tr>
<td>4in1</td>
<td>Select this setting to print four original pages on one page. The page arrangement (Numbering Direction setting) can be specified.</td>
</tr>
<tr>
<td></td>
<td><img src="image3" alt="4in1 Diagram" /></td>
</tr>
<tr>
<td></td>
<td><img src="image4" alt="4in1 Diagram" /></td>
</tr>
<tr>
<td>8in1</td>
<td>Select this setting to print eight original pages on one page. The page arrangement (Numbering Direction setting) can be specified.</td>
</tr>
<tr>
<td></td>
<td><img src="image5" alt="8in1 Diagram" /></td>
</tr>
<tr>
<td></td>
<td><img src="image6" alt="8in1 Diagram" /></td>
</tr>
</tbody>
</table>
The following procedure describes how to select a combined copy setting.
If a combined copy setting is selected, specify the position of the binding margin and the loading orientation for the original, otherwise the copies may not be printed in the desired arrangement.

1. In the Basic screen, touch [Duplex/Combine].

2. Select the desired combined copy setting.
– Select the setting and page arrangement according to the orientation and number of the combined pages. If "4in1 / 8in1" is selected, whether the "Horizontal" or "Vertical" paper arrangement is selected can be viewed in the touch panel. However, this appears only if the "Left Pane Display Default" parameter in Utility mode is set to "Check Job Settings". If "2in1" was selected, the pages will be arranged as shown below.

![Diagram showing page arrangement for 4in1 and 8in1]

– If "4in1 / 8in1" was selected, the 4in1/8in1 screen appears. Touch [Vertical] or [Horizontal] to select the page arrangement.

![Screen showing page arrangements for 4in1/8in1]

– To cancel the setting, touch [No].
3.11 Selecting the quality of the original

3.11.1 Loading originals with small print or photos (Original Type settings)

Select the setting for the text and image type of the original to better adjust the copy quality.

The following Original Type settings are available.

Note
As the factory default, "Text/Photo" is selected.

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Text" /></td>
<td>Select this setting when copying originals containing only text. The edges of copied text are reproduced with sharpness, providing an image that is easy to read.</td>
</tr>
<tr>
<td><img src="image2" alt="Text/Photo" /></td>
<td>Select this setting when printing photos from originals containing both text and images onto photographic paper. A smooth copy image is produced.</td>
</tr>
<tr>
<td><img src="image3" alt="Photo" /></td>
<td>Select this setting when copying printed originals containing both text and images, such as pamphlets or catalogs.</td>
</tr>
<tr>
<td><img src="image4" alt="Photo Paper" /></td>
<td>Select this setting when copying printed originals, such as pamphlets or catalogs. Select this setting to produce better reproductions of halftone original images (photographs, etc.) that cannot be reproduced with the usual settings. A smooth copy image is produced.</td>
</tr>
<tr>
<td><img src="image5" alt="Map" /></td>
<td>Select this setting when copying originals with a background color or originals containing pencil markings or fine colored lines. A sharp copy image is produced.</td>
</tr>
<tr>
<td><img src="image6" alt="Dot Matrix Original" /></td>
<td>Select this setting when copying originals containing only text that appears faint (such as that written with a pencil). The copied text is reproduced so that it is darker, making it easier to read.</td>
</tr>
<tr>
<td><img src="image7" alt="Copied Paper" /></td>
<td>Select this setting when copying images (originals) printed with this machine.</td>
</tr>
</tbody>
</table>

The following procedure describes how to select an Original Type setting.
3.11.2 To select an Original Type setting

1 Position the original to be copied.
   – For details on positioning the original, refer to “Feeding the original” on page 3-28.

2 In the Basic screen, touch [Quality/Density].

3 The Quality/Density screen appears.

   Touch the button for the quality setting most appropriate for the loaded original.
   – For an original that contains only text, touch [Text].
– For an original that contains both text and photos, touch [Text/Photo] to display the Photo Type screen. Touch the button for the appropriate setting, and then touch [OK].

![Photo Type screen](image1)

– For an original that contains photos, touch [Photo] to display the Photo Type screen. Touch the button for the appropriate setting, and then touch [OK].

![Photo Type screen](image2)

– For an original that contains maps, touch [Map].
– For an original that contains faint text, touch [Dot Matrix Original].
– For an original printed with this machine, touch [Copied Paper].

![Original Settings screen](image3)

The Quality/Density screen appears again.
3.12 Selecting Finishing settings

Various settings can be selected for sorting and finishing copies fed into the copy output tray.

Note
As the factory default, "Group" is selected.

Detail
If no finisher or separator is installed and all of the following conditions are met, printed copies are fed out and sorted in an alternating crisscross pattern.

- A4- or B5-size paper is used.
- Paper of the same size and type is loaded with the width orientation in one paper tray and with the length orientation in another tray.
- The "Auto" Paper setting is selected.
- The "Auto" Paper setting is not selected when the "Mixed Original" setting is selected.

Note
From Administrator Settings mode, the machine can be set so that copies are fed out without being shifted when the finisher or the separator is installed. As a factory default, the machine is set to shift the copies that are fed out.

For details on "Center Staple/Fold" or "Center Staple & Fold", refer to "Selecting a folding setting" on page 3-65.

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sort</td>
<td>Select this setting to separate each set of a multi-page original.</td>
</tr>
<tr>
<td>Group</td>

3.12.1 Separating copies by sets ("Sort" setting)

- As the factory default, "Group" is selected.
- If finisher FS-519 is installed, the output tray can be selected. For details, refer to “Selecting the output tray” on page 3-58.
- If offset sorting is selected while no finisher or separator is installed, printed copies will be fed out and sorted in an alternating ◀ and ▶ pattern if the following conditions are met.
  - A4- or B5-size paper is used.
  - Paper of the same size and type is loaded with the ◀ orientation in one paper tray and with the ▶ orientation in another tray.
  - The "Auto" Paper setting is selected.
  - The "Auto" Paper setting is not selected when the "Mixed Original" setting is selected.
- If offset sorting is selected while a finisher or a separator is installed, printed copies are fed out and stacked on top of each other with each set shifted to separate it.

1. In the Basic screen, touch [Finishing].

   ![Finishing screen](image1)

   The Finishing screen appears.

2. Touch [Sort].

   ![Finishing screen](image2)

   - To separate each set of copies, touch [Yes] under "Offset".

3. Touch [OK].

   The Basic screen appears again.
3.12.2 Separating copies by pages ("Group" Setting)

- As the factory default, "Group" is selected.
- If finisher FS-519 is installed, the output tray can be selected. For details, refer to "Selecting the output tray" on page 3-58.
- If offset sorting is selected while no finisher or separator is installed, printed copies will be fed out and sorted in an alternating \(\wedge\) and \(\vee\) pattern if the following conditions are met.
  - A4- or B5-size paper is used.
  - Paper of the same size and type is loaded with the \(\wedge\) orientation in one paper tray and with the \(\vee\) orientation in another tray.
  - The "Auto" Paper setting is selected.
  - The "Auto" Paper setting is not selected when the "Mixed Original" setting is selected.
- If offset sorting is selected while a finisher or a separator is installed, printed copies are fed out and stacked on top of each other with each set shifted to separate it.

1. In the Basic screen, touch [Finishing].

   ![Finishing screen](image)

   The Finishing screen appears.

2. Touch [Group].

   ![Finishing screen](image)

   - To separate each set of pages, touch [Yes] under "Offset".

3. Touch [OK].

   The Basic screen appears again.
3.12.3 Selecting the output tray

- The output tray can be selected only if optional finisher FS-519 is installed.

1. In the Basic screen, touch [Finishing].

The Finishing screen appears.

2. Touch [Output Tray].

3. Touch the button of the desired output tray.
4 Touch [OK], and then touch [OK] again.

The Basic screen appears again.

### 3.12.4 Stapling copies (Staple settings)

Copies can be fed out stapled either in the corner or at two places.

**Reminder**

*Copies can be fed out stapled either in the corner or at two places only when the finisher is installed.*

When Finisher FS-519 is installed

<table>
<thead>
<tr>
<th>Tray</th>
<th>Paper Weight</th>
<th>Paper Size</th>
<th>Loading Capacity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Finishing tray 1</td>
<td>60 g/m² to 209 g/m²</td>
<td>A3 to A5</td>

</tr>
</tbody>
</table>

* The value in parentheses is reference value when using 60 g/m² to 90 g/m² paper.

**Number of Bound Pages**

Examples of the possible number of bound pages are listed below.

- 50 sheets of 90 g/m² paper

**Detail**

In order for the copies to be stapled, all of the following conditions must be met.
- The paper width must be between 182 mm and 297 mm.
- The paper length must be between 148.5 mm and 431.8 mm.
- If the "Mixed Original" setting is selected, all copies must have the same paper width.
When Finisher FS-609 is installed

</table>

* The value in parentheses is reference value when using 60 g/m² to 90 g/m² paper.

**Detail**

* In order for the copies to be stapled, all of the following conditions must be met.
  - The paper width must be between 182 mm and 297 mm.
  - The paper length must be between 182 mm and 432 mm.
  - If the “Mixed Original” setting is selected, all copies must have the same paper width.
1  In the Basic screen, touch [Finishing].

2  Under “Staple”, touch either [Corner] or [2 Position].

   - To cancel the Staple setting, touch [None].

3  Touch [Position Setting].
- Select the stapling position, and then touch [OK].
- When the “2 Position” Staple setting is selected.

- When the “Corner” Staple setting is selected.

- Touch [Auto] to automatically determine the stapling position according to the orientation of the loaded original. If the original length is 297 mm or less, the long side of the paper is stapled. If the original length is more than 297 mm, the short side of the paper is stapled.
- If “Auto” is selected for the stapling position, load the original with the top toward the back of the machine. If the original is loaded in any other orientation, the stapling will not be correctly positioned.
- If “Auto” is selected, the stapling position is set at the top or at the left.
- To cancel the setting and select the default, press the [Reset] key.

4 If desired, touch [Original Direction], and then select the setting appropriate for the original.

5 Touch [OK].
The Basic screen appears again.
3.12.5 Punching holes in copies (Punch settings)

Detail
In order for holes to be punched in the copies on the finisher FS-609, all of the following conditions must be met.

The paper width must be between 182 mm and 297 mm.

The paper length must be between 182 mm and 432 mm.

If a Punch setting is to be selected, select the orientation in which the original is positioned. If an Original Direction setting is not selected, holes may not be punched in the copies as desired.

Note
The Punch settings are available only if the punch kit is installed on the optional finisher.

<table>
<thead>
<tr>
<th>Type of punch kit</th>
<th>Paper weight</th>
<th>Paper size</th>
</tr>
</thead>
<tbody>
<tr>
<td>Punch kit PK-510</td>
<td>60 g/m² to 256 g/m²</td>
<td>A3, A4, B5</td>
</tr>
<tr>
<td>Punch kit PK-501</td>
<td>60 g/m² to 209 g/m²</td>
<td>A3, A4</td>
</tr>
</tbody>
</table>

1. In the Basic screen, touch [Finishing].

The Finishing screen appears.

2. Under “Punch”, touch [4-Hole].
To cancel the Punch setting, touch [None].

3 Touch [Position Setting].

- Select the punched hole position, and then touch [OK].

- Touch [Auto] to automatically determine the position of the punched holes according to the orientation of the loaded original. If the original length is 297 mm or less, the holes are punched along the long side of the paper. If the original length is more than 297 mm, the holes are punched along the short side of the paper.

- If “Auto” is selected for the stapling position, load the original with the top toward the back of the machine. If the original is loaded in any other orientation, the stapling will not be correctly positioned.

- If “Auto” is selected, the punched hole position is set at the top or at the left.

- To cancel the setting and select the default, press the [Reset] key.

4 If desired, touch [Original Direction], and then select the setting appropriate for the original.

5 Touch [OK].

The Basic screen appears again.
3.13 Selecting a folding setting

By installing optional equipments, copies can be folded, or folded and bound with staples at the same time, and then fed out. Available settings differ depending on the optional equipments installed.

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>

</tr>
</tbody>
</table>

Number of sheets folded in half

Examples of the possible number of sheets folded in half are listed below.

- 2 to 15 sheets of 90 g/m² paper (maximum of 60 pages)

Detail

In order for copies to be bound at the center or folded in half, all of the following conditions must be met.

The paper width must be between 182 mm and 297 mm.

The paper length must be between 257 mm and 431.8 mm.

1 In the Basic screen, touch [Finishing].

The Finishing screen appears.

2 Touch [Center Staple/Fold].

The Center Staple/Fold screen appears.
3 Touch [Yes] below "Half-Fold".

- As the factory default, the "Booklet" function is automatically specified when Half-Fold is selected.
- To cancel the "Half-Fold" setting, touch [No] or the button for a different setting.

4 Touch [OK], and then touch [OK] again.
3.13.2 Binding copies at the center ("Center Staple" and "Half-Fold" setting/"Center Staple & Fold" setting)

When Finisher FS-519 is installed with the saddle stitcher attached

<table>
<thead>

* The number of sheets that can be bound together differs depending on the paper weight.
  64 g/m² paper: 15 sheets
  80 g/m² paper: 10 sheets

**Detail**

In order for copies to be bound at the center, all of the following conditions must be met.

The paper width must be between 210 mm and 297 mm.

The paper length must be between 279 mm and 432 mm.

1. In the Basic screen, touch [Finishing].

The Finishing screen appears.

2. Touch [Center Staple & Fold].

The Center Staple & Fold screen appears.
3 Touch the button for the desired Center Erase setting.
   - To erase the area along the center, touch [Erase]. To not erase the area along the center, touch [None].

- When the "Center Staple & Fold" setting is selected, the following factory default settings are automatically selected.
  1-Sided > 2-Sided
  Sort
  Booklet
  Recommended zoom ratio (70.7%) when the "Booklet" function is selected

- When the "Center Staple & Fold" setting is selected, the following Finishing settings are not available.
  Group
  Offset
  Staple
  Punch

- To cancel the "Center Staple & Fold" setting, touch [No].
- If "Erase" is selected under "Center Erase", an area of 10 mm along the binding is erased.
- If paper misfeeds often occur when "None" is selected under "Center Erase", select "Erase" to reduce the number of paper misfeeds.

4 Touch [OK], and then touch [OK] again.
3.14 Temporarily stopping scanning/printing

Follow the procedure described below to temporarily stop scanning the original and stop the printing operation.

1. If an original is being scanned for a job, pressing the [Stop] key stops scanning.

2. Press the [Stop] key while an original is being scanned or a job is being printed.

Scanning/printing stops.

The Stopped Jobs screen appears.

2. To continue all stopped jobs, press the [Start] key.
### 3.15 Checking the print image as a preview image (Advanced Preview)

Print image can be checked as a preview image before printing. This prevents print errors from occurring.

#### 3.15.1 Preview screen

In the Preview screen, originals that have been scanned in a wrong direction can be rotated and settings specified before scanning can be changed.

**Screen layout**

<table>
<thead>
<tr>
<th>No.</th>
<th>Part name</th>

</tr>
<tr>
<td>6</td>
<td>[View Finishing]</td>
<td>Applies the finishing state to the preview image. Touching [View Finishing] again cancels the finishing preview. For details, refer to &quot;View Finishing&quot; on page 3-76.</td>
</tr>
<tr>
<td>7</td>
<td>[Change Setting]</td>
<td>Settings for the scanned originals can be changed. For details, refer to &quot;Change Setting&quot; on page 3-76.</td>
</tr>
<tr>
<td>8</td>
<td>[View Status]/[View Pages]</td>
<td>Switches the Preview screen between the status view and the page view. Images can be rotated and settings can be changed in [View Pages]. Loading of the image is finished in [View Status].</td>
</tr>
</tbody>
</table>
**Zoom**

In Zoom, the preview image can be enlarged to check the original in detail.

- Touch [+] or [-] to change the zoom ratio between the full size or at a size of 2, 4 or 8 times the normal size.
  - Use the scroll bars in the right end and bottom end of the image to view the desired section of the image.

Detail

*If the display size is changed, the finishing status cannot be viewed.*
Page Rotation

In Page Rotation, a preview image can be rotated by 180 degrees to correct wrong original direction.

Touch Rotate current page to rotate the currently displayed page by 180 degrees.

- Touch [Select page(s) to rotate] to display the list of scanned pages. Up to 8 scanned pages can be displayed, and touching 1 or 2 switches between the pages.
- Touch [Select Odd] to rotate the odd pages among the scanned pages.
- Touch [Select Even] to rotate the even pages among the scanned pages.
- Touch [Select All] to rotate all the scanned pages. Directly selecting a scanned page rotates the selected page.
View Finishing

- Touch [View Finishing] to display the finishing settings in the preview image with icons and texts, and finishing status can be checked.
  - Press [View Finishing] again to cancel the finishing view of the preview image.

Change Setting

In Change Setting, settings for the original to be scanned next can be changed.

Note

For details on the setting method, refer to the appropriate description section.

Touching [Preview] in the left pane displays the preview image. The settings displayed in the preview image are limited to those apply to all original pages.
3.15.2 Checking the advanced preview

In Preview, finishing image of copies can be checked before printing.

1. Place the original on the original glass, or load the original into the ADF.
2. Select the desired copy settings.
The Select Proof Copy Method screen appears.

4. Touch [Preview on Screen] for Mode, and then select the original direction.
   - When the original is placed on the original glass:

   ![Preview screen when original is placed on glass]

   - When the original is loaded into the ADF:

   ![Preview screen when original is loaded into ADF]

5. Press the Start key.
Scanning of the original starts, and the Preview screen (View Status) appears.
6  Check the preview image.
   – To change the settings, touch [View Pages]. Go to step 7.
   – To start printing, press the [Start] key.
   – To scan more originals, touch [Finish], place (or load) the originals, and then press the [Start] key.
   – Press the [Stop] key to cancel the preview.

7  Change the settings, and then touch [View Status].
   – For details on the View Pages screen, refer to “Preview screen” on page 3-73.

8  Press the [Start] key.
   Start printing.

Detail
When originals are scanned using the Program Jobs function, the finishing image can be previewed after all the originals are scanned and Finish is touched. For details on the Program Jobs function, refer to “Scanning originals with different settings and printing copies all together (“Program Jobs” function)” on page 3-127.

When originals are scanned with the insert pages specified, the finishing image can be previewed both after the originals are scanned first and after the insert pages are scanned. For details on the insert pages, refer to “Inserting copies of a different original for a specified page (“Insert Image” function)” on page 3-121.

When the Book Copy function or Booklet function is specified, the finishing status cannot be checked. Print and check the finishing.
3.16 Interrupting a copy job (Interrupt mode)
The current jobs can be temporarily interrupted so an original can be copied with different copy settings.
This is convenient for quickly making a copy.

1. Position the original to be copied.
   - For details on loading the original, refer to “Loading the original into the ADF” on page 3-28.

2. Press the [Interrupt] key.
   - If a job is being printed, the message “The job is stopping.” appears.
   - The indicator on the [Interrupt] key lights up in green and printing of the current job stops.

3. What settings are selected when the [Interrupt] key is pressed?
   ➔ When the [Interrupt] key is pressed, all functions and settings are reset to their defaults.

4. Why is the [Interrupt] key not available?
   ➔ The [Interrupt] key cannot be pressed while an original is being scanned.

3. Select the desired copy settings.

4. Press the [Start] key.
   Printing for the interrupting job begins.

5. After the interrupting job has finished printing, press the [Interrupt] key.
   The indicator on the [Interrupt] key goes off.
   The copy settings return to those specified before printing was interrupted.

Note
If the interrupting job is cancelled, printing for the interrupted job automatically restarts.
3.17 Registering copy programs (Mode Memory)

Frequently used copy settings can be stored together as a program to easily be recalled. A maximum of 30 programs can be registered.

A name of up to 16 characters can be specified for the registered copy programs.

1. Using the touch panel and control panel keys, specify the copy settings to be registered in the copy program.

   ? Can the current settings be checked?

   ➔ To check the currently specified copy settings, touch [Check Job] in the left panel, and then touch [Job Details].

2. Press the [Mode Memory] key.

   The Recall Copy Program screen appears.

3. From the copy program buttons that appear in the screen, touch the button where you wish to store the copy settings, and then touch [Register Program].

   ➔ There are three Recall Copy Program screens. Touch ▲ and ▼ to display a different screen.

   ➔ If 30 copy programs have been registered, delete an unnecessary copy program.

   The Register Copy Program screen appears.
4 Use the control panel keypad and the keyboard that appears in the touch panel to type in the name of the copy program.
   - The program name can contain a maximum of 16 characters.
   - For details on typing in text, refer to “Entering text” on page 8-3.

5 After typing in the name, touch [OK].
   - The copy program can be given the same name as a copy program that has already been registered.
   - To stop specifying the name of the copy program, touch [Cancel].
   The Recall Copy Program screen appears again. The copy program is registered and a button with the entered copy program name appears.
Can the copy program name be corrected?
→ To change the entered copy program name, touch the button whose name is to be changed, and then touch [Edit Name]. The Edit Name screen appears. Return to step 4 and repeat the procedure to change the copy program name.

Can the specified settings for a copy program be checked?
→ To check the programmed copy settings, touch the button for the desired copy program, and then touch [Check Program Settings]. For details, refer to “Copying with programmed copy settings (Mode Memory)” on page 3-83.

6 Touch [OK] or [Cancel].
- To return to the Basic screen, press the [Mode Memory] key.

Detail
To stop registering the program, press the [Reset] key or the [Mode Memory] key. No matter which screen is displayed, the registration is cancelled. Otherwise, continue to touch [Cancel] until the Basic screen is displayed.

The settings of a copy program cannot be changed.
If the copy program that was selected has been locked, [Edit Name] and [Delete] do not appear.
3.18 Copying with programmed copy settings (Mode Memory)

Programmed copy settings can be recalled to be used again for copying.

1 Position the original to be copied.
   - For details on positioning the original, refer to “Feeding the original” on page 3-28.

2 Press the [Mode Memory] key.

The Recall Copy Program screen appears.

3 Touch the button for the copy program registered with the copy settings to be recalled.
   - If the copy settings in the selected copy program are not to be checked, continue with step 8.
   - If the copy program to be recalled is not displayed, touch \[\] and \[\] until the desired copy program is displayed.
4  Press the [Check Program Settings] key.
   – The copy settings cannot be changed from the Check Job Settings screens.

The Check Job Settings screen appears.
There are six Check Job Settings screens. The number to the right of the screen title indicates the
number of the currently displayed screen.
To display the previous screen, touch [Back]. To display the next screen, touch [Forward].

5  Check the copy settings registered with the selected copy program.

6  Touch [Close].

The Recall Copy Program screen appears again.

7  Again touch the button for the copy program registered with the copy settings to be recalled.
   – If [OK] is touched with no copy program selected, the Basic screen appears again without a copy
     program being recalled.

8  Touch [OK].
The programmed copy settings are recalled and the Basic screen appears again.

9  Press the [Start] key.
   Copying begins with the recalled copy settings.

   ...  

Note
   To stop recalling a copy program, press the [Reset] key or the [Mode Memory] key or touch [Cancel].
3.19 Displaying function descriptions (Help)

Descriptions of the various functions and details of operations can be viewed.

There are two methods for displaying the Help screens.

- Main Help screens (from the Basic screen)
- Help screens for settings (from screens other than the Basic screen)

3.19.1 Overview of Help screens

The following items are provided in the Help Menu screen.

**Help Menu screen (1st level)**

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>[Function]</td>
<td>Use to search for descriptions from a Help menu divided by the function types and names.</td>
</tr>
<tr>
<td>[Search by Operation]</td>
<td>Use to search for descriptions from a Help menu divided by the operations.</td>
</tr>
<tr>
<td>[Function Map]</td>
<td>Displays the Function Map screen, which contains a chart of the available functions and settings.</td>
</tr>
<tr>
<td>[Name and Function of Parts]</td>
<td>Displays the Help menu for the name and function of each part. Use to check the description of the main unit and its options.</td>
</tr>
<tr>
<td>[Service/Admin. Information]</td>
<td>Displays the name, extension number and e-mail address of the administrator.</td>
</tr>
</tbody>
</table>

**Detail**

The Help screens cannot be displayed when the following operations are being performed. While scanning, while printing, while printing a proof copy, while previewing, during Enlarge Display mode, during Accessibility mode.

While the Help screens are displayed, the following keys are not available. [Start], [Stop], [C] (clear), [Interrupt], [Proof Copy], [Access], [Mode Memory], [Enlarge Display]

Items in the Help Menu screen and other Help screens can be selected by touching the button or by pressing the key in the keypad for the number of the desired item.

To display the next screen higher in the menu structure, touch [Close].

Touch [Exit] to exit the Help mode and return to the screen that was displayed before the [Help] key was pressed.
Help screen (2nd level) (Example: Function)

The items displayed in the Help menu for the name and function of each part differ depending on the options that are installed.

Help screen (bottom level) (Example: Function ➔ Copy ➔ Color)

Detail
The items displayed in the Help menu for the name and function of each part differ depending on the options that are installed.
Help screen (bottom level) (Example: Search by Operation ➔ Copying ➔ Selecting the Color ➔ Copy same color as original)

Touch [Set this function] to set the selected function.

Function Map screen (Example: Copy)

A chart of the available functions and settings are displayed in the function maps. Select an item from the chart for the Help screen that you wish to view.

Detail
There are 13 Function Map screens for Copy mode. The top number indicates the number of the 13 screens that is currently displayed.

To display the previous screen, touch ✅. To display the next screen, touch ✅.

Press the key in the keypad for the number of the desired item in the Function Map screen.

To display the Help screen for “Function” that contains the selected item, touch [Close] in the Help screen displayed by selecting an item in a Function Map screen.

To quit the Help mode, press the [Help] key or touch [Exit].
### 3.19.2 Displaying main Help screens

As an example, the following procedures describe the Help screens that are displayed for copy operations by using "Function".

1. With the Basic screen displayed, press the [Help] key.  

   The Help Menu screen appears.

   The Help screen for "Function" appears.

   Is there more information about the buttons of the Help screens?  
   → Refer to "Overview of Help screens" on page 3-85.

3. Touch [Copy] or [Open], or press the [1] key in the keypad.

   The Copy Help screen appears.
4 Touch [Open] or the right of the desired information, or press the key in the keypad for the number to the left of the desired information to display the corresponding Help screen.

5 After checking the Help information, touch [Exit] or press the [Help] key again. The Basic screen appears again.
3.20 Copy paper

Use paper that meets the following specifications.

3.20.1 Possible paper sizes

Non-standard-sized paper:

<table>
<thead>
<tr>
<th>Paper source</th>
<th>Paper size</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bypass tray*</td>
<td>A3  to B6, A6, 12-1/4 × 18, 12 × 18 to 5-1/2 × 8-1/2, 8 × 13, 16K, 8K</td>
</tr>
<tr>
<td>Tray 1</td>
<td>A3  to A5, 11 × 17 to 8-1/2 × 11, 8 × 13, 16K, 8K</td>
</tr>
<tr>
<td>Tray 2</td>
<td>A3  to A5, 12-1/4 × 18, 12 × 18 to 8-1/2 × 11, 8 × 13, 16K, 8K</td>
</tr>
<tr>
<td>Single/Double paper feed cab-</td>
<td>A3  to A5, 11 × 17 to 8-1/2 × 11, 8 × 13, 16K, 8K</td>
</tr>
<tr>
<td>nets</td>
<td></td>
</tr>
<tr>
<td>LCT</td>
<td>A4, 8-1/2 × 11</td>
</tr>
<tr>
<td>Double-sided copies</td>
<td>A3  to A5, 12-1/4 × 18, 12 × 18 to 5-1/2 × 8-1/2, 8 × 13, 16K, 8K</td>
</tr>
</tbody>
</table>

*1 For thick paper 4, only A3, A4, 11 × 17 and 8-1/2 × 11 are available for printing.

*2 This is one size larger than A3. 12-1/4 is equivalent to 311.1 mm × 457.2 mm, and 12 × 18 is equivalent to 304.8 mm × 457.2 mm

*3 There are five Foolscap sizes: 220 × 330 mm, 8-1/2 × 13, 8-1/4 × 13, 8-1/8 × 13-1/4, and 8 × 13. Any one of these sizes can be selected. For details, contact your service representative.

Standard-sized paper:

<table>
<thead>
<tr>
<th>Paper source</th>
<th>Paper size</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bypass tray*</td>
<td>A3  to B6, A6, 12-1/4 × 18, 12 × 18 to 5-1/2 × 8-1/2, 8 × 13, 16K, 8K</td>
</tr>
<tr>
<td>Tray 1</td>
<td>A3  to A5, 11 × 17 to 8-1/2 × 11, 8 × 13, 16K, 8K</td>
</tr>
<tr>
<td>Tray 2</td>
<td>A3  to A5, 12-1/4 × 18, 12 × 18 to 8-1/2 × 11, 8 × 13, 16K, 8K</td>
</tr>
<tr>
<td>Single/Double paper feed cab-</td>
<td>A3  to A5, 11 × 17 to 8-1/2 × 11, 8 × 13, 16K, 8K</td>
</tr>
<tr>
<td>nets</td>
<td></td>
</tr>
<tr>
<td>LCT</td>

3.20.3 **Special paper**

Paper other than plain paper, such as OHP transparencies and colored paper, is called special paper. Be sure to select a special paper setting for paper trays loaded with media such as OHP transparencies and colored paper. If the paper type is not correctly selected, paper misfeeds may occur.

<table>

3.21 Selecting the Paper settings

This section describes the procedures for specifying the size and type of paper loaded in each paper tray.

Detail
For details on loading the paper into tray 1/2/3/4, refer to "Loading paper into tray 1/2/3/4" on page 3-19.

For details on loading the paper into the bypass tray, refer to "Loading paper into the bypass tray" on page 3-23.

3.21.1 Automatically detecting the paper size ("Auto Detect" setting)

The size of the paper loaded into tray 1/2/3/4 and the bypass tray can be detected automatically.

The following procedure describes how to specify the setting for automatically detecting the paper loaded into tray 1.

1. In the Basic screen, touch [Paper].

The Paper screen appears.

2. Touch the button for tray 1.

   - To select the automatic paper detection setting for tray 2/3/4 or the bypass tray, touch the button for the corresponding paper tray.

3. Touch [Change Tray Settings].
4 Touch [Auto Detect].

As the factory default, “Auto Detect” is selected.

5 Touch [OK], and then touch [OK] in the next screen that appears. The Basic screen appears again.
3.21.2 Selecting a paper size setting (Size Setting)

The paper size can be set for the bypass tray so that it can be used with the specified paper size. This is useful, for example, when the size of the paper that is loaded cannot be automatically detected (such as with postcards or paper in inch sizes).

The following procedure describes how to specify the setting for postcards loaded into the bypass tray.

1. In the Basic screen, touch [Paper].

   ![Image 1](image1.png)
   The Paper screen appears.

2. Select the button for the bypass tray.

   ![Image 2](image2.png)

3. Touch [Change Tray Settings].

   ![Image 3](image3.png)
4  Touch [Standard Size].

The Standard Size screen appears.

5  Touch twice, and then touch [A6Card].

- Touch and until the button for the desired paper size is displayed.
- If “A6Card” is selected, “Thick 3” is automatically selected. If paper other than postcards are loaded, change the paper type setting. For details on the paper type settings, refer to “Specifying a setting for special paper” on page 3-106.

6  Touch [OK], and then touch [OK] in the next two screens that appear.

The Basic screen appears again.
The paper size for the bypass tray is set.

Reminder
If paper other than the specified paper size is loaded, a paper misfeed may occur since the paper size is not automatically detected.

Detail
For tray 2, “12-1/4 x 18” is available.
3.21.3 Specifying a non-standard paper size (Custom Size settings)

Non-standard-sized paper can be loaded into the bypass tray.
If wide paper is loaded, it will be necessary to enter the paper size.

1. In the Basic screen, touch [Paper].

   ![Image of Basic screen]

   The Paper screen appears.

2. Select the button for the bypass tray.

   ![Image of Paper screen]

3. Touch [Change Tray Settings].
4 Touch [Custom Size].

The Custom Size screen appears.

5 Type in the length (X) and width (Y) of the paper.
   – Make sure that [X] is selected, and then use the keypad to type in the length of side X (between 139.7 mm and 457.2 mm).
   – Touch [Y] to select it, and then use the keypad to type in the length of side Y (between 90.0 mm and 311.1 mm).
   – If a value outside the allowable range is specified, the message "Input error" appears. Type a value within the allowable range.
   – If the value was incorrectly entered, press the [C] (clear) key in the keypad to erase the value, and then specify the correct value.

To cancel changes to the settings, touch [Cancel].

6 Touch [OK], and then touch [OK] in the next two screens that appear.
The Basic screen appears again.
3.21.4 Storing a non-standard paper size (Custom Size settings)

Five non-standard paper sizes can be stored.

Storing paper sizes that are used often allows the paper size to be quickly selected, without having to re-enter the setting.

1. In the Basic screen, touch [Paper].

   ![Image of Basic screen]

   The Paper screen appears.

2. Select the button for the bypass tray.

   ![Image of Paper screen with bypass tray selected]

3. Touch [Change Tray Settings].
4 Touch [Custom Size].

The Custom Size screen appears.

5 Specify the X and Y sides of the paper, and then touch [Store].
   - Make sure that [X] is selected, and then use the keypad to type in the length of side X (between 139.7 mm and 457.2 mm).
   - Touch [Y] to select it, and then use the keypad to type in the length of side Y (between 90.0 mm and 311.1 mm).
   - Check the illustration in the screen for the sides that are considered X and Y.
   - If a value outside the allowable range is specified, the message “Input error” appears. Type a value within the allowable range.
   - If the value was incorrectly entered, press the [C] (clear) key in the keypad to erase the value, and then specify the correct value.
   - To cancel changes to the settings, touch [Cancel].
6 Touch the memory button where the paper size is to be stored.

- To change the name of a memory key, touch [Change Custom Size Name], and then touch the key to be renamed.

7 Touch [OK], and then touch [OK] in the next three screens that appear.
The Basic screen appears again.
3.21.5 Selecting a setting for oversized paper (Wide Paper settings)

By specifying paper one size larger than the document as wide paper, the document can be copied at the center so that there is no loss of the document image.

Wide paper can be specified for tray 1/2/3/4 or the bypass tray.

The following procedure describes how to specify the setting for wide paper loaded into the bypass tray.

**Detail**
Only standard-sized wide paper can be specified for tray 1/2/3/4.

When specifying wide paper for the bypass tray, non-standard-sized paper can be specified. When using non-standard-sized paper, enter the paper size.

1. In the Basic screen, touch [Paper].

The Paper screen appears.

2. Touch the button for the bypass tray.
   - To set the paper size for tray 1/2/3/4, touch the button for the corresponding paper tray.

3. Touch [Change Tray Settings].
4 Touch [Wide Paper].

The Wide Paper screen appears.

5 Select the size of the paper to be loaded.
   - Touch \[\] and \[\] until the button for the desired paper size is displayed.
   - If tray 1/2/3/4 is set for wide paper, the size cannot be changed.

6 To change the size, touch [Change Size].
   The Change Size screen for oversized paper appears.
Specify the X and Y sides of the paper, and then touch [OK].

- Touch either [X] or [Y], press the [C] (clear) key to clear the current setting, and then use the keypad to type in the size.
- To store a paper size of 12 × 18 cm (304.8 mm × 457.2 mm), touch [12 × 18 cm]. Enter values for “X” and “Y”.
- If a value outside the allowable range is specified, the message “Input error” appears. Type a value within the allowable range. The allowable range differs depending on the paper sizes.
- If the orientation of the loaded paper does not match the sizes specified for “X” and “Y”, “Input error” appears, even if the values are within the allowable range. In addition, do not enter the same size for “X” and “Y”.
- If the value was incorrectly entered, press the [C] (clear) key in the keypad to erase the value, and then specify the correct value.
- To cancel changes to the settings, touch [Cancel].

Touch [OK], and then touch [OK] in the next two screens that appear. The Basic screen appears again.

*Note*

The selected size button is programmed with the entered paper size, so that the paper size is available to be selected again without being typed in. In addition, the size can be changed.
3.21.6 Specifying a setting for special paper

If paper other than plain paper, such as OHP transparencies or special paper, is loaded in a paper tray, be sure to change the paper type setting for that tray.

The following procedure describes how to specify the setting for special paper loaded into tray 1.

1. In the Basic screen, touch [Paper].

The Paper screen appears.

2. Touch the button for tray 1.
   - To specify a setting for special paper for tray 2/3/4 or the bypass tray, touch the button for the corresponding paper tray.
   - If a setting for special paper is selected for a paper tray, that tray is not selected automatically with the "Auto" Paper setting. However, if the paper cannot be used for double-sided printing and the "Single Side Only" setting is selected for the paper tray, that tray is given priority.
   - The auto tray switch feature applies only to paper trays specified with the same paper type setting.

3. Touch [Change Tray Settings].
4. Select the appropriate setting for the type of special paper that is loaded.
   - Touch the button for the desired paper type.

   ![Image of the copy settings screen]

   ? What types of paper can be loaded in the paper tray?
   - There are limits on the types of paper that can be loaded in a paper tray. For details on the type of paper that can loaded, refer to “Copy paper” on page 3-90.
   - If postcards were loaded, select “Thick 3”.

5. Touch [OK], and then touch [OK] in the next screen that appears.
The Basic screen appears again.

   ✚ Reminder
   *If special paper is loaded into the paper tray, be sure to select the corresponding paper type, otherwise a paper misfeed may occur.*
3.21.7 Printing double-sided copies manually

The "2nd Side" setting is used to print double-sided copies on paper that cannot be fed through the automatic duplex unit.

The paper to be used for printing the second side can be loaded into the bypass tray.

1. In the Basic screen, touch [Paper].

The Paper screen appears.

2. Touch the button for the bypass tray.
   - A paper tray set to "2nd Side" is not selected when the "Auto" Paper setting is selected.

3. Touch [Change Tray Settings].
4 Select the type of paper to be loaded.

5 Touch [Duplex 2nd Side].

6 Touch [OK], and then touch [OK] in the next screen that appears. The Basic screen appears again.
3.22 Originals

When making copies, load the original into the ADF or position it on the original glass.

To copy originals that cannot be loaded into the ADF, position them on the original glass.

3.22.1 Originals that can be loaded into the ADF

There are three methods for using the automatic document feeder.

- Normal method
- For originals of mixed sizes
- For Z-folded originals

There are limits on the types of originals that can be loaded with each method.

Normal method

¹ Indicates the width of the widest original size of the mixed originals (width of the adjustable lateral guides of the automatic document feeder).

² Indicates original sizes that can be specified together with the maximum original width.
3.22.2 Precautions for loading originals into the ADF

The following types of originals should not be loaded into the ADF, otherwise paper misfeeds or damage to the original may occur.

- Wrinkled, folded, curled, or torn originals
- Highly translucent or transparent originals, such as OHP transparencies or diazo photosensitive paper
- Coated originals such as carbon-backed paper
- Originals printed on paper thicker than 210 g/m²
- Originals printed on paper thicker than 128 g/m² during double-sided printing
- Originals that are bound, for example, with staples or paper clips
- Originals that are bound in a book or booklet
- Originals with pages bound together with glue
- Originals with pages that have had cutouts removed or are cutouts
- Label sheets
- Offset printing masters
- Originals with binder holes
- Originals that have just been printed with this machine

Reminder
Before loading folded originals, such as those folded in half or in a zigzag, into the ADF, be sure to flatten the pages.

3.22.3 Originals that can be placed on the original glass

To copy originals that cannot be loaded into the ADF, position them on the original glass.

<table>
<thead>
<tr>
<th>Original glass originals</th>

</tr>
</tbody>
</table>

3.22.4 Precautions for positioning originals on the original glass

Observe the following precautions when placing the original on the original glass.

- If an original of non-standard paper size is loaded, the “Auto” Paper setting and “Auto” Zoom setting cannot be used since the original size cannot be detected automatically.
- If an original of a non-standard paper size is loaded, select the paper drawer and zoom ratio or touch [Original Setting] and select the original size.
- If highly translucent or transparent originals, such as OHP transparencies or diazo photosensitive paper, are loaded, the original size cannot be detected automatically. Place a blank sheet of paper of the same size over the original.
- Do not place objects exceeding 2 kg on the original glass, otherwise the original glass may be damaged.
- Do not press down extremely hard on a book spread on the original glass, otherwise the original glass may be damaged.
3.23 Inserting paper between OHP transparencies ("OHP Interleave" function)

In order to prevent copies printed onto OHP transparencies from sticking together as a result of the heat that is produced during copying, paper (interleaves) can be inserted between the transparencies.

- No Finishing setting can be used.

1. Position the original to be copied.
   - For details on positioning the original, refer to "Feeding the original" on page 3-28.
   - For details on loading OHP transparencies, refer to "Paper types and paper capacities" on page 3-91 and "Loading paper into the bypass tray" on page 3-23.

2. In the Basic screen, touch [Color], and then touch [Black].
   - Printing on OHP transparencies is possible only in black.

3. Load the OHP transparencies into the bypass tray, and load the interleaf paper into the desired paper tray.
   - Use interleaf paper with the same size as the OHP transparencies.

4. Select [Transparency] as the paper type for the bypass tray, and then touch [OK].
   - For details on specifying the paper type settings, refer to "Specifying a setting for special paper" on page 3-106.
5 Touch [Application], and then touch [Sheet/Cover/Chapter Insert].
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to
   the settings are canceled.

The Sheet/Cover/Chapter Insert screen appears.

6 Touch [OHP Interleave].

The OHP Interleave screen appears.
7 Select the paper tray loaded with the interleaf paper.
   - To cancel the setting and select the default, press the [Reset] key.
   - To cancel the “OHP Interleave” function, touch [No].

8 Touch [OK].

9 Specify any other desired copy settings.
   - The number of copies is set to “1” and cannot be changed.

10 Press the [Start] key.
### 3.24 Adding cover pages ("Cover Sheet" function)

Copies can be made using paper different from the main body of the original (excluding the cover pages), and cover pages can be added using paper different from the copy.

The following types of cover pages and front and back cover page settings are available.

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Front Cover</td>
<td></td>
</tr>
<tr>
<td>Front (Copy)</td>
<td>The first page of the original is copied onto paper for the front cover sheet. With double-sided copying, the second page of the original is copied onto the back of the front cover sheet.</td>
</tr>
<tr>
<td>Front (Blank)</td>
<td>Paper for the front cover sheet is added as the first page of the copy. The same operation is performed with double-sided copying.</td>
</tr>
<tr>
<td>Back Cover</td>
<td></td>
</tr>
<tr>
<td>Back (Copy)</td>
<td>The last page of the original is copied onto the back cover page. With double-sided copying, a double-sided copy of the last two pages of the original is printed on paper for the back cover sheet if the original contains an even number of pages.</td>
</tr>
<tr>
<td>Back (Blank)</td>
<td>Paper for the back cover sheet is added after the last page of the copy. The same operation is performed with double-sided copying.</td>
</tr>
</tbody>
</table>

1. Position the original to be copied.
   - For details on positioning the original, refer to "Feeding the original" on page 3-28.
   - For an original that exceeds 100 pages, refer to "Scanning the original in separate batches ("Separate Scan" setting)" on page 3-31.

2. Load the paper for the cover pages and the paper for the main body of the original into separate paper trays.
   - Use paper with the same size for the cover pages and for the main body of the original, and load them in the same orientation.
3 Touch [Application], and then touch [Sheet/Cover/Chapter Insert].
   - For details on using thick paper for the cover sheets and on loading the paper, refer to “Paper types and paper capacities” on page 3-91 and “Loading paper into the bypass tray” on page 3-23.
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to the settings are canceled.

The Sheet/Cover/Chapter Insert screen appears.

4 Touch [Cover Sheet].

The Cover Sheet screen appears.
5 Select the desired cover page settings.
   – To cancel the setting and select the default, press the [Reset] key.
   – To cancel the "Cover Sheet" function, touch [No].
   – The default setting for the paper tray loaded with cover pages can be specified from the Utility mode.

![Cover Sheet settings screen]

6 If desired, touch [Paper] under "Front Cover" or "Back Cover".
   The corresponding Cover Paper screen appears.

7 Select the paper tray loaded with the paper for the cover pages.

![Cover Paper selection screen]

8 Touch [OK], and then touch [OK] in the next two screen that appears.

9 Specify any other desired copy settings.

10 Using the keypad, type in the desired number of copies.

11 Press the [Start] key.
3.25 Inserting different paper into copies ("Insert Sheet" function)

Different paper (such as colored paper) can be inserted for specified pages in the copies.

There are settings ("Copy" and "Blank") for selecting whether or not the inserted pages are printed. When the settings are combined with single-sided copying or double-sided copying, the copies are printed as shown below.

If "Copy" is selected, the original is copied with the specified paper inserted for the specified pages.

When page 2 is specified

<table>
<thead>
<tr>
<th>Finishing</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single-sided copies</td>
<td>The specified paper is inserted for the 2nd sheet of the copy, and the 2nd sheet of the original is copied onto it.</td>
</tr>
<tr>

Blank

Detail

The specified paper can be inserted at a maximum of 30 locations within an original of up to 999 pages.

In double-sided originals, one double-sided page is considered to be two pages (one for the front and one for the back).
Position the original to be copied.
- For details on positioning the original, refer to “Feeding the original” on page 3-28.
- For an original that exceeds 100 pages, refer to “Scanning the original in separate batches (“Separate Scan” setting)” on page 3-31.

Load the paper to be used for the insertions sheets and the main body of the original into the desired paper trays.
- Use paper with the same size for the insertion sheets and for the main body of the original, and load them in the same orientation.
- To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to the settings are canceled.

Touch [Application], and then touch [Sheet/Cover/Chapter Insert].
- For details on using thick paper for the insertion sheets and on loading the paper, refer to "Paper types and paper capacities" on page 3-91 and "Loading paper into the bypass tray" on page 3-23.
- To cancel the setting and select the default, press the [Reset] key.

The Sheet/Cover/Chapter Insert screen appears.

Touch [Insert Sheet].
- To cancel the "Insert Sheet" function, touch [No].

The Insert Sheet screen appears.
5 Touch a button for a page number, and then use the keypad to type in the number of the page where the paper is to be inserted.
- There are two Insert Sheet screens. Touch and to display a different screen.
- To arrange the page numbers in order, starting with the lowest number, touch [Sort].
- To remove a page number that has been specified, touch the button for the page to be removed, and then press the [C] (clear) key.
- If the same page number is entered multiple times, copying is not possible. Delete repeated page numbers.
- If the entered page number is greater than the number of pages in the original, paper is not inserted.

6 Touch [Insert Paper].
The Insert Paper Settings screen appears.

7 Select the paper tray loaded with the paper for the insertion sheets, and then touch [OK].

8 Under "Insert Type", touch either [Copy] or [Blank].
- If "Copy" is selected, the original is copied with the specified paper inserted for the specified page.
- If "Blank" is selected, the specified paper is inserted after the specified page.

9 Touch [OK], and then touch [OK] in the next screen that appears.

10 Specify any other desired copy settings.

11 Using the keypad, type in the desired number of copies.

12 Press the [Start] key.
3.26 Inserting copies of a different original for a specified page ("Insert Image" function)

A multi-page original later scanned from the original glass can be inserted at the specified location in an original first scanned with the ADF. The inserted original is added after the specified pages.

Detail
A separate original can be inserted at a maximum of 30 locations within an original of up to 999 pages.

In double-sided originals, one double-sided page is considered to be two pages (one for the front and one for the back).

1 Load the original into the ADF.
   - For details on positioning the original, refer to “Feeding the original” on page 3-28.
   - For an original that exceeds 100 pages, refer to “Scanning the original in separate batches (“Separate Scan” setting)” on page 3-31.

2 Touch [Application], and then touch [Sheet/Cover/Chapter Insert].
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to the settings are canceled.

The Sheet/Cover/Chapter Insert screen appears.
3 Touch [Insert Image].
- To cancel the setting and select the default, press the [Reset] key.
- To cancel the "Insert Image" function, touch [No].

The Insert Image screen appears.

4 Using the keypad, specify the pages where the image is to be inserted.

- There are two Insert Image screens. Touch  and  to display a different screen.
- The inserted original is added after the specified page.
- To arrange the page numbers in order, starting with the lowest number, touch [Sort].
- To remove a page number that has been specified, touch the button for the page to be removed, and then press the [C] (clear) key.
- If the original scanned from the original glass has more pages than the number of pages specified in the Insert Image screen, the extra pages of the insertion original are printed at the end of the original.
- If the original scanned from the original glass has fewer pages than the number of pages specified in the Insert Image screen, the missing insertion pages are not printed.
- If the same page number is specified twice, two insertion original pages are added at the specified location.
- If the specified page number is greater than the total number of pages in the main original, the corresponding insertion original page is added at the end of the original copy.

5 Touch [OK], and then touch [OK] in the next screen that appears.

6 Specify any other desired copy settings.

7 Using the keypad, type in the desired number of copies.
8 Press the [Start] key. Scanning begins.

9 Place the original to be inserted on the original glass.
   – For details on positioning the original, refer to "Feeding the original" on page 3-28.

10 Press the [Start] key. Scanning begins.

11 Touch [Finish].
   – To insert a multi-page original, repeat steps 9 and 10 until all pages of the insertion original are scanned in the order that they are to be inserted.

12 Press the [Start] key.
3.27 Specifying pages to be printed on the front side ("Chapters" function)

When making double-sided copies, the pages specified as the first page of a chapter can be printed on the front side of the paper. If the original was arranged so that the specified page would be printed on the back side of a page, the page is left blank and the specified page is printed on the front side of the next page. In addition, the specified page can be printed on different paper.

**Detail**

A maximum of 30 pages can be specified to be printed on the front side of the paper within an original of up to 999 pages.

*In double-sided originals, one double-sided page is considered to be two pages (one for the front and one for the back).*

![Diagram of page arrangement]

**Note**

Make sure that the paper loaded for the first page of the chapter and for the copy have the same size and orientation.

1. Position the original to be copied.
   - For details on positioning the original, refer to "Feeding the original" on page 3-28.
   - For an original that exceeds 100 pages, refer to "Scanning the original in separate batches ("Separate Scan" setting)" on page 3-31.
2 Touch [Application], and then touch [Sheet/Cover/Chapter Insert].
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to
     the settings are canceled.

   ![Image of the Copy Operations screen]

   The Sheet/Cover/Chapter Insert screen appears.

3 Touch [Chapters].

   ![Image of the Chapter screen]

   The Chapter screen (for editing) appears.

4 Using the keypad, specify the first page of the chapters.

   ![Image of the Chapter settings screen]
There are two Chapter screens. Touch \( \text{1} \) and \( \text{2} \) to display a different screen.

To arrange the page numbers in order, starting with the lowest number, touch [Sort].

To remove a page number that has been specified, touch the button for the page to be removed, and then press the [C] (clear) key.

Under "Original > Copy", select "1-Sided > 2-Sided".

If the same page number is entered multiple times, copying is not possible. Delete repeated page numbers.

If the specified page number is greater than the number of pages in the original, that page number is ignored.

Under "Chapter Paper", touch [Copy Insert] or [None].

If "None" is selected, all pages of the copy are printed on the same paper.

To cancel the setting and select the default, press the [Reset] key.

To cancel the "Chapters" function, touch [No].

If "Copy Insert" is selected, [Chapter Paper] appears. Touch [Chapter Paper], select the paper to be used for the first page of the chapter, and then touch [OK].

Touch [OK], and then touch [OK] in the next screen that appears.

Specify any other desired copy settings.

Using the keypad, type in the desired number of copies.

Press the [Start] key.
3.28 Scanning originals with different settings and printing copies all together ("Program Jobs" function)

Loaded original pages can be scanned with different settings and their copies can be printed together. Different Zoom or Paper settings can be specified for a part of the original or Finishing settings or a numbering function can be set after the entire original is scanned, and then all copies can be printed together.

![Diagram of original scanning and printing process]

...  
Note  
100 original batches can be set.

The “Group” Finishing setting is not available when programming jobs. Instead, select “Sort”.

1 Position the original to be copied.
   - For details on positioning the original, refer to "Feeding the original" on page 3-28.
   - When saving scanned data in a user box, some scanned data may be lost if more than 10,000 pages are saved in the box.

2 Touch [Application], and then touch [Sheet/Cover/Chapter Insert].
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to the settings are canceled.

![Screen shot of Sheet/Cover/Chapter Insert interface]

The Sheet/Cover/Chapter Insert screen appears.
3 Touch [Program Jobs], and then touch [OK].

4 Select the desired copy settings, and then press the [Start] key.
   - To print a single copy or to display the preview image to be checked, press the [Proof Copy] key. Scanning begins.

5 Touch [Fix], and then touch [OK].
   - If the original was loaded on the original glass, touch [Finish] in the screen that appears, requesting confirmation that scanning is finished.
   - If “Retry” was selected, touch [Change Setting] to change the copy settings.
6 Position the next original, and then touch [Change Setting].

![Image of change setting screen]

7 Select the desired copy settings, and then press the [Start] key.

![Image of copy settings screen]

- To print a single copy to be checked, press the [Proof Copy] key.
- Repeat steps 5 to 7 until all originals have been scanned. The amount of memory available can be checked beside “Memory” in the lower-left corner of the screen. In addition, the number of original batches can be checked beside “Scanned Batches”.
- When the memory is full, a message appears. Select whether to delete the last part of the data and scan it again, delete the last part of the data and print, or delete all of the original data.
- To cancel changes to the settings, touch [Cancel].

Scanning begins. After scanning is finished, touch [Fix], and then touch [OK].

? Is there more information about the settings?

→ Refer to the appropriate section.

8 After all original pages have been scanned, touch [Finish].

A message appears, requesting confirmation that scanning is finished.
9  Touch [Yes], and then touch [OK].
   - If "No" was selected, touch [Change Setting] to change the copy settings.

10 Specify any other desired copy settings.
   - Touch [Print List], and then specify the printing method for the entire scanned original.

? Is there more information about the settings?
   Refer to the appropriate section.
11 Using the keypad, type in the desired number of copies.

12 Touch [Start] or press the [Start] key.
   - If [Cancel] is touched, a message appears, requesting confirmation to delete the data. To stop printing, touch [Yes], and then touch [OK].
3.29 Producing separate copies of each page in a page spread ("Book Copy" function)

An open book or catalog can be copied with the left and right pages on separate sheets of paper.

The following copy methods are available, and there are settings for adding front and back covers.

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Book Spread</td>
<td>Both pages of the page spread are printed on the same page.</td>
</tr>
<tr>
<td>Separation</td>
<td>Separate copies of each page in the page spread are printed in the original page order. The original is scanned to fit the size of paper that will be used.</td>
</tr>
<tr>
<td>Front Cover</td>
<td>The front cover and separate copies of each page in the page spreads are printed in the original page order.</td>
</tr>
<tr>
<td>Front and Back Cover</td>
<td>The front cover, separate copies of each page in the page spreads and the back cover are printed in the original page order.</td>
</tr>
</tbody>
</table>

✅ Place the original on the original glass.

1 Place the pages on the original glass, starting with the first page.
   - For details on positioning the original, refer to “Feeding the original” on page 3-28.
   - If “Front and Back Cover” was selected, the front cover is scanned before the back cover, and then all page spreads are scanned in order.

❓ How are the front and back covers copied?
   ➔ Scan the front cover, then the back cover, and then scan the remainder of the original.

2 Load the paper to be used into the desired paper tray.

3 Touch [Application], and then touch [Book Copy/Repeat].
   – To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to
     the settings are canceled.

4 Touch [Book Copy].

   – [Booklet Original] appears if optional finisher FS-609 is installed or optional finisher FS-519 is
     installed with the saddle stitcher attached.

The Book Copy screen appears.
5 Touch the button for the desired setting.

- If "Separation", "Front Cover" or "Front and Back Cover" is selected, [Binding Position] appears. Select the binding position of the original.
- If desired, specify a Book Erase function. Touch the button for the erasing method, touch [-] and [+] to specify the width of the area to be erased, and then touch "OK".
- When using the keypad to specify the settings, press the [C] (clear) key to erase the value, and then type in the setting.
- To cancel the "Book Copy" function, touch [No].

What do the Book Erase functions do?
- The shadow of the book binding and the shadow of the book edges can be erased from the copies. The "Frame Erase" and "Center Erase" functions can be used together.

How are settings specified for the "Frame Erase" function?
- If the "Frame Erase" function in the Application screen is specified, [Frame Erase] under "Book Erase" will be selected.

What happens when a value outside of the allowable range is specified?
- The message "Input error" appears. If "Input error" appears or if the erased width was incorrectly entered, press the [C] (clear) key in the keypad, and then specify the correct value.

6 Touch [OK], and then touch [Close].
In the Basic screen, touch [Paper], and then select the paper tray loaded with the paper.

Specify any other desired copy settings.
- To cancel the setting and select the default, press the [Reset] key.

Using the keypad, type in the desired number of copies.

Press the [Start] key.
- For details on positioning the original, refer to “Scanning a multi-page original from the original glass” on page 3-35.
- Position the next page and repeat step 10 until all pages of the original are scanned.

Scanning begins.
If "Book Spread" or "Separation" is selected, printing begins.
If "Front Cover" or "Front and Back Cover" is selected, continue with step 11.

After all original pages have been scanned, touch [Finish].
- If "Front and Back Cover" was selected, the back cover is scanned after the front cover, and then all page spreads are scanned in order.
- If "Front Cover" was selected, all page spreads are scanned in order after the front cover.

12 Press the [Start] key.
3.30 Tiling copy images ("Image Repeat" function)

An original image can be repeatedly printed on a single sheet of paper.

The possible number of repeating images is automatically selected based on the size of the loaded original, the specified paper size and the zoom ratio.

The following repeating formats and settings are available.

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>With Margin</td>
<td>Multiple copies are printed of the entire image within the specified area. The area around the image appears as a margin.</td>
</tr>
<tr>
<td>Without Margin</td>
<td>Multiple copies of the selected area of the image are printed to fill the paper; however, a part of the image may be cut off.</td>
</tr>
<tr>
<td>2/4/8 Repeat</td>
<td>A fixed number of copies of the selected image area are printed in the paper. The number of repeating copies can be set to 2, 4 or 8 times. However, any part of the image that does not fit within its specific section of the paper is cut off.</td>
</tr>
</tbody>
</table>

1. Position the original to be copied.
   - For details on positioning the original, refer to "Feeding the original" on page 3-28.

2. Load the paper to be used into the desired paper tray.

3. Touch [Application], and then touch [Book Copy/Repeat].
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to the settings are canceled.

The Book Copy/Repeat screen appears.
4 Touch [Image Repeat].

- [Booklet Original] appears if optional finisher FS-609 is installed or optional finisher FS-519 is installed with the saddle stitcher attached.

The Image Repeat screen appears.

5 Under "Layout", touch [With Margin] or [Without Margin], or touch [2/4/8 Repeat].
- To cancel the "Image Repeat" function, touch [No].

- Touching [2/4/8 Repeat] displays the 2/4/8 Repeat screen, where the number of repeats and the interval can be selected.
Check the scanning size under “Scan Range”, touch [OK], and then touch [Close] in the next screen that appears.

- If the original size does not appear under “Scan Range” or to specify the scanning area, touch [Set Range], and then specify the scanning area from any of the screens.
- Touch [Photo Size] to display the Photo Size screen.
  To cancel changes to the settings, touch [Cancel].
Copy Operations

3

Can sizes in inches be displayed?

Touch [1] or [2] to display a different list of sizes.

Can any size be specified?

Any size can be specified from the Custom Size screen. Touch [X] or [Y] to select the dimension, and then use the keypad to specify the correct value. (To enter a value, press the [C] (clear) key, and then use the keypad to type in the new value.)

What happens when a value outside of the allowable range is specified?

The message “Input error” appears. If “Input error” appears or if the value was incorrectly entered, press the [C] (clear) key in the keypad, and then specify the correct value.

7 In the Basic screen, touch [Paper], and then select the paper tray loaded with the paper.

- If settings were specified in the 2/4/8 Repeat screen, touch [Zoom] in the Basic screen, and then specify the zoom ratio setting.

8 Specify any other desired copy settings.

- To cancel the setting and select the default, press the [Reset] key.

9 Using the keypad, type in the desired number of copies.

10 Press the [Start] key.
Copy Operations

3.31 Copying an enlarged image on multiple pages ("Poster Mode" function)

An original image can be divided, and each section of the image can be printed enlarged. The finished size can be specified by the image size, zoom ratio or paper size.

1. Place the original on the original glass.
   - For details on positioning the original, refer to “Feeding the original” on page 3-28.

2. Touch [Application], and then touch [Book Copy/Repeat].
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to the settings are canceled.

3. Touch [Poster Mode].

   - [Booklet Original] appears if optional finisher FS-609 is installed or optional finisher FS-519 is installed with the saddle stitcher attached.
   The Poster Mode screen appears.
4 Under “Output Size”, touch [Image Size], [Paper Size] or [Zoom].
   - The factory default setting for the finished size is “A2”.

   Touch [Image Size], select the finished image size, and then touch [OK].
   - Touch ▼ or ▲ to display a different list of standard sizes.
   - Touching [Custom Size] displays the Custom Size screen. Touch [X] or [Y] to select the dimension, and then use the keypad to specify the desired value.

   Touch [Paper Size], select the finished paper size, and then touch [OK].
   - Touch ▼ or ▲ to display a different list of paper sizes.
– Touch [Zoom], use the keypad to type in the desired value, and then touch [OK].

5 Check the original size, and then touch [OK].
– If the original size cannot be detected automatically or to specify the original size, touch [Original Size], and then specify the original size from any of the screens.
– Touch [Photo Size] to display the Photo Size screen.
To cancel changes to the settings, touch [Cancel].
4 Can sizes in inches be displayed?
→ Touch or to display a different list of sizes.

5 Can any size be specified?
→ Any size can be specified from the Custom Size screen. Touch [X] or [Y] to select the dimension, and then use the keypad to specify the correct value. (To enter a value, press the [C] (clear) key, and then use the keypad to type in the new value.)

6 What happens when a value outside of the allowable range is specified?
→ The message “Input error” appears. If “Input error” appears or if the value was incorrectly entered, press the [C] (clear) key in the keypad, and then specify the correct value.

6 Specify any other desired copy settings.
→ The number of copies is set to “1” and cannot be changed.

7 Press the [Start] key.
3.32 Copying booklets ("Booklet Original" function)

A booklet with its staples removed can be copied and bound with staples at the center to create copies of the original booklet.

Detail

For details on stapling, refer to "Binding copies at the center ("Center Staple" and "Half-Fold" setting/"Center Staple & Fold" setting)" on page 3-68.

With the "Booklet Original" function, copies are made of the entire page, including the center of the original (area bound with staples).

For details on positioning the original, refer to "Feeding the original" on page 3-28.

This function can be used when optional finisher FS-609 is installed or optional finisher FS-519 is installed with the saddle stitcher attached.

1 Position the original to be copied.
   - Load a booklet with the staples removed.
   - The number of sheets that can be stapled together is no more than 15 and differs depending on the paper type. For details, refer to "Selecting a folding setting" on page 3-65.
   - When using the original glass, position the pages in order, starting with the side that includes the first page, then the side that includes the second page, then the side that includes the third page.
   - When using the ADF, load the pages with the side that includes the first page on top.
2 Touch [Application], and then touch [Book Copy/Repeat].
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to
     the settings are canceled.

3 Touch [Booklet Original].
   - Select [Center Erase ON] or [Center Erase OFF], and then touch [OK].

4 Touch [Close].

5 Specify any other desired copy settings.

6 Using the keypad, type in the desired number of copies.

7 Press the [Start] key.
   - If the original is placed on the original glass, scanning begins.
   - For details on scanning an original from the original glass, refer to “Scanning a multi-page original
     from the original glass” on page 3-35.

8 After all original pages have been scanned, touch [Finish] and then press the [Start] key.
3.33 Adjusting the image to fit the paper (Image Adjust settings)

When the copy paper is larger than the original, copies can be made with the original image centered and enlarged to fill the paper.

The image can be adjusted in any of the following ways.

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full Size</td>
<td>The area that contains the entire image is centered and enlarged to the size of the paper.</td>
</tr>
<tr>
<td>Center Zoom</td>
<td>The image is enlarged to the size of the paper so that the paper is filled. However, some parts of the image may be lost.</td>
</tr>
<tr>
<td>Centering</td>
<td>The image is centered in the paper without being enlarged.</td>
</tr>
</tbody>
</table>

1. Position the original to be copied.
   - For details on positioning the original, refer to "Feeding the original" on page 3-28.
   - If "Full Size" or "Center Zoom" is to be set, position the original on the original glass.

2. Touch [Application], and then touch [Image Adjust].
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to the settings are canceled.

The Image Adjust screen appears.
3 Touch the button for the desired setting.
   - To cancel the Image Adjust settings, touch [No].
   - If a non-standard-sized original is loaded, the original size is not detected. Therefore, specify the original size in the Custom Size screen, and then press the [Start] key.

4 Check the original size, and then touch [OK].
   - If the original size cannot be detected automatically or to specify the original size, touch [Original Size], and then specify the original size from any of the screens. To cancel changes to the settings, touch [Cancel].
– Touch [Photo Size] to display the Photo Size screen.

Can sizes in inches be displayed?
→ Touch  or  to display a different list of sizes.

Can any size be specified?
→ Any size can be specified from the Custom Size screen. Touch [X] or [Y] to select the dimension, and then use the keypad to specify the correct value. (To enter a value, press the [C] (clear) key, and then use the keypad to type in the new value.)

What happens when a value outside of the allowable range is specified?
→ The message “Input error” appears. If “Input error” appears or if the value was incorrectly entered, press the [C] (clear) key in the keypad, and then specify the correct value.

Specify any other desired copy settings.
→ To cancel the setting and select the default, press the [Reset] key.

Using the keypad, type in the desired number of copies.

Press the [Start] key.
3.34 Copying with the page layout of a booklet ("Booklet" function)

The page order of the scanned original is automatically arranged to produce double-sided copies in a page layout for center binding, such as for a magazine. Stapling is possible only when optional finisher FS-609 is installed or optional finisher FS-519 is installed with the saddle stitcher attached.

Detail

Generally, a multiple of 4 original pages is required with a single-sided original, and a multiple of 2 original pages is required with a double-sided original. If there are not enough pages, blank pages are automatically added at the end.

For details on stapling, refer to "Binding copies at the center ("Center Staple" and "Half-Fold" setting/"Center Staple & Fold" setting)" on page 3-68.

For an original that exceeds 100 pages, refer to "Scanning the original in separate batches ("Separate Scan" setting)" on page 3-31.

The width of the binding margin is automatically specified.

1 Position the original to be copied.
   - For details on positioning the original, refer to "Feeding the original" on page 3-28.

2 Touch [Application], and then touch [Booklet].
   - To cancel changes to the settings for all Application functions, press the [Reset] key. All changes to the settings are canceled.

![Diagram showing the page layout of a booklet with "Left Bind" and "Right Bind" settings.](image)
3  Touch [Left Bind] or [Right Bind].
   – If the original contains only pages in the landscape orientation, they will be bound at the top, regardless of which setting is selected.
   – To cancel the setting and select the default, press the [Reset] key.
   – To cancel the “Booklet” function, touch [No].

4  Touch [OK].

5  Specify any other desired copy settings.

6  Using the keypad, type in the desired number of copies.

7  Press the [Start] key.
### 3.35 Printing the date/time or page number on copies (Stamp/Composition functions)

The date/time or page number can be added to copies at the specified location, or a distribution number can be added when multiple copies are made.

The following Stamp/Composition functions are available and can be combined.

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Date/Time</td>
<td>Select a format and print the date or time on the specified pages.</td>
</tr>
<tr>
<td>Page Number</td>
<td>Select a format and print page numbers starting with the specified page number.</td>
</tr>
</tbody>
</table>
| Stamp               | • Preset Stamp
                      • Registered Stamp
                      Print copies with previously stored preset stamps overlapping pages.
                      Print copies with a stamp registered with the Copy Protection Utility overlapping pages. |
| Copy Protect        | Print copies with copy protection text (hidden text that prevents unauthorized copying), such as a preset stamp or the date. |
| Stamp Repeat        | Print copies with text (such as registered stamps, preset stamps or the date) repeating throughout the page. |
| Overlay             | Copies can be printed with the contents of the first original page overlapped by (as an overlay image) the remaining original pages. |
| Header/Footer       | The date and time or a distribution number can be printed on each page.      |
|                     | This function is available only when specified by the administrator.          |
3.36 Saving the scanned original in a user box ("Save in User Box" function)

A scanned original can be saved in a user box. Documents saved in user boxes can be printed when necessary.

1. Position the original to be copied.
2. Touch [Application], and then touch [Save in User Box].

3. Touch [User Box].

A screen for selecting a user box appears.
4. Select the user box where the data is to be saved.
   - Touch the tab containing the desired user box, and then button for the user box.
   - To type in a user box number to specify the user box, touch [Enter User Box No.].
   - It is not necessary to enter the password when saving data, even if a password has been specified for the box.

5. Touch [OK].
6 Check the name of the document to be saved. To change the name that is automatically specified, touch [Document Name].

7 After typing in the name, touch [OK].
   - For details on typing in text, refer to "Entering text" on page 8-3.

8 Select whether or not a copy will also be printed when the data is saved. To print a copy, touch [Yes] beside "Save & Print".
9 Touch [OK].
   - To cancel the "Save in User Box" function, touch [No].
     The Application screen appears again.

10 Specify any other desired copy settings.

11 Press the [Start] key.
   If [Yes] beside "Save & Print" was selected, the scanned original is copied and the document data is saved in the specified user box.
   If [No] beside "Save & Print" was selected, the data for the scanned original is saved in the specified user box.
3.37 Overview of Utility mode parameters

This section describes the buttons available when the [Utility/Counter] key is pressed.

Note
The buttons that appear in the Utility mode parameters differ depending on the specified settings.

4 Print Operations
4 Print Operations

4.1 Common settings (PCL/PS drivers for Windows)

The following describes the common settings and buttons that are displayed on all tabs.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>OK</td>
<td>Click this button to close the dialog box and apply any settings that have been changed.</td>
</tr>
<tr>
<td>Cancel</td>
<td>Click this button to cancel any settings that have been changed and close the dialog box.</td>
</tr>
<tr>
<td>Help</td>
<td>Click this button to display the help for each item on the currently displayed dialog box.</td>
</tr>
<tr>
<td>Add (Favorite Setting)</td>
<td>Click this button to save the current settings and to view them at a later time.</td>
</tr>
<tr>
<td>Edit (Favorite Setting)</td>
<td>Click this button to change the saved settings.</td>
</tr>
<tr>
<td>Default</td>
<td>Click this button to return the default setting.</td>
</tr>
<tr>
<td>View</td>
<td>When the &quot;Paper View&quot; button is selected, a preview of the page layout as specified in the current settings is displayed and a preview image of the print job can be checked. When the &quot;Printer View&quot; button is selected, a printer figure is displayed showing any options, such as the paper tray, that are installed on this machine.</td>
</tr>
</tbody>
</table>

Printer Information Starts up the PageScope Web Connection to confirm the printer information. This is available when communication with this machine is enabled.
### 4.2 Parameter details (PCL/PS drivers for Windows)

The print setting screen is the screen to set printer driver functions.

Click the [Properties] or [Preferences] button on the Print dialog box, or right-click the printer icon of the "Printers" window or the "Printers and Faxes" window, and then specify "Print Setting" ("Document Defaults" for Windows NT 4.0) to open it.

#### 4.2.1 Basic tab

![Konica Minolta PCL Printing Preferences](image)

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Original Orientation</td>
<td>Portrait, Landscape</td>
<td>Specifies the orientation of the original.</td>
</tr>
<tr>
<td>Original Size</td>
<td>Paper size registered as the standard paper size and non-standard paper size.</td>
<td>Specifies the size of the original document.</td>
</tr>
<tr>
<td></td>
<td>Custom Size</td>
<td>Register the size.</td>
</tr>
<tr>
<td>Paper Size</td>
<td>Paper size registered as the standard paper size and non-standard paper size available on this machine.</td>
<td>Specifies the output paper size. The original is automatically enlarged or reduced to the size specified here when it differs from the &quot;Original Size&quot; setting and &quot;Zoom&quot; is set to &quot;Auto&quot;.</td>
</tr>
<tr>
<td></td>
<td>Custom Size</td>
<td>Custom sizes can be registered.</td>
</tr>
<tr>
<td>Zoom</td>
<td>25 to 400%</td>
<td>Specifies the enlargement and reduction ratio.</td>
</tr>
<tr>
<td>Paper Tray</td>
<td>Auto, Tray1-4, LCT, Bypass Tray</td>
<td>Selects the paper tray to be used. The selectable items differ depending on the options that are installed.</td>
</tr>
<tr>
<td>Paper Type</td>
<td>Paper type available on this machine.</td>
<td>Selects the paper type for printing. Can be changed only when the paper tray is set to &quot;Auto&quot;. When the paper tray is not set to &quot;Auto&quot;, the paper type registered by &quot;Paper Settings for Each Tray&quot; is effective.</td>
</tr>
</tbody>
</table>
Note
The paper size "12 × 18" is equivalent to 304.8 × 457.2 mm which is slightly larger than A3.

To print on paper sizes other than the standard sizes, be sure to set the custom paper sizes first. You can register a non-standard size by selecting "Custom Size" from the paper size option or original size option.

To print data of the size as large as the standard size, by selecting "W" for each standard size paper for "Original Size", the data can be centered and printed on papers larger than the original size. For example, if you want to center and print 8-1/2 × 11 size data on 11 × 17 size paper, create data in the size of "8-1/2 × 11W", and then specify "8-1/2 × 11W" for "Original Size" and specify "Paper Tray" as the tray to be used with the printer driver.

On the machine side, load 11 × 17 size paper into the tray to be used, select the tray in [Basic screen (Paper)], select [Change Tray Setting] - [Wide Paper] on the control panel, specify "8-1/2 × 11W", and then check that [Auto Detect] is selected in [Custom Size] and "11 × 17" is displayed.

When 12-1/4 × 18 size papers have been loaded, [12-1/4 × 18] must be selected in [Custom Size]. To print on a custom size, use the bypass tray, select [Change Tray Settings] - [Wide Paper], select "8-1/2 × 11W", and then select the paper size to use from [Change Size].

Specify "Duplex Side 2" to print on the back side of a page.

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Output Method</td>
<td>Print</td>
<td>Prints immediately.</td>

<td></td>
</tr>
<tr>
<td></td>
<td>Shift Mode</td>
<td>Selects how to process the image to prepare the binding margin.</td>
</tr>
<tr>
<td></td>
<td>Front Side/Back Side</td>
<td>Specifies the binding margin values. For 2-sided printing, clearing the &quot;Same Value for Front and Back Sides&quot; check box allows you to set different values between the front and back sides.</td>
</tr>
<tr>
<td>Units</td>
<td></td>
<td>Selects the measurement unit that specifies the size.</td>
</tr>
</tbody>
</table>

![Image of Print Operations](image-url)
### Note

"Combination" provides options "2 × 2, 3 × 3, 4 × 4" to print a sheet of document into multiple sheets of paper. The function is only for the PCL driver.

The "Skip Blank Pages" function is only for the PCL driver.

The positions of binding margins vary according to the "Binding Position" setting.

<table>
<thead>
<tr>
<th>Function Name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Image Shift</td>
<td>ON/OFF</td>
<td>Prints by shifting the entire print image. Click the [Image Shift Settings] button to specify the image shift values.</td>
</tr>
<tr>
<td>[Image Shift Settings]</td>
<td>Units</td>
<td>Selects the measurement unit that specifies the size.</td>
</tr>
<tr>
<td></td>
<td>Front Side/Back Side</td>
<td>Specifies the shift direction and values. For 2-sided printing, clearing the &quot;Same Value for Front and Back Sides&quot; check box allows you to set different values between the front and back sides.</td>
</tr>
</tbody>
</table>
4.2.3 Finish tab

![Image of Printing Preferences dialog box]

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Staple</td>
<td>ON/OFF</td>
<td>Specifies stapling. From the drop-down list, specify the number of staples and the stapling position.</td>
</tr>
<tr>
<td>Center Staple and Fold</td>
<td>ON/OFF</td>
<td>Specifies to saddle stitch a printed document.</td>
</tr>
<tr>
<td>Punch</td>

<td>Specifies hole punching. From the drop-down list, specify the number of punches and the position.</td>
</tr>
<tr>
<td>Fold</td>
<td>ON/OFF</td>
<td>Specifies folding.</td>
</tr>
<tr>
<td>Center Erase</td>
<td>ON/OFF</td>
<td>When Center Staple and Fold is specified, select this option not to print on the center fold line.</td>
</tr>
<tr>
<td>Output Tray</td>
<td>Default, Tray1-3, Bin 5-6</td>
<td>Specifies the tray where to output the printed pages. The selectable items differ depending on the options that are installed.</td>
</tr>
<tr>
<td>Paper Arrangement</td>
<td>Prioritize Arranging Papers, Prioritize Productivity</td>
<td>Specifies the method for adjusting the binding position for 2-sided print. The binding position is adjusted after receiving all data for finishing priority. The data is received and printed for productivity priority.</td>
</tr>
</tbody>
</table>

Note

"Staple" and "Center Staple and Fold" functions are available only if the optional finisher is installed.

The "Punch" function is available only when the punch kit is installed on the optional finisher.
The "Fold" function is available only when optional finisher FS-519 and saddle kit are installed.
The "Center Erase" function is available only when optional finisher FS-609 is installed and the "Center Staple and Fold" function is specified.
### 4.2.4 Cover Mode tab

<table>

</tr>
<tr>
<td>Interleave Tray</td>
<td>Tray1-4, LCT</td>
<td>Selects the paper tray for the transparency interleaves. The selectable items differ depending on the options that are installed.</td>
</tr>
</tbody>
</table>
### 4.2.5 Stamp/Composition tab

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Watermark</td>
<td>ON/OFF</td>
<td>Prints a watermark (text stamp) on the page being printed. [Edit] allows you to add, change and delete Watermarks.</td>
</tr>
<tr>
<td>Create Overlay File</td>
<td>ON/OFF</td>
<td>Create overlay data by checking this to print the original.</td>
</tr>
<tr>
<td>Print in Overlay</td>
<td>ON/OFF</td>
<td>Prints an original document on top of an overlay data that was created separately. [Edit] allows you to change the overlay printing method.</td>
</tr>
<tr>
<td>[Edit]</td>
<td>[Browse Files..]</td>
<td>Loads an overlay file.</td>
</tr>
<tr>
<td></td>
<td>[Delete]</td>
<td>Deletes the selected overlay.</td>
</tr>
<tr>
<td>Pages</td>
<td></td>
<td>Specifies the pages to be printed.</td>
</tr>
<tr>
<td>Pattern Overwrite</td>
<td></td>
<td>Specifies the sequence for printing the overlay on top of the original document.</td>
</tr>
<tr>
<td>Copy Protect</td>
<td>ON/OFF</td>
<td>Prints a special pattern to prevent copying. [Edit] allows you to specify items, positions and the composition to be printed.</td>
</tr>
<tr>
<td>[Edit]</td>
<td></td>
<td>For details, refer to &quot;Editing copy protect&quot; on page 4-14.</td>
</tr>
<tr>
<td>Date/Time</td>
<td>ON/OFF</td>
<td>You can print the date and time on a document. [Edit] allows you to specify items, pages and positions to be printed.</td>
</tr>
<tr>
<td>Page Number</td>

<td>ON/OFF</td>
<td>Prints using a gloss finish.</td>
</tr>
<tr>
<td>Toner Save</td>
<td>ON/OFF</td>
<td>Controls the print density and saves the toner consumption.</td>
</tr>
<tr>
<td>Edge Enhancement</td>
<td>ON/OFF</td>
<td>Highlights the edge of characters, graphics and images to make small characters more visible. You can specify it when &quot;Gray Scale&quot; is selected for the color.</td>
</tr>
<tr>
<td>Font Settings</td>
<td>—</td>
<td>Selects whether to use TrueType fonts or the printer fonts when printing. Selects whether the fonts are downloaded to the printer as bitmap or outline.</td>
</tr>
</tbody>
</table>
Note
"2 Color" option of the "Select Color" is only for the PCL driver. "2 Color" option allows you to specify a combination of two colors.

The "Pattern" and "Image Compression" functions are only for the PCL driver.

The PS driver allows you to manage the profile through "Quality Adjustment".

4.2.7 Other tab

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Excel Job Control</td>
<td>ON/OFF</td>
<td>When multiple Microsoft Excel sheets with different page settings are printed at one time, the sheets may be separated into single-sheet jobs depending on the data they contain. When this function is selected, job separation is minimized.</td>
</tr>
<tr>
<td>Remove White Background</td>
<td>ON/OFF</td>
<td>When an overlay file is printed on top of Microsoft PowerPoint data, white areas are removed so that the white background of the PowerPoint data does not hide the overlay file. When the check is cleared, the background is not removed and is printed as is in the original data.</td>
</tr>
<tr>
<td>Thin Line Support</td>
<td>ON/OFF</td>
<td>When printing with reduced size, thin lines may become blurred. When the check is selected, thin lines are prevented from becoming blurred.</td>
</tr>
<tr>
<td>Check Driver Version</td>
<td>—</td>
<td>Displays the printer driver version information.</td>
</tr>
</tbody>
</table>

Note
"Remove White Background" and "Thin Line Support" function is only for the PCL driver.

"Excel Job Control" and "Remove White Background" settings are not available for Windows XP Professional x64, Windows Vista x64 and Windows Server 2003 x64.

"Excel Job Control" can be changed only when the printer driver setting dialog is displayed in the "Printers" ("Printers and Faxes" for Windows XP/Server 2003) window.
4.3 Common settings (Mac OS X)

The following describes the common settings that are displayed by the specific operations (Output Method, Layout/Finish, Paper Tray/Output Tray, Cover Sheet/OHP Interleave, Per Page Setting, Stamp/Composition and Quality) for this machine specified in the Print dialog box.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Paper View</td>
<td>A preview of the page layout as specified in the current settings is displayed and a preview image of the print job can be checked.</td>
</tr>
<tr>
<td>Detailed Information</td>
<td>Shows the current settings with text.</td>
</tr>
<tr>
<td>Printer Information</td>
<td>Displays the status of the installed options.</td>
</tr>
<tr>
<td>Default</td>
<td>Click this button to return to the default setting.</td>
</tr>
<tr>
<td>? (Help)</td>
<td>Click this button to display the help for each item on the currently displayed dialog box.</td>
</tr>
<tr>
<td>Cancel</td>
<td>Click this button to cancel any settings that have been changed and close the dialog box.</td>
</tr>
<tr>
<td>Print</td>
<td>Click this button to enable the changed settings for printing.</td>
</tr>
</tbody>
</table>

**Detail**

*Click the [Acquire Device Information] button on the Printer Info dialog box to communicate with this machine and read the status of the settings specified on this machine. This function is not available unless the connection is enabled for communications with the machine.*
4.4 How to add a custom size (Mac OS X)

To print on paper sizes other than the standard sizes, register the custom paper size.

1. In the [File] menu, select "Page Setup" (or "Paper Setup").
2. For Mac OS 10.4, select "Manage Custom Sizes" from the "Paper Size" list.
   - For Mac OS 10.2/10.3, select "Custom Paper Sizes" from "Settings".
3. Click the [+] button (OS 10.4) or the [Add] button (OS 10.2/10.3).
4. Enter the paper size name.
5. Specify settings for the following:
   - Page size (paper size): Specifies the paper size.
   - Printer Margins: Specifies the paper margins.

6. For Mac OS 10.4, continue with step 7.
   - For Mac OS 10.2/10.3, click the [Save] button.
7. Click the [OK] button.

   This saves the custom paper size, which can be selected from the Paper Size drop-down list that is displayed when "Page Attributes" is selected.
4.5 Parameter details (Mac OS X)

The printer driver functions are specified in the following dialog boxes: In “Page Attributes” from the Page Setup dialog box; In “Output Method”, “Layout/Finish”, “Paper Tray/Output Tray”, “Cover Sheet/OHP Interleave”, “Per Page Setting”, “Stamp/Composition”, and “Quality” from the Print dialog box.

4.5.1 Page Attributes

In the [File] menu, select “Page Setup” (or “Paper Setup”).

![Page Attributes dialog box](image)

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Paper Size</td>
<td>Paper size registered as the standard paper size and custom paper size available on this machine.</td>
<td>Specifies the output paper size.</td>
</tr>
<tr>
<td>Orientation</td>
<td>Portrait, Landscape</td>
<td>Specifies the orientation of the original.</td>
</tr>
<tr>
<td>Scale</td>
<td>1 to 400%</td>
<td>Specifies the enlargement and reduction ratio.</td>
</tr>
</tbody>
</table>

Note

The paper size “12 × 18” is equivalent to 304.8 × 457.2 mm which is slightly larger than A3.

To print on paper sizes other than the standard sizes, be sure to set the custom paper sizes in “Custom Size Settings” first. For details on registering a non-standard paper size, refer to “How to add a custom size (Mac OS X)” on page 4-20.

To print data of the size as large as the standard size, by selecting “W” for each standard size paper for “Original Size”, the data can be centered and printed on papers larger than the original size. For example, if you want to center and print 8-1/2 × 11 size data on 11 × 17 size paper, create data in the size of “8-1/2 × 11W”, and then specify “8-1/2 × 11W” for “Original Size” and specify “Paper Tray” as the tray to be used with the printer driver.

On the machine side, load 11 × 17 size paper into the tray to be used, select the tray in [Basic screen (Paper)], select [Change Tray Setting] - [Wide Paper] on the control panel, specify “8-1/2 × 11W”, and then check that [Auto Detect] is selected in [Custom Size] and “11 × 17” is displayed. When 12-1/4 × 18 size papers have been loaded, [12-1/4 × 18] must be selected in [Custom Size].

To print on a custom size, use the bypass tray, select [Change Tray Settings] - [Wide Paper], select “8-1/2 × 11W”, and then select the paper size to use from [Change Size].
4.5.2 Copies & Pages

In the [File] menu, select "Print".

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Copies</td>
<td>1 to 999</td>
<td>Specifies the number of copies to be printed.</td>
</tr>
<tr>
<td>Collated</td>
<td>ON/OFF</td>
<td>Do not specify this function. Select &quot;Output Method&quot;, and then specify &quot;Collate&quot;.</td>
</tr>
<tr>
<td>Pages</td>
<td>—</td>
<td>Specifies the print range to print.</td>
</tr>
</tbody>
</table>
### 4.5.3 Output Method

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Collate</td>
<td>ON/OFF</td>
<td>Specifies whether to print multiple copies by collating them.</td>
</tr>
<tr>
<td>Offset</td>
<td>ON/OFF</td>
<td>When printing multiple copies, shifts the output position of each set.</td>
</tr>
<tr>
<td>Output Method</td>
<td>Print</td>
<td>Prints immediately.</td>
</tr>
<tr>
<td></td>
<td>Secure Print</td>
<td>Saves the document to be printed in &quot;Secure Print User Box&quot; of this machine. When printing, entering the ID and password is required in the control panel of this machine. Select this option when printing highly confidential documents.</td>
</tr>
<tr>
<td></td>
<td>Save in User Box</td>
<td>Saves the document to be printed in the user box on this machine.</td>
</tr>
<tr>
<td></td>
<td>Save in User Box and Print</td>
<td>Saves the document in a box and prints at the same time.</td>
</tr>
<tr>
<td></td>
<td>Proof Print</td>
<td>After one copy of the document has been printed, this machine stops printing temporarily. Select this option to avoid misprinting a large volume of print jobs.</td>
</tr>
<tr>
<td></td>
<td>ID &amp; Print</td>
<td>Saves the document to be printed in the ID &amp; Print User Box on this machine. When printing, user authentication must be performed via the control panel of this machine.</td>
</tr>
</tbody>
</table>

- **[User Authentication]** — If the "User Authentication" settings have been specified on this machine, you must specify a user name and password.
- **[Account Track]** — If the "Account Track" settings have been specified on this machine, you must specify a division name and password.
- **[Detail Settings]** — Displays the functions for which the setting details have been specified.
Checking the Output Method setting details

By clicking the [Detail Settings] button, the “Output Method” functions for which detail settings have been specified are shown.

The settings can be shown by clicking the [Expand All] button.

By selecting a function and clicking the [Settings] button, the dialog box for specifying the detailed settings for the selected function appears.

<table>
<thead>
<tr>
<th>Function name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Secure Print</td>
<td>This is the same dialog box that appears when you select &quot;Output Method&quot; and specify &quot;Secure Print&quot;.</td>
</tr>
<tr>
<td>Save in User Box</td>
<td>This is the same dialog box that appears when you select &quot;Output Method&quot; and specify &quot;Save in User Box&quot; or &quot;Save in User Box and Print&quot;.</td>
</tr>
<tr>
<td>User Authentication</td>
<td>This is the same dialog box that appears when you select &quot;Output Method&quot; and select &quot;User Authentication&quot; checkbox.</td>
</tr>
<tr>
<td>Account Track</td>
<td>This is the same dialog box that appears when you select &quot;Output Method&quot; and select &quot;Account Track&quot; checkbox.</td>
</tr>
<tr>
<td>Administrator Settings</td>
<td>Displays a dialog box to set an input dialog for authentication setting and change the encryption key.</td>
</tr>
</tbody>
</table>
### Function name | Description
---|---
Popup Authentication Dialog when printing | Displays the User Authentication and Account Track dialog box when a print job is specified and checks entry of a user name and a department name each time.
Encryption Passphrase | Specifies an encryption passphrase to use user-defined key to communicate with this machine. The encryption key for the entered characters is automatically created, which is to be used for communication with this machine.

**Note**

*Match the "Encryption Passphrase" to that specified by "Driver Password Encryption Setting" of this machine.*
### 4.5.4 Layout/Finish

You can switch between the Layout dialog box and the Finish dialog box.

**Note**

When printing a job that contains pages of different sizes and orientations with the "Poster Mode" setting specified, images may be missing or overlapping when the document is printed.
## Print Operations

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Print Type</td>
<td>1-Side, 2-Sided, Booklet</td>
<td>Specifies duplex printing and booklet printing.</td>
</tr>
<tr>

<td>Left stitch, right stitch, top stitch</td>
<td>Specifies the binding position.</td>
</tr>
<tr>
<td>Poster Mode</td>
<td>$2 \times 2, 3 \times 3, 4 \times 4$</td>
<td>Prints one sheet of an original divided on multiple pages. <em>Poster Mode Overlap</em> allows you to specify the presence of the border frame.</td>
</tr>
<tr>
<td>Overlap width line</td>
<td>ON/OFF</td>
<td>Specifies the presence of a poster mode overlap. This setting can be specified when the &quot;Poster Mode&quot; setting is other than &quot;OFF&quot;.</td>
</tr>
<tr>
<td>Rotate _180</td>
<td>ON/OFF</td>
<td>Rotates 180° to print.</td>
</tr>
<tr>
<td>Image Shift</td>
<td>ON/OFF</td>
<td>Prints by shifting the entire print image. The screen is displayed when the setting is enabled and allows you to set the detail of the shift length.</td>
</tr>
<tr>
<td>Poster Mode</td>
<td>2, 3, 4</td>
<td>Specifies the shift direction and values. For 2-sided printing, clearing the &quot;Same Value for Front and Back Sides&quot; check box allows you to set different values between the front and back sides.</td>
</tr>
<tr>
<td>Overlap width line</td>
<td>ON/OFF</td>
<td>Specifies the presence of a poster mode overlap. This setting can be specified when the &quot;Poster Mode&quot; setting is other than &quot;OFF&quot;.</td>
</tr>
<tr>
<td>Rotate _180</td>
<td>ON/OFF</td>
<td>Rotates 180° to print.</td>
</tr>
<tr>
<td>Image Shift</td>
<td>ON/OFF</td>
<td>Prints by shifting the entire print image. The screen is displayed when the setting is enabled and allows you to set the detail of the shift length.</td>
</tr>
<tr>
<td>Front Side/Back Side</td>
<td>ON/OFF</td>
<td>Specifies the shift direction and values. For 2-sided printing, clearing the &quot;Same Value for Front and Back Sides&quot; check box allows you to set different values between the front and back sides.</td>
</tr>
<tr>
<td>Chapters</td>
<td>ON/OFF</td>
<td>Specifies the page to be printed on the front side. The screen is displayed when the setting is enabled and allows you to set the page. You can specify it when the print type is &quot;2-sided&quot; or &quot;Booklet&quot;.</td>
</tr>
<tr>
<td>Page Number</td>
<td>Specified on the front side when &quot;Chapters&quot; is selected.</td>
<td>Specifies the page to be printed on the front side. The screen is displayed when the setting is enabled and allows you to set the page. You can specify it when the print type is &quot;2-sided&quot; or &quot;Booklet&quot;.</td>
</tr>
<tr>
<td>Staple</td>
<td>ON/OFF</td>
<td>Specifies stapling. From the drop-down list, specify the number of staples and the stapling position.</td>
</tr>
<tr>
<td>Punch</td>
<td>ON/OFF</td>
<td>Specifies hole punching. From the drop-down list, specify the number of punches and the position.</td>
</tr>
<tr>
<td>Fold &amp; Staple</td>
<td>Off, Center Staple &amp; Fold, Half-Fold</td>
<td>Specifies to half fold and center staple.</td>
</tr>
<tr>
<td>Center Erase</td>
<td>ON/OFF</td>
<td>When Center Staple &amp; Fold is specified, select this option not to print on the center fold line.</td>
</tr>
<tr>
<td>Paper Arrangement</td>
<td>Finishing Priority, productivity priority</td>
<td>Specifies the method for adjusting the binding position for 2-sided print. The binding position is adjusted after receiving all data for finishing priority. When Productivity Priority is specified, the machine processes data reception and printing concurrently.</td>
</tr>
</tbody>
</table>

**Note**

*Staple* and *Saddle Stitch/Fold* functions are available only if the optional finisher is installed.

The *Punch* function is available only if the punch kit is installed on the optional finisher.

The *Center Erase* function is available only when optional finisher FS-609 is installed and the *Center Staple & Fold* function is specified.
### 4.5.5 Paper Tray/Output Tray

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Paper Tray</td>
<td>Auto, Tray1-4, LCT, Bypass Tray</td>
<td>Selects the paper tray to be used. The selectable items differ depending on the options that are installed.</td>
</tr>
<tr>
<td>Paper Type</td>
<td>Paper type available on this machine.</td>
<td>Selects the paper type for printing. Can be changed only when the paper tray is set to &quot;Auto&quot;. When the paper tray is not set to &quot;Auto&quot;, the paper type registered by &quot;Paper Settings for Each Tray&quot; is effective.</td>
</tr>
<tr>
<td>[Paper Settings for Each Tray]</td>
<td>Paper Tray</td>
<td>Selects the paper tray to be specified. The selectable items differ depending on the installed options.</td>
</tr>
<tr>
<td></td>
<td>Paper Type</td>
<td>Selects the type of paper to be loaded onto the paper tray.</td>
</tr>
<tr>
<td>Output Tray</td>
<td>Default, tray 1-3, bin 1-6</td>
<td>Specifies the tray where to output the printed pages. The selectable items differ depending on the options that are installed.</td>
</tr>
</tbody>
</table>

**Note**

Specify "Duplex Side 2" to print on the back side of a page.
4.5.6 **Cover Mode/Transparency Interleave**

You can switch between the Cover Mode dialog box and the Transparency Interleave dialog box.
### 4.5.7 Per Page Setting

The print type and paper tray can be specified for each page. This function is convenient when changing the paper tray during a print job to print multiple pages. The settings are added to the Per Page Setting list and can be used as necessary.

<table>
<thead>
<tr>
<th>Function name</th>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Front Cover</td>
<td>Off, Print, Blank</td>
<td>Attaches a front cover page. You can specify it when &quot;Auto&quot; is not selected for the paper tray.</td>
</tr>
<tr>
<td></td>
<td>Tray 1-4, LCT, manual paper feed</td>
<td>Selects the paper tray for the cover page. The selectable items differ depending on the options that are installed.</td>
</tr>
<tr>
<td>Back Cover</td>
<td>Off, Print, Blank</td>
<td>Attaches a back cover page. You can specify it when &quot;Auto&quot; is not selected for the paper tray.</td>

</tbody>
</table>
4.6 Parameter details (Mac OS 9.2)

The printer driver functions are specified in the Page Attributes dialog box called from the Page Setup dialog box or the Layout/Finish dialog boxes called from the Print dialog box.

4.6.1 Page Attributes

In the [File] menu, select “Page Setup” (or “Paper Setup”).

<table>
<thead>
<tr>
<th>Function name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Paper</td>
<td>Specifies the output paper size.</td>
</tr>
<tr>
<td>Orientation</td>
<td>Specifies the orientation of the original.</td>
</tr>
<tr>
<td>Scale</td>
<td>Specifies the enlargement and reduction ratio.</td>
</tr>
</tbody>
</table>

Note

To print on paper sizes other than the standard sizes, be sure to set the custom paper sizes in “Custom Size Settings” first. For details on registering a non-standard paper size, refer to “Setting Custom Page Size” on page 4-38.
4.6.2 Setting Custom Page Size

Select "Custom Paper Size" on the Page Setting dialog box.

1. In the [File] menu, select "Paper Setup" (or "Page Setup").
2. Select "Custom Page Sizes".
3. Click the [Add] button.
4. Specify settings for the following:
   - Paper size: Specifies the intended paper size.
   - Printer Margins: Specifies the paper margins.
   - Custom Page Size Name: Enter the registered name for the specified paper size and margins, and then click the [OK] button.
   - Unit: Selects the specified unit.

5. Click the [OK] button.

This saves the custom page size, which can be selected from the "Paper" drop-down list in the Page Attributes dialog box.
4.6.3 General

→ In the [File] menu, select “Print”.

<table>
<thead>

4.7 Sending a fax

Fax operations

Reminder
To use the fax function, you must install the optional fax kit onto this machine. In addition, you must enable the fax kit on the Configure tab after installation.

1. Create the data you want to send using any application.
2. From the [File] menu, select “Print”.
3. From “Printer Name”, select “xxxxxxx FAX”.
4. Click the [Preferences] button or the [Properties] button to change the fax driver settings as necessary.
   - By clicking the [Preferences] button or the [Properties] button in the Print dialog box, you can specify the settings of each model in the FAX Printing Preferences dialog box that appears. For details, refer to “Setting up the fax driver for Windows” on page 4-50.
5. Click the [Print] button.
   The FAX Transmission Popup dialog box appears.
6. Enter the recipient’s name and fax number in the “Name” and “FAX Number” text boxes.

   - Up to 80 characters can be entered in the “Name” text box.
   - Up to 38 characters (numbers 0 through 9, hyphens (-), #, *, P, and T) can be entered in the “FAX Number” text box. To send a fax overseas, be sure to enter the country code first.
   - Change the transmission mode as necessary.
     ECM: Specifies the ECM (Error Correction Mode). If the “V.34 Mode” check box is selected, the “ECM” check box cannot be cleared.
     International Transmission Mode: Slows the speed when sending faxes overseas. Select this check box if errors occur when sending faxes overseas.
     V.34 Mode: Specifies the Super G3 fax mode. For normal fax operations, leave this check box selected. Clear it only if it is not possible to transmit in the recipient’s mode.
   - The fax numbers that are registered in the phone book can be specified by clicking the [Add From Phone Book] button. For details, refer to “Selecting a recipient from the phone book” on page 4-44.
   - The names and fax numbers that were entered can be added to the phone book’s “Simple Entry” folder by clicking the [Register To Phone Book] button.
7 Click the [Add Recipients] button.
   - To add multiple recipients, repeat steps 6 and 7. Up to 100 recipients can be added.
   - To delete a recipient from the list, click the [Delete From List] button.

8 If necessary, click the [Fax Mode Setting Details] button to specify the fax mode setting details, or select the "FAX Cover Sheet" check box to create a fax cover sheet.
   - For details, refer to “Specifying the transmission settings” on page 4-46, or “Creating a fax cover sheet” on page 4-47.

9 Click the [OK] button.
The fax data is sent via this machine.
Selecting a recipient from the phone book

**Detail**
To use the phone book, the names and fax numbers of the recipients must be added to the phone book first. For details, refer to "Adding a recipient to the phone book" on page 4-53.

1. When sending a fax, click the [Add From Phone Book] button in the FAX Transmission Popup dialog box.
   - To open the FAX Transmission Popup dialog box, follow steps 1 to 5 under "Fax operations". For details, refer to "Fax operations" on page 4-42.

2. Select "Personal List" or "Group" from the list on the left side of the dialog box to display the desired recipient in "Personal Information".
   - Click the [Find] button to specify the conditions to search for a recipient.
3 Select the name of the recipient you want to send a fax to, and then click the [Add Recipients] button.
   - Multiple recipients can be added in the same way. Up to 100 recipients can be added.
   - To delete a recipient, click the [Delete] button.

4 Click the [OK] button.

The names that were specified are added to “Recipient List” and the FAX Transmission Popup dialog box appears again.
Specifying the transmission settings

When sending a fax, you can specify the transmission settings in the Fax Mode Details dialog box that appears when the [Fax Mode Setting Details] button is clicked in the FAX Transmission Popup dialog box.

### Note

When using Timer Send, check that the time set on the computer is synchronized with the time on this machine. If the transmission time is earlier than the current time of this machine, the fax is sent the next day.

If sending confidential faxes using F-codes to another fax model, enter the sub address and sender ID in the "SUB Address" and the "Sender ID" text boxes. Up to 20 characters (numbers 0 through 9) can be entered in the "SUB Address" text box. Up to 20 characters (numbers 0 through 9, #, and *) can be entered in the "Sender ID" text box. For the details on the sub address and the sender ID, refer to "F-Code TX" on page 6-100.

<table>
<thead>

<td>Specifies the sub address for sending confidential faxes using F-codes.</td>
</tr>
<tr>
<td>Sender ID</td>
<td>Specifies the sender ID for sending confidential faxes using F-codes.</td>
</tr>
</tbody>
</table>
Creating a fax cover sheet

When sending a fax, you can attach a cover sheet to the fax message by selecting the "FAX Cover Sheet" check box in the FAX Transmission Popup dialog box. You can edit the cover sheets from the FAX Cover Sheet Settings dialog box that appears by clicking the [Settings] button in the Fax Transmission Popup dialog box.

In the FAX Cover Sheet Settings dialog box, you can change the settings on the Basic, Recipient, Sender, or Image tab by switching between each screen.

Note
For Windows Vista x64, the "FAX Cover Sheet" check box cannot be selected from the FAX Transmission Popup dialog box. It must be specified in the Print settings for the fax driver in advance. In addition, "FAX Cover Sheet" cannot be selected with any of the following functions at the same time.
- User Authentication
- Account Track
- Verify Authentication settings before printing
- Popup Authentication Dialog when printing

1. Select the "FAX Cover Sheet" check box in the FAX Transmission Popup dialog box.

2. Click the [Settings] button.

   The FAX Cover Sheet Settings dialog box appears.

3. Select the size of the cover sheet from the "Cover Size" drop-down list.

4. On the Basic tab, specify the format of the cover sheet and subject of the fax.
   - Style:
     Select the format design of the cover sheet.
   - Subject:
     Enter the subject of the fax to be sent. Up to 64 characters can be entered in the "Subject" text box.
   - Date:
     Specify the date. Select a format or enter any format. If entering a format, up to 20 characters can be entered in the "Input Arbitrarily" text box.
   - Pages:
     Specify the number of pages to be sent.
   - Comment:
     Enter the text to be displayed in the comment box. Up to 640 characters can be entered in the "Comment" text box, and returns are converted into two characters.
Specify the recipient information on the Recipient tab.

- Standard:
  Specifies standard text.
- Details:
  Specifies the details described under “Recipient Setting Details”.
- Load with Joint Name:
  Lists the recipient with joint names. The items listed are the items shown under “Recipient List” on the FAX Transmission Popup dialog box.
- Change Each Recipient:
  Changes the description for each recipient. The items listed are the items shown under “Recipient List” on the FAX Transmission Popup dialog box.
- Load Set Information:
  Lists the information that was entered in the “Company”, “Department”, “Name”, and “FAX Number” text boxes.
- Read:
  Reads the information of the first recipient to the information box.

- Up to 40 separate cover sheets can be created if "Change Each Recipient" is selected.
- Even if "Change Each Recipient" is selected, the first recipient is displayed as a sample in "Preview".
- If "Load with Joint Name" and "Change Each Recipient" are selected, the names that were added are entered, but titles cannot be added.
- If a recipient is not specified on the FAX Transmission Popup dialog box, "Load Set Information" cannot be selected. In addition, it cannot be selected on the FAX tab in the FAX Printing Preferences dialog box as well.
6 Specify the sender information on the Sender tab by selecting the check box of the information to be listed, and then enter the information.

![Image of FAX Cover Sheet Settings dialog box]

7 To place graphics such as a company logo or map on a cover sheet, specify the image file on the Image tab.
   - Select the "Zoom" check box to specify the size, and set the position with the values in the "X" and "Y" boxes.

![Image of FAX Cover Sheet Settings dialog box showing image settings]

8 Check the specified settings. Click the [Check] button to check an enlarged preview image.
   - Click the [Add] button to save the cover sheet settings. The settings can then be recalled from the "Cover Sheet Settings" drop-down list the next time a cover sheet is used.

9 Click the [OK] button.
4.8 Setting up the fax driver for Windows

Common settings

<td>Store Custom Size</td>
<td>Store the custom paper sizes.</td>
</tr>
</tbody>
</table>

Note

To display the Settings tab, right-click the "xxxxxxx FAX" icon, and then click "Properties".
4.9 Using a phone book

Adding a recipient to the phone book

When sending a fax, you can recall the fax numbers that are used frequently by adding them to a phone book. A phone book can be added from the FAX tab in the FAX Printing Preferences dialog box.

1. From the FAX tab in the FAX Printing Preferences dialog box, click the [Phone Book Entry] button. The Phone Book Entry dialog box appears.

2. From the left side of the dialog box, select “Personal List”, and then click the [Add New] button. The Personal Information\Personal List dialog box appears.

3. Enter the appropriate information in the “Name”, “Fax Number”, “Company”, and “Department” text boxes.

- If entering a name for a fax cover sheet, titles cannot be added. To add a title to a fax cover sheet, add the title in the "Name" text box.
- Up to 80 characters can be entered in the “Name”, “Company”, and “Department” text boxes.
- Up to 38 characters (numbers 0 through 9, hyphens (-), spaces, #, *, E, P, and T) can be entered in the “Fax Number” text box. To send a fax overseas, be sure to enter the country code first.
- Change the transmission mode as necessary.
  ECM:
  Specifies the ECM (Error Correction Mode). If the “V.34 Mode” check box is selected, the “ECM” check box cannot be cleared.
  International Transmission Mode:
  Slows the speed when sending faxes overseas. Select this check box if errors occur when sending faxes overseas.
  V.34 Mode:
  Specifies the Super G3 fax mode. For normal fax operations, leave this check box selected. Clear it only if it is not possible to transmit in the recipient’s mode.

4 To add a recipient to a group, select the check box of the group to be added.
- If adding a recipient to a group, you can specify the recipient in a group (group transmission). To send faxes to specific members, it comes in handy to add them to a group.
- Multiple groups can be selected and added.
- The group name can be changed.

5 Click the [OK] button.
   The information of the recipient is registered and it is added to "Personal Information". If a group was specified, the group that was added also appears in "Group".

6 Click the [OK] button.
   If a name was added, the editing of the phone book is complete.
   The first time you register a phone book, a dialog box to confirm whether you want to save the phone book appears.

7 Click the [Yes] button.
   The Save As dialog box appears.

8 Specify the storage location, enter the file name, and then click the [Save] button.
   The phone book is saved as a file.
The Save As dialog box appears when a phone book is registered for the first time. The Save As dialog box does not appear from the second time the phone book is changed and thereafter since the phone book file is automatically overwritten.

The saved phone book file automatically appears the next time you open the phone book. To open a different phone book, select “Open” from the “File” menu in the Phone Book Entry dialog box. If multiple phone books have been saved, you can use the phone books by switching between them.

A new phone book can be created by clicking “New” from the “File” menu in the Phone Book Entry dialog box. You can save a file under a different name by clicking “Save As” from the “File” menu.

The file extension for the phone book files is “.csv”.

Editing a phone book

You can easily change the personal information that was registered, change the group names, edit, or organize the phone books.

To change the personal information, select the name you want to change from “Personal List” on the left side of the dialog box, and then click the [Edit] button on the right.

The same Personal Information/Personal List dialog box that appeared when you registered the phone book appears, allowing you to change the information.

You can select the name that you want to change from “Personal List” on the left side of the dialog box, and you can delete a recipient by clicking the [Delete] button on the right. If a recipient is deleted, it is also deleted from the registered group.

Note

When sending a fax, the names and fax numbers that were entered manually and registered by clicking the [Register To Phone Book] button, appear in the “Simple Entry” folder of the phone book.
To change a registered recipient to a group:

- From “Personal List” on the left side of the dialog box, select the name you want to change, and then select or clear the check box of the group under the “Select Group” drop-down list.

Note
A recipient can even be added to a group by dragging the recipient’s name from “Personal List” on the left side of the dialog box to the desired group. However, the name cannot be dragged out of the group.

Up to 100 recipients can be added to a group.

To change a group name:

- Select the group that you want to change from “Group” on the left side of the dialog box, and then specify “Change Group Name” from the “Edit” menu.

To create a folder:

1. Select “Personal List” on the left side of the dialog box.
2. Specify “Add Folder” from the “Edit” menu.
   - You can move names from “Personal List” by dragging them to a folder.

Note
Names can also be moved to the desired folder by right-clicking a name and selecting “Copy” or “Cut”, then selecting “Paste” on the target folder.

Up to 40 characters can be entered for the folder name.

A folder can be up to three layers deep.

To edit a folder:

- Select the desired folder, and then click the [Edit] button.

To delete a folder:

- Select the desired folder, and then click the [Delete] button.

To search the personal information:

- Click the [Find] button on the right side of the dialog box to display the Find dialog box where the search conditions can be specified.
5 Box Operations
5  Box Operations

5.1  User Box functions

The User Box functions allow document data to be saved on the internal hard disk of the machine and later printed. Documents that can be saved are data scanned for copying and saved scan data. To save data to a box, create the box, and then save the data to the specified box.

The saved data can be printed, sent by e-mail, forwarded to an FTP site, or sent to a computer. By using the User Box functions, documents can easily be scanned repeatedly and the separate data can be saved on a computer.

5.1.1  Available User Box functions

Saving documents

Data can be saved to the following box:

<table>
<thead>
<tr>
<th>User box</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Public/personal/group user boxes</td>
<td>Document data that has been copied or scanned on this machine can be saved in the user boxes. Document data, which is printed from a computer on the network, can be saved. Based on user authentication or account track settings, access to some boxes, such as personal and group user boxes, can be limited to particular users.</td>
</tr>
<tr>
<td>Annotation user box</td>
<td>Document data saved in Scan mode and to be printed or transmitted with an image of the date/time or an annotation number can be saved.</td>
</tr>
<tr>
<td>External memory *1</td>
<td>Appears if an external memory is installed. Scanned data can be directly saved in the external memory connected to the machine.</td>
</tr>
</tbody>
</table>

*1 To connect an external memory, an optional local interface kit is required.
# Using document data

The document saved in boxes can be used as follows:

<table>
<thead>
<tr>
<th>User box</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Public/personal/group user boxes</td>
<td>Saved documents can be printed or sent. Multiple documents can be selected for printing/transmission. Depending on user authentication and account track settings, use of some boxes, such as personal and group user boxes, can be limited to a particular user.</td>

5.1.2 Set-up for User Box functions

Before using the User Box functions, the following settings should be specified.

User box registration

Create and save the user boxes where documents will be saved. Boxes can be registered by using the machine's touch panel or by using PageScope Web Connection from a computer on the network. The following boxes can be created:
- Public/personal/group user boxes (p. 5-7)
- Bulletin board user box (if needed) (p. 5-10)
- Annotation user box

To use the machine for relay device

If the optional fax kit is installed, and you want to use this machine for relaying fax transmission, create a relay user box for saving documents temporarily. (p. 5-11)

Detail
To create a relay user box, specify the group which contains fax number to be forwarded in advance.

To use Memory RX user box

If the optional fax kit is installed, and you do not want the documents printed upon reception, use the Memory RX setting.
### 5.2 User box registration

#### 5.2.1 User box registration

New user boxes can be registered. Available user box types are as follows:

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Public user box</td>
<td>Shared box that any user can access.</td>
</tr>
<tr>
<td>Personal user box</td>
<td>Personal-use user box that only the user who is logged on can access.</td>
</tr>
<tr>
<td>Group user box</td>
<td>User box that can only be accessed by users who belong to the account that</td>
</tr>
<tr>
<td></td>
<td>is logged on when the Account Track function is operating on the machine.</td>
</tr>
<tr>
<td>Bulletin board user</td>
<td>Used for F-coded polling transmission/reception via a bulletin board.</td>
</tr>
<tr>
<td></td>
<td>This type can be specified if the optional fax kit is installed.</td>
</tr>
<tr>
<td>Relay user box</td>
<td>Used for storing relay data when this machine operates as the relay</td>
</tr>
<tr>
<td></td>
<td>distribution station for F-coded relay distribution.</td>
</tr>
<tr>
<td></td>
<td>This type can be specified if the optional fax kit is installed.</td>
</tr>
<tr>
<td>Annotation user box</td>
<td>Used for adding an image of the date/time or an annotation number to a</td>
</tr>
<tr>
<td></td>
<td>document when printing or transmitting it. The type of text added can be</td>
</tr>
<tr>
<td></td>
<td>specified when the document is used. Annotation user boxes are registered in</td>
</tr>
<tr>
<td></td>
<td>Administrator mode.</td>
</tr>
</tbody>
</table>

**Detail**

If user authentication is canceled, personal and group user boxes become public user boxes.

If user authentication or account tracking is in place, be sure to complete authentication by touching [Login] or press the [ID] key after entering the ID and password. If user authentication has failed, personal or group user boxes cannot be created.

If the optional fax kit is installed, confidential reception (F-code transmission) is available as a functional expansion for public/personal/group user boxes.

If “Password Rules” is enabled, no password containing less than eight characters can be registered.

If you have already registered a password containing less than eight characters, change it to one using eight characters before enabling “Password Rules.”
Public/Personal/Group user boxes

When registering or editing, specify the following items.

**Detail**
*To change settings for a registered user box, select the user box and touch [Edit].*

*After touching [Edit], the user box number cannot be changed.*

*To delete a registered user box, select the user box and touch [Delete].*

**Screen (1/2)**

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>

</tr>
</thead>
<tbody>
<tr>
<td>User Box No.</td>
<td>The next available user box number appears automatically. To specify a user box number, touch [User Box No.], and then use the keypad to type in the user box number (between 1 and 999999999).</td>
</tr>
<tr>
<td>User Box Name</td>
<td>Touch [User Box Name], and then enter the user box name from the touch panel (20 characters or less). Multiple user boxes can be registered under the same user box name if different user box numbers are specified respectively.</td>
</tr>
<tr>
<td>Relay Destination</td>
<td>Select a relay destination of transmission from a relay user box. Relay destinations are preregistered as group destinations.</td>
</tr>
<tr>
<td>Relay TX Password</td>
<td>Specify a password to limit access to the user box. Touch [Relay TX Password], and then enter the password from the touch panel (8 characters or less).</td>
</tr>
</tbody>
</table>
5.3 Saving documents in user boxes

1. Press the [User Box] key.

2. Touch [Save Document].

3. Select the user box where the documents are to be saved, and then touch [OK].
The following screen appears.

4 Specify the document name, scan settings, and original settings.
   – Touch [Document Name] to change the name of the document.
   – Touch [Scan Settings] to specify the scan settings.
   – Touch [Original Settings] to specify the original settings.
5. Position the original.

6. Press the [Start] key or touch [Start].
5.3.1 Available operations in the Save Document screen

To save documents in User Box mode, directly specify the user box where the document is to be saved.

- Documents to be saved can be used in the same way as saved scan data.

Public/personal/group user boxes

Document data (copies and scans) created using this machine can all be saved in boxes.
Document data sent for print jobs from a computer over the network can be saved.
Depending on user authentication and account track settings, access to some boxes, such as personal and group user boxes, can be limited to a particular user.

Annotation User Box

To print or send document data saved with an image of the date/time or an annotation number, save the document data in this Annotation User Box.

- Touch the System User Box tab, and then touch [Annotation Number] to select your desired box.

External Memory

Scanned data can be directly saved in the external memory connected to the machine.

- Check that an external memory is plugged into the USB slot, and then touch [External Memory] on System User Box tab.

Detail

*Saving document to an external memory is disabled (cannot be saved) at factory default. It is also disabled (cannot be saved) in the user function setting when the user authentication is specified. To save a document to an external memory, change the Administrator Settings to allow documents to be saved in an external memory.*
5.3.2 Initial screen of Save Document

Public/Personal/Group user box

Selecting the Public/Personal/Group User Box tab lists the boxes where documents can be saved.

→ Select a box you want to save documents in.

System User Box

Selecting the System User Box tab lists the boxes where documents can be saved.

→ Select a box you want to save documents in.
5.3.3 Description of the Save Document screen

On the Save Document screen, settings can be specified for the following.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>[User Box]</td>
<td>For Public, Personal, Group, and Annotation User Boxes, you can change the user box where documents are saved. To change it, touch [User Box] to select the desired user box. It is not possible to select a user box to save documents contained in an external memory.</td>
</tr>
<tr>
<td>[Document Name]</td>
<td>The on-screen keyboard appears in the touch panel. Enter a document name from the touch panel.</td>
</tr>
<tr>
<td>[Scan Settings]</td>
<td>Specify details for scanning documents.</td>
</tr>
<tr>
<td>[Original Settings]</td>
<td>Specify a type of original and orientation of loaded original.</td>
</tr>
</tbody>
</table>
5.4 Printing documents in user boxes

1. Press the [User Box] key.

2. Touch [Use Document].

3. Select the desired user box, and then touch [OK].
Select one or multiple documents.

- If one document is selected, touch [Print].
- If multiple documents are selected, touch [Combine].
Specify an order for printing (combination order).
5. Specify basic and application settings.

6. Check the result in preview images.

7. Press the [Start] key or touch [Start].

5.4.1 Available operations in the Use Document screen

Printing
Documents saved in user boxes by Copy, Fax/Scan, Print mode or Fax RX can be printed. Finishing settings, such as the number of copies and double-sided printing, can be added when the document is printed. "Bind" can also be specified to select and print multiple documents at the same time.

Transmitting
Documents saved in user boxes in Fax/Scan mode, or Print mode can be sent by E-Mail and Fax. Settings related to finishing and sending can be added when the document is transmitted. "Bind TX" can also be specified to select and print multiple documents at the same time.

Document Details
Enables checking of the saving date and time and a preview image of a document.
5.4.2 Initial screen of Use Document

Public/Personal/Group user box

1. Select the Public/Personal/Group tab lists to display available boxes.
2. Select a box you want to use.

System User Box

1. Select the System User Box tab lists to display available system boxes.
2. Select a box you want to use.
   - When you select [Bulletin Board User Box], select another box to use.
   - When you select [Secure Print User Box], enter the ID and password for a secure print document.
   - When you select [Annotation User Box], select another box to use.
5.4.3 Description of Use Document screen

Selecting a box you want to print and transmit displays the following screen. As an example, the following procedure describes the public user box.

<table>
<thead>
<tr>
<th>No.</th>
<th>Part Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>-</td>
<td>Displays the user box number and name.</td>
</tr>
<tr>
<td>2</td>
<td></td>
<td>When seven or more documents are saved, use the and keys to switch the displayed lists.</td>
</tr>
<tr>
<td>3</td>
<td>[Print]</td>
<td>Specifies the print information of the selected document. (p. 5-24)</td>
</tr>
<tr>
<td>4</td>
<td>[Send]</td>
<td>Specifies the recipient and sending information of the selected document. (p. 5-36)</td>
</tr>
<tr>
<td>5</td>
<td>[Combine]</td>
<td>Specifies the binding order and print information of the selected document. (p. 5-29)</td>
</tr>
<tr>
<td>6</td>
<td>[Bind TX]</td>
<td>Specifies the binding order and sending information of the selected document.</td>
</tr>
<tr>
<td>7</td>
<td>[Document Details]</td>
<td>Enables checking of detailed information and a preview image of a document.</td>
</tr>
<tr>
<td>8</td>
<td>[Select All]</td>
<td>Selects all documents in the user box.</td>
</tr>
<tr>
<td>9</td>
<td>[Reset]</td>
<td>Resets all documents in the user box.</td>
</tr>
<tr>
<td>10</td>
<td>[Detail View]/[Thumbnail View]</td>
<td>Switches the display format of the saved document. [Thumbnail View]: Displays a thumbnail of the first page, page number and the document name. [Detail View]: Displays the time stored, user name, and document name. Pressing the title of the [Time Stored] sorts the list in ascending/descending order of the time stored.</td>
</tr>
<tr>
<td>11</td>
<td>-</td>
<td>Displays the list of documents saved in the user box.</td>
</tr>
</tbody>
</table>
5.4.4 When a password is specified for the user box

When a password is specified in the user box, a screen to enter a password appears.

1. Enter the password.
2. Press the [OK] button.

5.4.5 Overview of Print

The following functions can be added in Print.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Copies</td>
<td>Specifies the number of copies to be printed.</td>
</tr>
<tr>
<td>Print</td>
<td>Specifies whether 1-sided or 2-sided copies are to be printed.</td>
</tr>
<tr>
<td>Finishing</td>
<td>Specifies sort/group, stapling and hole punching.</td>
</tr>
<tr>
<td>Page Margin</td>
<td>Adds a binding margin to the left or right side or to the top of the printed pages.</td>
</tr>
<tr>
<td>Sheet/Cover/Chapter Insert</td>
<td>Specifies cover mode, insert sheet and chapters to insert covers and papers.</td>
</tr>
<tr>
<td>Stamp/Composition</td>
<td>Prints the specified information including the date/time and the stamp.</td>
</tr>
</tbody>
</table>

Detail

The Center Staple/Fold settings are available only if optional Finisher FS-519 is installed.

The Center Staple & Fold setting is available only if the optional Finisher FS-609 is installed.

The Punch setting is available only if the punch kit is installed on the optional finisher.
5.4.6 Description of the Print screen

Touch [Print] to display the following screen.

![Print screen](image)

<table>
<thead>
<tr>
<th>No.</th>
<th>Part Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>[Basic]</td>
<td>Specifies the basic settings such as number of copies and 1-sided/2-sided.</td>
</tr>
<tr>
<td>2</td>
<td>[Application]</td>
<td>Specifies more difficult settings such as page margin, sheet insertion and stamp.</td>
</tr>
</tbody>
</table>

5.4.7 Copies

Using the keypad, type in the desired number of copies.

- The number of copies can be specified between 1 and 999.

![Copies screen](image)

**Detail**

To reset the number of copies to "1", press the [C] button.
5.4.8 1-Sided/2-Sided

Select whether 1-sided or 2-sided copies of the document are to be printed.

5.4.9 Finishing

Detail
The feeding method when a finisher is installed can be changed from Administrator Setting.

Sort/Group
Select "Sort" to feed out the document by copies.
- Select "Group" to feed out the document by pages.

Offset
Specifies offset to separate the copies or pages of the document.
- If a finisher is installed, the printed pages are fed out with each copy shifted to separate it.
- If no finisher is installed, the printed pages are fed out sorted in an alternating crisscross pattern.

Staple
Select one of these settings to bind copies with a staple in the corner or with two staples.
Staple - Position Setting

When you select a staple type, you can specify the position.

Punch

→ Select the setting to punch holes for filing.

Punch - Position Setting

→ Specify the punch position.
Center Staple/Fold

When [Center Staple/Fold] is displayed by the installed finisher, the following items can be specified.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Center Staple</td>
<td>Select this option to staple copies at two places along the center, then fold the copies in half before feeding them out.</td>
</tr>
<tr>
<td>Half-Fold</td>
<td>Select this option to fold copies in half before feeding them out.</td>
</tr>
</tbody>
</table>

You can adjust the center staple and half-fold position by pressing [Position Adjustment].

Press [-] and [+] to adjust the position.
Center Staple & Fold

When [Center Staple & Fold] is displayed by the installed finisher, copies are bound with staples at two places along the center and folded in half before feeding out.

The following can be specified.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Center Erase</td>
<td>Image on the center fold line with Center Staple &amp; Fold can be automatically erased.</td>
</tr>
<tr>
<td></td>
<td>Erase: Erases the image in the 10mm-wide area, with the fold line as the center.</td>
</tr>
<tr>
<td></td>
<td>None: Does not erase the image on the center fold line.</td>
</tr>
</tbody>
</table>
5.4.10 **Combining Order**

Multiple documents can be selected and printed together. Up to 10 documents can be selected to print together. Additional settings can be made on finishing such as the number of copies for the selected document. Settings can be specified for the following.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Copies</td>
<td>Specifies the number of copies to be printed.</td>
</tr>
<tr>
<td>1-Sided/2-Sided</td>
<td>Specifies whether 1-sided or 2-sided copies are to be printed.</td>
</tr>
<tr>
<td>Finishing</td>
<td>Specifies offset, stapling and hole punching.</td>
</tr>
<tr>
<td>Page Margin</td>
<td>Prints the document with a binding margin.</td>
</tr>
<tr>
<td>Stamp/Composition</td>
<td>Prints the document with the date/time, page number or a stamp.</td>
</tr>
</tbody>
</table>

Selecting multiple documents and touching [Combine] displays a screen to specify the combining order. The document is printed in the displayed order here.

Selecting two documents switches their order.

![Combining Order Screen](image)
5.5 Sending documents in user boxes

The following outlines are the steps for sending documents saved in public user boxes.

1. Press the [User Box] key.

2. Touch [Use Document].

3. Select the desired user box, and then touch [OK].
4 Select one or multiple documents.

**One document selected**

If one document is selected, touch [Send].

**Multiple documents selected**

If multiple documents are selected, touch [Bind TX]. Specify an order for sending (combination order).
Specify a recipient.

- Selecting from Address Book

- Selecting from Direct Input

- Selecting from Job History

- Selecting via Address Search
Specify file types, communication settings, and application settings.
- From Address Book or Direct Input
- From Job History and Address Search

7 Check the result in preview images.
8 Press the [Start] key or touch [Start].
5.5.1 Overview of Send

Document data saved in user boxes can be sent using the following methods. The data can easily be routed simply by registering a destination with this machine instead of sending the data through different computers.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fax</td>
<td>Sends data in the document as Fax.</td>
</tr>
<tr>
<td>E-Mail Addr.</td>
<td>Document data can be sent as an E-Mail attachment.</td>
</tr>
<tr>
<td>Internet Fax</td>
<td>Document data can be sent as an E-Mail attachment via the Intranet and Internet.</td>
</tr>
<tr>
<td>IP Address</td>
<td>Specifies the host name or IP address for the destination to send a Fax.</td>
</tr>
<tr>
<td>Scan to SMB</td>
<td>Document data is sent to a shared folder on the specified computer.</td>
</tr>
<tr>
<td>Scan to FTP</td>
<td>Document data is sent to the specified FTP server.</td>
</tr>
<tr>
<td>Scan to Web-DAV</td>
<td>Document data is sent to the specified server on the network.</td>
</tr>
</tbody>
</table>

5.5.2 Description of the Send screen

→ Touch [Send] to display the following screen.

![Send screen diagram]

<table>
<thead>
<tr>
<th>No.</th>
<th>Part Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>[Address Book]</td>
<td>Select a recipient from the registered destinations.</td>
</tr>
<tr>
<td>2</td>
<td>[Direct Input]</td>
<td>Enter and specify an unregistered destination directly.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>If manual destination input is restricted by &quot;Security Settings&quot; in the Administrator mode, [Direct Input] and [Address search] does not appear.</td>
</tr>
<tr>
<td>3</td>
<td>[Job History]</td>
<td>Select one from the fax destination history.</td>
</tr>
<tr>
<td>4</td>
<td>[Address Search]</td>
<td>Search the address from the address book.</td>
</tr>
<tr>
<td>5</td>
<td>[Application]</td>
<td>Specifies optional functions such as stamp and page print.</td>
</tr>
<tr>
<td>6</td>
<td>[Communication Settings]</td>
<td>Specifies settings for communication.</td>
</tr>
<tr>
<td>7</td>
<td>[File Type]</td>
<td>Specifies the file format and the encryption detail to be sent.</td>
</tr>
</tbody>
</table>
5.6 Organizing user box documents

The following outlines are the steps for organizing documents saved in public user boxes.

1. Connect an external memory to the machine, and then press the [User Box] key.

2. Touch [File Document].

3. Select the desired user box, and then touch [OK].

4. Select documents and choose action.
Note
For the procedure for deleting the documents, refer to “Deleting a document” on page 5-40.
For the procedure for changing the name of saved document, refer to “Edit Name” on page 5-40.
For the procedure for moving documents to a different user box, refer to “Move” on page 5-41.
For the procedure for copying a document to a different user box, refer to “Copy” on page 5-41.
For the procedure for checking or previewing document information, refer to “Document Details” on page 5-42.

5.6.1 Public/Personal/Group
Documents stored in public, personal, or group user box are subject to the following operations:

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delete</td>
<td>Deletes documents that are no longer needed after being printed or transmitted.</td>
</tr>
<tr>
<td>Edit Name</td>
<td>Changes the name of a saved document.</td>
</tr>
<tr>
<td>Move</td>
<td>Moves data of documents stored in the user box to another public, personal, or group user box.</td>
</tr>
<tr>
<td>Copy</td>
<td>Copies data of documents stored in the user box to another public, personal, or group user box.</td>
</tr>
<tr>
<td>Document Details</td>
<td>Enables checking of the saving date and time and a preview image of a document.</td>
</tr>
</tbody>
</table>

System
Documents stored in a system user box are subject to different operations, depending on the hosting box.

<table>
<thead>
<tr>

5.6.2 Description of the File Document screen

Public/Personal/Group

Select the Public, Personal, or Group tab, and then a user box. A screen like the following appears.

<table>
<thead>
<tr>
<th>No.</th>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>-</td>
<td>Displays the user box number and name.</td>
</tr>
<tr>
<td>2</td>
<td>![Key 1] ![Key 2]</td>
<td>When seven or more documents are saved, use the ![Key 1] and ![Key 2] keys to switch list displays.</td>
</tr>
<tr>
<td>3</td>
<td>[Delete]</td>
<td>Deletes selected documents.</td>
</tr>
<tr>
<td>4</td>
<td>[Edit Name]</td>
<td>Changes the name of the selected document.</td>
</tr>
<tr>
<td>5</td>
<td>[Move]</td>
<td>Specifies moving of the selected document.</td>
</tr>
<tr>
<td>6</td>
<td>[Copy]</td>
<td>Specifies copying of the selected document.</td>
</tr>
<tr>
<td>7</td>
<td>[Document Details]</td>
<td>Enables checking of detailed information and a preview image of a document.</td>
</tr>
<tr>
<td>8</td>
<td>[Select All]</td>
<td>Selects all documents in the user box.</td>
</tr>
<tr>
<td>9</td>
<td>[Reset]</td>
<td>Resets all documents in the user box.</td>
</tr>
<tr>
<td>10</td>
<td>[Detail View]/[Thumbnail View]</td>
<td>Switches the display format of the saved document. [Thumbnail View]: Displays a thumbnail of the first page, page number and the document name. [Detail View]: Displays the time stored, user name, and document name. Touch the title of [Time Stored] to sort entries on the list in ascending/descending order of the time stored.</td>
</tr>
<tr>
<td>11</td>
<td>-</td>
<td>Displays the list of documents saved in the user box.</td>
</tr>
</tbody>
</table>
System User Box

1. Select the System User Box tab, and a list of available system boxes appears.

2. Select a box for document filing.
   - When you select the [Bulletin Board User Box], further select a box inside that box for document filing.
   - When you select [Secure Print User Box], enter the ID and password for a secure print document.
   - When you select the [Annotation User Box], further select a box inside that box for document filing.

**Detail**

Depending on the settings for the Prohibit Functions When Auth. Error functions available from “Security Setting” - “Security Details” under [Administrator Settings], the procedure to input the ID and password for the secure print user box may vary.

5.6.3 Deleting a document

Deletes documents that are no longer needed after printing, etc. Multiple documents can be selected and deleted at once.

→ After checking the details of the document, touch [Yes], and then [OK].

5.6.4 Edit Name

Changes the name of a saved document.

→ Enter a new name from the touch panel.

**Detail**

The document name specified here is the default file name for transmission. Change the name of a document to be transmitted according to the conditions of the destination server.

The document name can also be changed later upon transmission.
5.6.5 Move

Moves data of documents stored in the user box to another user box. You can select a destination box from public, personal or group user box.

1. Select the destination user box, and check the contents of the document.
2. Touch [OK].

Detail
Display contents vary for personal and group user boxes according to the user who is logged on.
Password entry is not necessary even if a password has been specified for the destination box.

5.6.6 Copy

Copies data of documents stored in the user box to another user box. You can select the destination from public, personal and group user boxes.

1. Select the destination user box, and check the contents of the document.
2. Touch [OK]

Detail
Display contents vary for personal and group user boxes according to the user who is logged on.
Password entry is not necessary even if a password has been specified for the destination user box.
5.6.7 **Document Details**

Enables the details of a stored document to be checked from the touch panel.

**Display of detailed information**

- Select a document and touch [Document Details] to check the following items:

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Registered Time</td>
<td>Displays the date and time when the document was stored.</td>
</tr>
<tr>
<td>User Name</td>
<td>Displays the mode (Scan, Copy or Print) and name of the user who stored the document.</td>
</tr>
<tr>
<td>Document Name</td>
<td>Displays the name of the document.</td>
</tr>
<tr>
<td>No. of Pages</td>
<td>Displays the number of pages in the document.</td>
</tr>
<tr>
<td>Job No.</td>
<td>Displays the job number used for storing (registering) the document.</td>
</tr>
<tr>
<td><img src="image" alt="Button Icons" /></td>
<td>If two or more documents are stored in the user box, use <img src="image" alt="Button Icons" /> to switch documents.</td>
</tr>
<tr>
<td><img src="image" alt="Preview Button" /></td>
<td>Touch this button to switch to the Preview screen. For details, refer to &quot;Preview&quot; on page 5-43.</td>
</tr>
</tbody>
</table>
Preview

1. On the Document Details screen, touch [Preview] to display the preview image of the saved document.
   - The document can be viewed at full size or at a size of 2, 4 or 8 times the normal size.

2. Select the display size.

3. Use the scroll bars in the right end and bottom end of the image to view the desired section of the image.

Detail

With documents containing multiple pages, only the image of the first page can be checked.

The contents of a document saved with encryption cannot be previewed.
5.7 Secure Print User Box (System User Box)

5.7.1 What is Secure Print User Box?
Documents being sent for print jobs by protecting with an ID and password are saved in this box. The ID and password must be entered in order to print a document.

The authentication procedure may vary depending on how [Prohibited Functions When Authentication Error] (displayed by touching [Security Settings], and then [Security Details] in Administrator Settings) is set. For details, consult the administrator of this machine.

5.7.2 Authentication procedure 1
Take an appropriate operation according to the following procedure when [Prohibited Functions When Authentication Error] (displayed by touching [Security Settings], and then [Security Details] in Administrator Settings) is set to "Mode 1".

1 Touch [Secure Print User Box].
2 Type in the secure print ID.
3 Type in the password for secure print.
   A list of documents appears.
4 Select the document to be printed and make print settings.

5.7.3 Authentication procedure 2
Take an appropriate operation according to the following procedure when [Prohibited Functions When Authentication Error] (displayed by touching [Security Settings], and then [Security Details] in Administrator Settings) is set to "Mode 2".

1 Touch [Secure Print User Box].
2 Type in the secure print ID.
   A list of documents appears.
3 Select the document to be printed and type in the password for secure print.

Detail
When you select "Mode 2", the security level is higher than that in "Mode 1".
5.7.4 Printing

You can add several functions to documents stored in secure print user box when you print them.

![Image of Printing Settings](image)

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Copies</td>
<td>Type in the desired number of print copies using the keypad. The input range is 1 to 999.</td>
</tr>
<tr>
<td>1-Sided/2-Sided</td>
<td>Select either &quot;1-sided&quot; or &quot;2-sided&quot;.</td>
</tr>
<tr>
<td>Finishing</td>
<td>Select either &quot;Sort/Group&quot;, &quot;Offset&quot; or &quot;Staple&quot;.</td>
</tr>
<tr>
<td>Sheet/Cover/Chapter Insert</td>
<td>Select either &quot;Cover Sheet&quot;, &quot;Insert Sheet&quot; or &quot;Chapters&quot;.</td>
</tr>
<tr>
<td>Stamp/Composition</td>
<td>Select either &quot;Date/Time&quot;, &quot;Page Number&quot;, &quot;Stamp&quot;, &quot;Copy Protect&quot;, &quot;Stamp Repeat&quot; and/or &quot;Header/Footer&quot;.</td>
</tr>
</tbody>
</table>

5.7.5 Deleting

The document saved in the secure print user box can be deleted in the File Document screen.
5.8 Encrypted PDF User Box (System User Box)

5.8.1 What is Encrypted PDF User Box?

If the password-protected PDF file data is saved using PageScope Web Connection or PageScope Direct Print, documents are automatically saved in the encrypted PDF user box.

Detail

*Printing is instructed from the encrypted PDF box to print an encrypted PDF file with an external memory.*

5.8.2 Encrypted PDF User Box screen

1. Select [Encrypted PDF user box] to display the list of saved documents from the System tab.

2. Select the document to be checked.

![Encrypted PDF User Box Screen](image)

5.8.3 Printing

1. Select the document to be printed and then touch [Print].

2. Enter the password specified in the PDF file when printing.

![Printing Encrypted PDF](image)

5.8.4 Deleting

- Select the document to be deleted and then touch [Delete].
Network Scan/Fax/Network Fax Operations
6 Network Scan/Fax/Network Fax Operations

Note
The fax and network fax functions are only available if the optional fax kit installed.

6.1 Transmission functions

Function type
This machine can send and receive scanned images over the network or telephone line. This user manual contains descriptions of the following functions.

<table>
<thead>
<tr>
<th>Function type</th>
<th>Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Network Scan functions</td>
<td>• Scan to E-Mail</td>
</tr>
<tr>
<td></td>
<td>• FTP TX</td>
</tr>
<tr>
<td></td>
<td>• SMB TX</td>
</tr>
<tr>
<td></td>
<td>• Save in User Box</td>
</tr>
<tr>
<td></td>
<td>• WebDAV TX</td>
</tr>
<tr>
<td></td>
<td>• Web Service</td>
</tr>
<tr>
<td>Fax function</td>
<td>• G3 fax transmission/reception</td>
</tr>
<tr>
<td></td>
<td>• Polling</td>
</tr>
<tr>
<td>Network Fax function</td>
<td>• Internet fax (I-FAX)</td>
</tr>
<tr>
<td></td>
<td>• IP Address Fax</td>
</tr>
</tbody>
</table>

Reminder
When turning off the [main power switch] and turning it on again, wait for 10 seconds or longer after power-off, and then turn on the power again. The machine may not operate correctly if it is turned on immediately after being turned off.

Precautions for using fax function (G3)
This machine cannot send/receive faxes in color.

The telephone line types which can be connected to this machine are as follows:
- Subscribed telephone line (including fax network)
- PBX (two-wire private branch exchange)

Check the telephone line for the following:
- You cannot connect a business phone as an external telephone.
- If a digital dedicated line is multiplexed in an enterprise network, fax transmission speed may be limited, or the Super G3 fax may not be available.

With the factory default settings, a communication error occurs at rare conditions. This is caused by the multiplexed device being set to the lowest possible band for voice transmission. These limitations vary depending on network configurations. For details, contact your network administrator.

Precautions for using network fax
The following conditions are required to use the network fax function.
- The machine is connected to the network. (required)

The machine can be used in a TCP/IP network connection. First, connect the cable for connecting to the network.

Detail
To use this machine on a network, settings such as the IP address of the machine must be specified.
Precautions for using Internet fax

The following conditions are required to use the Internet Fax function.

- This machine is connected to a network, enabling to send/receive E-Mail messages.
- In “Network Fax Function Setting” of Administrator Settings, the Network Fax function is set to “ON”.

When an E-Mail message is sent, the attachment file may be damaged depending on the network conditions. Always check the attached file for damage.

Even if the TX Result screen or Activity Report screen indicates “-----”, due to a problem in an Internet pathway, the E-Mail message may not be delivered to the recipient. “-----” indicates that a message is sent to the server successfully. If the machine receives a message disposition notification (MDN), “OK” appears in the TX Result screen or the Activity Report screen. To send/receive an important data, use the G3 fax function.

Detail

To use the Internet Fax function, setting by a service engineer is required. For details, contact your service representative.

Precautions for using IP Address Fax

You cannot add an extension telephone line if the IP Address Fax function is used.

The IP Address Fax function is available only between the compatible models of Konica Minolta. We cannot guarantee proper operation other than the compatible models.

Detail

To use the IP Address Fax function, setting by a service engineer is required. For details, contact your service representative.
6.2 Overview

6.2.1 Available Network Scan functions

"Scanning" refers to the operation of reading images of an original fed through the ADF or placed on the original glass. The Scan functions can be used to temporarily store the scan data on the internal memory of the machine and transmit the data over the network.

Scan to E-Mail

Scanned data can be sent to a specified E-Mail address.

- Select the destinations from the touch panel of the machine for sending the scanned data as an E-Mail attachment.

FTP TX

Scanned data can be uploaded to a specified FTP server.

- Enter the FTP server address, login password and other information from the touch panel of this machine.
  - The data uploaded to the FTP server can be downloaded from a computer on the network.
**SMB TX**

Scanned data can be sent to a shared folder on a specified computer.

- Enter the host name, file path and other information from the touch panel of the machine.

**Save in User Box**

Scanned data can be saved in a user box created on the hard disk of this machine, allowing the data to be reused. The file name can be entered from the touch panel of this machine when the data is saved.

Other data such as received fax data can also be stored in user boxes.
WebDAV TX

Scanned data can be uploaded to a specified server.

- Enter the server address, login password and other information from the touch panel of the machine.
- The data uploaded to the server can be downloaded from a computer on the network.

Web Service

If a driver is installed with the machine recognized by a computer on the network (Windows Vista), it is possible to give a scan command from the computer or to perform scanning according to the purpose from the machine and to send the scanned data to the computer.

Note

If optional image controller IC-409 has been installed this function is not available.
6.2.2 Available Fax functions

G3 fax transmission/reception
This machine can send/receive G3 fax.

- Select the destinations from the touch panel of the machine for broadcast the data.
- Also, you can add data using edit function available with the Scan function.

Polling
By sending a polling command, you can receive original data from other fax machines (polling RX). Also, you can save original data to be transmitted upon receiving polling command from other fax machines (polling TX). You can save data to either the Polling TX User Box or Bulletin Board User Box for polling TX.
6.2.3 Available Network Fax functions

Internet Fax
The Internet Fax function sends and receives scanned originals as an attached file (TIFF format) via the intranet (enterprise networks) or Internet. This communication via intranet or internet largely reduces the communication cost as compared with general fax messages.

¬ Specify the destination E-Mail address to send the E-Mail message.

![Diagram of Internet Fax process]

<table>
<thead>
<tr>
<th>Original</th>
<th>Intranet/Internet</th>
<th>E-Mail + attached file (TIFF format)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>SMTP server POP server</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Internet receiving</td>
</tr>
</tbody>
</table>

IP Address Fax
This function enables fax transmission over an IP network.

¬ Specify the destination host name or IP address to send a fax.

The differences between IP Address fax and G3 fax or Internet fax are as follows.

- The SMTP protocol is used for sending and receiving of the image data.
- Available only within an intranet (enterprise networks).
- Unlike Internet fax, no mail server is required.
- Available to send/receive faxes in color.

![Diagram of IP Address Fax process]

Transmitting a fax by specifying an IP address or host name of the destination.
6.3 Address Registration

To register the destination (address) of scanned/faxed data, use one of the following registration methods.

- Using the touch panel of the machine
- Using PageScope Web Connection from a computer on the network

6.3.1 Address Book

The following types of destination information can be registered in the Address Book. For details on registering destinations in Address Book, refer to “One-Touch/User Box Registration” on page 6-108.

- E-Mail
- User Box
- Fax
- PC (SMB)
- FTP
- WebDAV
- IP Address Fax
- Internet Fax

Detail

Destinations in Address Book cannot be registered by Web service. Specify the destination by directly entering the address.

6.3.2 Group

A set of addresses registered in the Address Book can be registered as a group. Group registration is useful for sending a message to more than one address at the same time.

6.4 Optional settings

Depending on the use, additional settings are also available.

Fax/Scan programs

The destination and scan settings can be registered together as a single program. This is convenient for frequently scanning documents and sending data under the same conditions.

- Use the touch panel of the machine to specify the settings.

Note

For details, refer to “Scan/Fax Program” on page 6-142.

Setting display contents

- Set the contents to be displayed when the [Fax/Scan] key is touched on the control panel.

Note

For details, refer to “Custom Display Settings - Scan/Fax Settings” on page 6-149.
6.5 Using Web services

It is possible to give a scan command from a computer (Windows Vista) on the network or to perform scanning according to the purpose from the machine and to send the scanned data to the computer. This section describes settings that should be specified on the computer in advance.

6.5.1 Settings required for using Web services

The following settings are required for using Web services:

- Install the driver of the machine on the computer.
- Specify settings for Web services on the machine.

**Detail**

Settings for Web services on this machine can be specified in the Administrator Settings screen.

6.5.2 Installing the driver of this machine on the computer

**Pre-installation checking**

Before installation, check that "Network discovery" is enabled in [Network and Sharing Center] accessed from [Control Panel].

**Installation procedure**

1. Click the [Start] button, and then select [Network].
   Devices connected to the network are listed.

2. Right-click the scanner icon on the machine, and then select [Install].
   - Depending on the settings on the computer, the UAC (User Account Control) dialog box may appear. Check the contents, and then continue.
   - When both the scan and printing functions of the Web service are enabled for this machine, this machine is displayed as printer icon.
   - The driver software is installed automatically. When the confirmation dialog box appears, click the [Close] button.

3. On the control panel of the machine, select [Web Service] and check that the connection destination is displayed.
6.6 Operation flow

6.6.1 Scan/Network fax

This section describes the flow of steps for sending scanned data and using Internet fax operations.

1. Press the [Fax/Scan] key.

2. Specify a recipient.
   - On the Address Book tab (p. 6-39)
   - On the Direct Input tab (p. 6-42)
On the Address Search tab (p. 6-53)

3 Specify scan settings (p. 6-56), original settings (p. 6-85), and communication settings (p. 6-89).
   - To specify the scan settings, touch [Scan Settings].
   - To specify the original settings, touch [Original Settings].
- To specify the communication settings, touch [Communication Settings].

4 Position the original.

5 To check the advance preview, press the [Proof Copy] key. (p. 6-27)
6  Press the [Start] key.
6.6.2 Fax (G3)

This section describes the flow of steps for using G3 fax operations.

1. Press the [Fax/Scan] key.

2. Specify a recipient.
   - On the Address Book tab (p. 6-39)
   - On the Direct Input tab (p. 6-42)
3 Specify scan settings (p. 6-56), original settings (p. 6-85), and communication settings (p. 6-89).

- To specify the scan settings, touch [Scan Settings].

- To specify the original settings, touch [Original Settings].
- To specify the communication settings, touch [Communication Settings].

4 Position the original.

5 To check the advance preview, press the [Proof Copy] key. (p. 6-27)
6 Press the [Start] key.
6.6.3 Recalling a program

This section describes the flow of steps for recalling a registered fax/scan program.

1. Press the [Fax/Scan] key.

2. Press the [Mode Memory] key.

3. Select a program, and then touch [OK].
Specify scan settings (p. 6-56), original settings (p. 6-85), and communication settings (p. 6-89).

- To specify the scan settings, touch [Scan Settings].

- To specify the original settings, touch [Original Settings].

- To specify the communication settings, touch [Communication Settings].
5 Position the original.

6 To check the advance preview, press the [Proof Copy] key. (p. 6-27)

7 Press the [Start] key.

Note
For details and the procedure of program registration, refer to "Register Scan/Fax Program" on page 6-142.
6.6.4 Broadcasting

This section describes the procedure for transmitting data to multiple recipients at the same time.

1. Press the [Fax/Scan] key.

2. Specify two or more recipients.
   - On the Address Book tab (p. 6-39)
   - On the Direct Input tab (p. 6-42)
– On the Job History tab (p. 6-52)

– On the Address Search tab (p. 6-53)
3 Specify scan settings (p. 6-56), original settings (p. 6-85), and communication settings (p. 6-89).

- To specify the scan settings, touch [Scan Settings].

- To specify the original settings, touch [Original Settings].

- To specify the communication settings, touch [Communication Settings].
4  Position the original.

5  To check the advance preview, press the [Proof Copy] key. (page 6-27)

6  Press the [Start] key.
6.7 Using Advanced Preview

By pressing the [Proof Copy] key after positioning the original for fax or scan transmission, the finishing status can be previewed on the control panel. In the Preview screen, direction of the scanned original can be checked and settings can be changed.

**Detail**
Documents encrypted and loaded cannot be previewed.

6.7.1 Preview screen

**Preview - View Pages**
Displays the scanned image.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Zoom</td>
<td>The document can be viewed at full size or at a size of 2, 4 or 8 times the normal size. Select the display size, and use the scroll bars in the right end and bottom end of the image to view the desired section of the image.</td>
</tr>
</tbody>
</table>
| Page Rotation         | • [Rotate current page]: Touch this key to rotate the page currently displayed by 180 degrees.  
                         • [Select page(s) to rotate]: This key appears when the stored document contains multiple pages. List of scanned pages appears. Select the desired page to rotate by 180 degrees. The rotation options in the list of scanned page are as follows:  
                         • [Select Odd]: Rotates the images for odd number of pages by 180 degrees.  
                         • [Select Even]: Rotates the images for even number of pages by 180 degrees.  
                         • [Select All]: Rotates the images for all of pages by 180 degrees. |
| [View Finishing]      | Touch this key to display the specified settings in the preview image by icons and text. When [View Finishing] is cancelled, the only image is displayed without icons or text. |
| [Change Setting]      | Some of the settings specified before scanning the original can be changed. For details, refer to “Preview - View Pages - Change Setting” on page 6-28. |

**Detail**
When selecting on the page directly, the image of the selected page is rotated by 180 degrees.
Preview - View Pages - Change Setting

The following settings specified before scanning the original can be changed.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Basic - Document</td>
<td>Select either 1-sided or 2-sided. If the &quot;Cover + 2-Sided&quot; is specified, [Cover + 2-Sided] also appears.</td>

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>[Finish]</td>
<td>To continue scanning after the currently displayed original, make sure that [Finish] is not selected.</td>
</tr>
</tbody>
</table>
6.7.2 Sending using Advanced Preview

Operation procedure after positioning the original is described below. For details on fax and scan transmission procedure, refer to "Operation flow" on page 6-12.

1 Position the document to be copied.

2 Press the [Proof Copy] key.

3 Select the original direction.
   - When the original is placed on the original glass:

4 Press the [Start] key.

   The original is scanned, and the Preview screen appears.

   - When the original is loaded into the ADF:
5 Check the preview image, and rotate the image or change settings if necessary.

- To continue to scan more originals, touch the View Status tab, clear the selection of [Finish], and position the next original.

6 Press the [Start] key.
Sending starts.
6.8 **Menu tree in Fax/Scan mode**

The functions and settings that can be operated in Fax/Scan mode are structured as shown below.

**Address Book tab**

> **Note**
> For details, refer to "Address Book" on page 6-39.

Operations available on the Address Book tab are as follows:

- **Detail**
  - For details on Search, refer to p. 6-39
  - For details on Scan Settings, refer to p. 6-56
  - For details on Original Settings, refer to p. 6-85
  - For details on Communication Settings, refer to p. 6-89
Direct Input tab

Operations available on the Direct Input tab are as follows:

Detail
For details on Direct Input, refer to p. 6-42.
For details on Fax, refer to p. 6-43
For details on E-Mail, refer to p. 6-44
For details on User Box, refer to p. 6-44
For details on Internet Fax, refer to p. 6-45
For details on IP Address Fax, refer to p. 6-46
For details on PC (SMB), refer to p. 6-47
For details on FTP, refer to p. 6-48
For details on WebDAV, refer to p. 6-50
For details on Web Service, refer to p. 6-52
For details on Scan Settings, refer to p. 6-56
For details on Original Settings, refer to p. 6-85
For details on Communication Settings, refer to p. 6-89
Job History tab

Operations available on the Job History tab are as follows:

For details on Job History, refer to p. 6-52.
For details on Scan Settings, refer to p. 6-56
For details on Original Settings, refer to p. 6-85
For details on Communication Settings, refer to p. 6-89

Address Search tab

Operations available on the Address Search tab are as follows:

For details on Search, refer to p. 6-53.
For details on Advanced Search, refer to p. 6-53
For details on Scan Settings, refer to p. 6-56
For details on Original Settings, refer to p. 6-85
For details on Communication Settings, refer to p. 6-89
Off-Hook tab

Note
For details, refer to "Off-Hook (G3)" on page 6-55.

Scan Settings

Note
For details, refer to "Scan Settings" on page 6-56.

Operations available on the Scan Settings screen are as follows:

<table>

<td>p. 6-56</td>
</tr>
</tbody>
</table>

**Detail**
The display position of [Address Search] varies depending on the user settings. For details, refer to "Default Address Book" on page 6-151.

When "Confirm Address (TX)" is specified, [Job History] and [Off-Hook] do not appear.
6.9.2 Address Book

The destination address can be searched.

→ Search for the registered destination according to the following method.

Search - Address Type

The destination types can be searched based on the type that was specified when the destination was registered.

Note

For the method to register destinations in Address Book, refer to “One-Touch/User Box Registration” on page 6-108.

For details on settings, refer to “Default Address Book” on page 6-151.
Search - Index

The index is displayed based on the index that was specified when the destination was registered.

[Address Type] appears by touching [Search] if [Default Address Book] (displayed by touching [Custom Display Settings] - [Scan/Fax Settings] on the [User Settings]) is set to "Address Type".

Note
For the method to register destinations in Address Book, refer to "One-Touch/User Box Registration" on page 6-108.

For details on settings, refer to "Default Address Book" on page 6-151.
Search - Detail Search

Enter the destination name or part of the address to search for the corresponding address.

- Select [Name] or [Address] and enter the search text.

Detail Search - Search Options

When a condition is selected in the Detail Search screen, search options appear.

- Select options to be added for the search, and then touch [OK].

Detail

Display of the Search Options screen and contents of the items to be displayed can be specified in "Search Option Settings" in the Utility mode. For details, refer to "Custom Display Settings - Search Option Settings (E-mail/Box/SMB/FTP/WebDAV/G3/IP/I-FAX)" on page 6-153.
6.9.3 **Direct Input**

- Specify an unregistered destination by directly entering it.
6.9.4 Direct Input - Fax

1. Enter a Fax number from the touch panel.

   - If the "Confirm Address (TX)" is specified, after touching [OK], a screen appears prompting you to enter the fax number again.

2. Touch [Send].
6.9.5 Direct Input - E-Mail

⇒ Enter an E-Mail address from the touch panel.

6.9.6 Direct Input - User Box

1. Select a user box type.
2. Specify a user box for saving the document.
6.9.7 Direct Input - Internet Fax

Enter an E-Mail address from the touch panel.

RX Ability (Destination)

Select a receivable setting at the Internet fax destination.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
6.9.9 Direct Input - PC (SMB)

⇒ Specify the PC (SMB) address directly.

![Image of Direct Input - PC (SMB) interface]

Host Name

⇒ Specify the host name (in uppercase letters) or IP address for the destination from the touch panel.

File Path

⇒ Type the path to the destination folder in uppercase letters from the touch panel.

User Name

⇒ Type the user name to log in from the touch panel.

Password

⇒ Type the login password from the touch panel.

Reference

The structure of the folders on the destination computer can be checked. This can be used to directly specify the destination folder.

Next Destination

⇒ Touch this button to add other destinations.
6.9.10 Direct Input - FTP

Specify the FTP address directly.

Host Name

Specify the host name or IP address for the destination from the touch panel.

File Path

Specify the path to the destination folder from the touch panel.

User Name

Type the user name to log in from the touch panel.

Detail

Touching [Anonymous] inputs "anonymous".

Password

Type the login password from the touch panel.
Detailed Settings

- Specify more detailed settings.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>

</tr>
</tbody>
</table>

Next Destination

- Touch this button to add other destinations.
6.9.11 Direct Input - WebDAV

Specify the WebDAV address directly.

**Host Name**

- Specify the host name or IP address for the destination from the touch panel.

**File Path**

- Specify the path to the destination folder from the touch panel.

**User Name**

- Type the user name to log in from the touch panel.

**Password**

- Type the login password from the touch panel.
Detailed Settings

→ Specify more detailed settings.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Port Number</td>
<td>Enter the port number.</td>
</tr>
<tr>
<td>Proxy</td>
<td>Specify whether or not a proxy server is used.</td>
</tr>
<tr>
<td>SSL Settings</td>
<td>Specify whether or not SSL is used for transmission.</td>
</tr>
</tbody>
</table>

Next Destination

→ Touch this button to add other destinations.
6.9.12 Direct Input - Web Service

This function sends scan data to a computer registered in advance on the network.

**Detail**

For details on settings to be specified in advance, refer to "Using Web services" on page 6-11.

It is also possible to give a scan command from the computer to the machine and save the data.

Computers on the network in which the machine is registered as a Web service scanner are listed on the screen as available destinations.

→ Select a destination.

![Web Service Screen](image)

**Detail**

Displays the name of the destination and its URL.

**Search**

→ Enter a keyword that is included in the destination name from the touch panel, and then search for the destination.

6.9.13 Job History (G3)

The destinations of the five latest fax transmissions are displayed. You can select a destination from this history.

![Job History Screen](image)
6.9.14  **Address Search - Search**

1. Enter a search keyword.

2. Touch [Start Search] to search data in the specified LDAP server for the relevant address.

![Address Search - Search](image1)

6.9.15  **Address Search - Advanced Search**

Specify multiple search conditions to search for the target address.

![Address Search - Advanced Search](image2)

**Name**

- Enter the name from the touch panel.

**E-Mail Addr.**

- Enter the E-Mail address from the touch panel.
Fax Number

- Enter the Fax number from the touch panel.

Last Name

- Enter the last name from the touch panel.

First Name

- Enter the first name from the touch panel.

City

- Enter the city name from the touch panel.

Company Name

- Enter the company name from the touch panel.

Department

- Enter the department name from the touch panel.

OR/AND/STARTS WITH/ENDS WITH

- Select search conditions from [OR], [AND], [STARTS WITH], and [ENDS WITH].
6.9.16 Off-Hook (G3)

→ Use this button for manual transmission.

Detail
When using off-hook operations, memory transmission is disabled.
When "Confirm Address (TX)" is specified, the Off-Hook function is not available.

Manual transmission

1. Set the original in place
2. Specify settings for scanning as needed.
3. Touch [On-Hook] to hook up and to display a screen for specifying the destination.

4. Touch [Send].
5. Specify the destination.
6. Touch [Start].

Detail
To specify the destination, select from [Address Book], [Direct Input], [Job History], or [Program].
6.10 Scan Settings

Touch [Scan Settings] to specify detailed settings for scanning.

6.10.1 Basic - Original Type

Select the type according to the contents of the original.
- The original type can be selected from the following:

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Text</td>
<td>Select this setting for a text-only original.</td>
</tr>
<tr>
<td>Text/Photo</td>
<td>Select this setting for originals consisting of both text and photos (halftones).</td>
</tr>
<tr>
<td></td>
<td>- If &quot;Text/Photo&quot; or &quot;Photo&quot; is selected, the photo type can also be selected.</td>
</tr>
<tr>
<td>Photo Paper</td>
<td>Select this setting for photos printed on photo paper.</td>
</tr>
<tr>
<td>Printed Photo</td>
<td>Select this setting for printed photos, such as in books or magazines.</td>
</tr>
</tbody>
</table>
6.10.2 Basic - Simplex/Duplex

- Select a scanning mode to either scan one side or both sides of the original.

1-Sided
- Select this setting to scan one side of the original.

2-Sided
- Select this setting to scan both sides of the original.

Cover + 2-Sided
- Select this setting to scan one side of the first page as the cover page, and scan both sides of the remaining pages.
6.10.3 Basic - Resolution

Select the resolution for scanning.

Detail

If [300 × 300 dpi] is selected for G3 fax or Internet fax transmission, the data is sent with converting to 200 × 200 dpi automatically.
6.10.4 File Type

Select the file type for saving the scan data.

File Type

The following file types are available.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PDF</td>
<td>Saves the data in the PDF format.</td>
</tr>
<tr>
<td>Compact PDF</td>
<td>Saves the data by compressing at a level higher than in the PDF format. This is used for full-color scan data.</td>
</tr>
<tr>
<td>TIFF</td>
<td>Saves the data in the TIFF format.</td>
</tr>
<tr>
<td>JPEG</td>
<td>Saves the data in the JPEG format.</td>
</tr>
<tr>
<td>XPS</td>
<td>Saves the data in the XPS format.</td>
</tr>
<tr>
<td>Compact XPS</td>
<td>Select this setting to compress the data more than the XPS format and save.</td>
</tr>
</tbody>
</table>

**Detail**

Even if a file type is selected when saving a document in a user box, the file type must be specified when downloading the data.

The compression format can be specified when saving a TIFF file in color. For details, refer to "Color TIFF Type (E-Mail/User Box/SMB/FTP/WebDAV)" on page 6-156.

If "JPEG" is selected, "Single Page" is selected automatically for page setting.

Some file type settings may not be available, depending on the setting for "Color". The possible combinations of the "File Type" and "Color" settings are shown below.

<table>
<thead>
<tr>
<th></th>
<th>Auto Color</th>
<th>Full Color</th>
<th>Gray Scale</th>
<th>Black</th>
</tr>
</thead>
<tbody>
<tr>
<td>PDF</td>
<td>o</td>

<tr>
<td>Compact XPS</td>
<td>o</td>
<td>o</td>
<td>o</td>
<td>x</td>
</tr>
</tbody>
</table>

- o: Possible
- x: Not possible
Scan Settings

In addition, the grouping of the saved data can be specified.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single Page</td>
<td>Creates a file in a format that allows data to be saved for each page when downloading data.</td>
</tr>
<tr>
<td>Multi Page</td>
<td>Creates a single file from the entire scanned document. This setting cannot be selected if &quot;JPEG&quot; is selected for [File Type].</td>
</tr>
</tbody>
</table>

**Detail**

Even if "Single Page" is selected when saving a document in a user box, a page must be specified when downloading the data.

Encryption - Encryption Level, Password, Document Permissions, and Detail Settings

If the "PDF" or "Compact PDF" is selected for "File Type", the encryption level can be specified.

**Encryption - Password**

1. Enter the password necessary to open encrypted data (within 32 characters).
2. For confirmation, enter the password twice.

**Encryption - Document Permissions**

1. Enter the password necessary to change document permissions (within 32 characters).
2. For confirmation, enter the password twice.
**Encryption - Detail Settings - Printing Allowed/Enable copying of text, images and other content**

When "Document Permissions" is selected under "Encryption", details of the permission can be specified. Under "Printing Allowed", select whether or not data printing should be allowed.

When you specify [High Level] for the encryption level, [Low Resolution] appears.

Under [Enable copying of text, images and other content], select whether or not to allow copying of text, images and other content.

If [Low Level] is selected

![Diagram showing low level permissions]

If [High Level] is selected

![Diagram showing high level permissions]
Encryption - Detail Settings - Changes Allowed

In the Detail Settings screen, touch [Forward ] to select details of the changes allowed. Under “Changes Allowed”, select the appropriate permission level for document changes including data signature, inputs, and remarks.

If [Low Level] is selected

![Low Level Image]

If [High Level] is selected

![High Level Image]
Stamp Composition

Select a method for composing contents to be added by stamp/page print.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Image</td>
<td>Inserts the text as an image.</td>
</tr>
<tr>
<td>Text</td>
<td>Insert the text as text.</td>
</tr>
</tbody>
</table>

**Detail**

*The date/time, page number, and header/footer can be combined as text.*

*Stamps are combined as images.*

6.10.5 Scan Settings - Density

1. Adjust the density for scanning.

2. To adjust the density, touch [Light] or [Dark].

- Touch [Standard] to reset the setting to its default.
6.10.6 Scan Settings - Separate Scan

The scan operation can be divided into several sessions for various types of documents, for example, when all pages of a document cannot be loaded into the ADF, when placing the document on the original glass, or when single-sided documents are combined with double-sided documents.

To specify this setting, touch [Separate Scan] to have the key label highlighted.
6.10.7 Quality Adjustment

Adjust the quality, such as color and background, for scanning.

Color (E-Mail/User Box/SMB/FTP/WebDAV/IP)

Specify an option for scanning in color or for scanning in black and white. Some color settings may not be available, depending on the setting for "File Type". The possible combinations of the "File Type" and "Color" settings are shown below.

<table>
<thead>
<tr>
<th></th>
<th>Auto Color</th>
<th>Full Color</th>
<th>Gray Scale</th>
<th>Black</th>
</tr>
</thead>
<tbody>
<tr>
<td>PDF</td>
<td>☐</td>
<td>☑</td>
<td>☐</td>
<td>☐</td>

<td>☐</td>
<td>☑</td>
<td>☐</td>
<td>☒</td>
</tr>
<tr>
<td>Compact XPS</td>
<td>☐</td>
<td>☑</td>
<td>☐</td>
<td>☒</td>
</tr>
</tbody>
</table>

Ο: Possible  ☒: Not possible

**Detail**

The compression format can be specified when saving a TIFF file in color. For details, refer to "Color TIFF Type (E-Mail/User Box/SMB/FTP/WebDAV)" on page 6-156. If "JPEG" is selected, "Single Page" is selected automatically for page setting.

*Auto Color*

This option automatically determines the color type of the original and scans it accordingly.

*Full Color*

This option scans in full color.

*Gray Scale*

Select this setting for originals with many halftones, such as in black-and-white photos.

*Black*

Select this setting for originals with distinct black and white areas, such as in line drawings.
Background Removal
Use this option to adjust the density of the original background during scanning. When colored paper is used for the original to be scanned, the background color may be scanned, and a result may be that the entire image is output in a dark color. In that case, the density of the background can be adjusted.

- To specify automatic adjustment, touch [Auto].

---

Sharpness
This option enables outlines of characters, etc, to become sharper during scanning.
6.10.8 Erase

An area around the edge of the original can be erased.

**Frame Erase**

- Select this setting to specify frame erasing.
  - To erase the same width on all sides, touch [Frame], and then specify a value (Range: 0.1 mm to 50.0 mm).
  - To specify different widths for the top, left, right, and bottom, touch the button for the desired location, and then specify a value.
  - To cancel frame erasing, touch [No].

---

**Detail**

If a width to be erased around the original is specified with "Frame Erase" in the Book Copy screen, the same settings are also applied to "Frame Erase" in the Frame Erase screen.
6.10.9  Book Scan - Book Copy

Select this method for scanning a page-spread original.
- In addition, the binding position and erasure of unnecessary parts can be specified.

Detail
Specify the size of the page spread as the scan size.

[Book Copy] cannot be selected for fax transmissions.

Book Spread
- Select this setting to scan a page spread as a single page.

Separation
- Select this setting to scan a page spread as two separate pages (left and right).

Front Cover
- Select this setting to scan the first page as the front cover.

Front + Back Covers
- Select this setting to scan the first page as the front cover, the second page as the back cover, and the remaining pages as the body.
**Book Erase - Frame Erase**

- Select this setting to specify frame erasing for page spreads.
  - To erase the same width on all sides, touch [Frame], and then specify a value (Range: 0.1 mm to 50.0 mm).
  - To specify different widths for the top, left, right, and bottom, touch the button for the desired location, and then specify a value.
  - To cancel frame erasing, touch [No].

**Detail**

If a width to be erased around the original is specified with "Frame Erase" in the Book Copy screen, the same settings are also applied to "Frame Erase" in the Frame Erase screen.

**Book Erase - Center Erase**

1. Select this setting to erase the shadows along the binding position at the center of the original.
2. Enter the frame erase width using the keypad or the [-] and [+] keys (range: 0.1 to 30.0 mm).
Binding Position

⇒ If "Separation", "Front Cover", or "Front + Back Covers" was selected, touch [Binding Position], and then select the binding position.
6.10.10 Application - Scan Size

Specify the size of paper for scanning.

Standard

To automatically detect the size of the first sheet of the original upon scanning, touch [Auto].
- To scan an original of a preset paper size (such as A4 or B5), select the relevant paper size.

Custom Size

Enter the dimensions of a custom size that is not available as a preset size.
- The size in the X direction can be set between 30 mm and 432 mm.
- The size in the Y direction can be set between 30 mm and 297 mm.
Photo Size

- Select size (such as $9 \times 13$, $10 \times 15$ or $13 \times 18$ cm).

6.10.11 Application - Annotation

Document data saved in Scan mode can be printed or transmitted with an image of the date/time or an annotation number.

**Selecting an annotation user box**

To use an annotation number, the scanned data must be stored in an annotation user box first.

- As annotation numbers are assigned box by box, select a user box for storing the data.

**Detail**

*Annotation user boxes must be registered beforehand.*
6.10.12 Application - Stamp/Composition - Date/Time

Prints the date and time of printing on pages.

**Date Format**
- Select the format for displaying the date.

**Time Format**
- Select whether or not the time is added, and select its format.

**Pages**
- Select either [All Pages] or [1st Page Only] for printing.

**Text Color**
- Select a printing color from [Black], [Red], [Blue], [Green], [Yellow], [Cyan], and [Magenta].
Text Size

- Select a size of characters to be printed from [Minimal] and [Std.].

Print Position - Print Position

- Select a desired printing position.

Print Position - Fine-Tune

1. To make fine adjustments, touch [Adjust Position]
2. Specify vertical/horizontal position adjustment with a value between 0.1 mm and 50.0 mm.
6.10.13 Application - Stamp/Composition - Page Number

Page numbers can be added to all pages of the document.

Starting Page Number

Specify the starting page number.

Starting Chapter Number

Specify the starting chapter number.

Page Number Type

Select the format for page numbers.

Text Color

Select a printing color from [Black], [Red], [Blue], [Green], [Yellow], [Cyan], and [Magenta].
Text Size

Select a size of characters to be printed from [Minimal] and [Std.].

Print Position - Print Position

Select a desired printing position.

Print Position - Fine-Tune

1. To make fine adjustments, touch [Adjust Position].
2. Specify vertical/horizontal position adjustment with a value between 0.1 mm and 50.0 mm.
6.10.14  Application - Stamp/Composition - Stamp

   Add preset text, such as "URGENT", to pages.

Stamp Type/Preset Stamps

   Select a stamp, such as "URGENT", "PLEASE REPLY", or "DO NOT COPY".

Pages

   Select the pages to be printed on (either [All Pages] or [1st Page Only]).

Text Color

   Select a printing color from [Black], [Red], [Blue], [Green], [Yellow], [Cyan], and [Magenta].
Text Size

- Select a size of characters to be printed from [Minimal] and [Std.].

Print Position - Print Position

- Select a desired printing position.

Print Position - Fine-Tune

1. To make fine adjustments, touch [Adjust Position].
2. Specify vertical/horizontal position adjustment with a value between 0.1 mm and 50.0 mm.
6.10.15 Application - Stamp/Composition - Header/Footer

 Inserts headers or footers on all pages. The contents of the header/footer must be registered in advance in "Administrator settings".

 → Touch [Check/Change Temporarily] to change what is registered and print it.

 Recall Header/Footer

 → Select a header/footer to be printed from the registered list.

 Check/Change Temporarily

 → Display the Check/Change Temporarily screen.
Check/Change Temporarily - Header Settings/Footer Settings

1. Specify whether or not to print a header/footer.
2. Touch [Print] to specify a text, the date/time, or other information (distribution number, job number, or serial number).

Check/Change Temporarily - Header Settings/Footer Settings - Text

⇒ Specify the header/footer text from the touch panel.
Check/Change Temporarily - Header Settings/Footer Settings - Date/Time

- Specify the date/time in the header/footer.

Check/Change Temporarily - Header Settings/Footer Settings - Other

The distribution control number, job number, and serial number can be included in the header/footer.

Detail
The serial number set up here represents the serial number of the machine. For details on the setup procedure, contact your service representative.

Check/Change Temporarily - Pages

- Select the pages to be printed (either [All Pages] or [1st Page Only]).
Check/Change Temporarily - Text Color

- Select a printing color from [Black], [Red], [Blue], [Green], [Yellow], [Cyan], and [Magenta].

Check/Change Temporarily - Text Size

- Select a size of characters to be printed from [Minimal] and [Std.].
6.10.16 Application - Send & Print

Send & Print
Specify whether or not to print a document as it is transmitted. In addition, various settings can be specified for printing.

Copies
→ Enter the desired number of print copies using the keypad. The input range is 1 to 999.

Simplex/Duplex
→ Select either 1-sided or 2-sided.

Staple
→ Specifies whether or not the prints will be stapled.

Staple - Position Setting
→ After selecting a staple type, you can specify the position.
6.10.17 Application - TX Stamp (G3/IP/I-FAX)

TX Stamp

When sending a document using the ADF, a TX Stamp can be printed on the original after it is scanned to enable page-by-page checking that scanning has succeeded. When sending a double-sided original, a TX stamp is only printed on the front page.

When [TX Stamp] is enabled, a stamp with a diameter of 4 mm is printed in pink at the position shown in the figure.

To enable printing a stamp, the optional stamp unit is required.

The stamp ink is a consumable item. If the stamp color becomes faint, contact your service representative.

When the original is mixed, the stamp position may be displaced from the point shown in the figure.

To check that the original is successfully transmitted, refer to the transmission report or the transmission result that appears on the setting confirmation screen.

Detail

*When the quick memory transmission function is selected, that function is canceled after selecting [TX Stamp].*

Printing a TX stamp

→ Select [TX Stamp] on the Application screen.

6.10.18 Document Name (E-Mail/User Box/SMB/FTP/WebDAV/I-FAX)

→ Enter the document name from the touch panel.
6.11 Original Settings

⇒ Specify the original setting type.

Detail

The special original and direction settings functions can be used in combination.

For example, the original may contain pages of different sizes or zigzag-folded pages.

6.11.1 Special Original - Mixed Original

⇒ Select this setting when originals of different sizes are loaded together into the ADF.

The scan speed is decreased since the size of each page is detected before it is scanned.

6.11.2 Special Original - Z-Folded Original

⇒ Select this setting to detect the size of a zigzag-folded original by the length fed through the ADF.

6.11.3 Special Original - Long Original

⇒ Select this setting for originals with the longitudinal side longer than the standard size.
6.11.4 **Direction Settings - Original Direction**

- Select the orientation of the original. After scanning, the data is processed so that it is correctly oriented.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Auto</td>
<td>The binding is on the long side if the page is 297 mm or less, or it is on the short side if the page is more than 297 mm.</td>
</tr>
<tr>
<td>Top</td>
<td>Select this setting if the original that is loaded has a binding margin at the top.</td>
</tr>
<tr>
<td>Left</td>
<td>Select this setting if the original that is loaded has a binding margin at the left.</td>
</tr>
</tbody>
</table>

**Detail**

*This function also corrects the orientation when scanning a double-sided original so that the binding position is not reversed.*
6.11.6  Total # of Pages (Quick Memory TX) (G3)

When using the Quick Memory TX function, enter the total number of pages in the "___ Pages" field for the source transmission information. Then the document is sent with page numbers printed in the format "the page number/the total number of pages".

1. Select the Quick Memory TX function.
2. Touch [Total # of Pages].
3. Enter the number of pages in the original using the keypad.

Detail

If the number of pages specified differs from the number of pages actually scanned, the number of pages specified is printed.

This function is disabled for memory transmission since the total number of pages is automatically affixed.

Detail

This function and any of the following functions cannot be selected at the same time.

- Memory transmission
- Cover + 2-Sided (Scan Settings - Simplex/Duplex)
- Frame Erase
- Book Copy
- Scan Size
- Mixed Original
- Polling TX
- Polling RX
- Bulletin
- Timer TX
6.11.7 Despeckle

- Select this setting to reduce the effect that dust on the left partition glass has on images when the original is loaded into the ADF.

**Detail**

The scanning speed will be reduced if the "Despeckle" setting is selected.

Clean the left partition glass when it becomes extremely dirty.
6.12 Communication Settings

6.12.1 Line Settings (G3)

Specify settings for a fax transmission line.

Oversea TX

To send a fax to an area under a poor state of communications, specify a slow transmission speed.

Detail

This function cannot be used together with the following functions.

Polling TX
Polling RX
Bulletin

ECM OFF

Cancel ECM mode to send data.

- The ECM mode is an error resend method of communication defined by the ITU-T (International Telecommunication Union). As faxes equipped with the ECM mode communicate by checking if the sent data has an error, they can prevent image blurring by the noise on the phone line. When there are a lot of noises, communication time may be slightly longer than it is when “ECM OFF” is selected. This machine automatically returns to the ECM ON status when it completes transmission.

Detail

Data is sent in the ECM mode unless ECM OFF is selected for this machine.

This function cannot be used together with the following functions.

Polling RX
Polling TX
V. 34 OFF
Bulletin Registration
Bulletin Polling RX
V. 34 OFF

V. 34 is a communication mode used for super G3 fax communication. There are cases when the communication is not possible in super G3 mode depending on the telephone line conditions when the recipient’s machine or this machine is connected to the line via a private branch exchange.

It is recommended that you set V. 34 to off before sending a fax. This machine automatically returns to V. 34 mode when it completes transmission.

Detail
This function cannot be used together with the following functions.

- Polling RX
- Polling TX
- Bulletin Registration
- Bulletin Polling RX
- ECM OFF

Check Dest. & Send

A fax is sent only after a comparison of the specified fax number with the fax number information (CSI) for the recipient’s machine indicates a match. This prevents misdirected transmissions since a transmission error occurs if the numbers do not match.

Detail
To execute [Check Dest. & Send], the destination must have its fax number registered.

Select Line

1. Select [Line 1] or [Line 2] to send a fax if the optional fax multi line is installed.

2. Specify a line for transmission.

Detail
You cannot specify a line when "Line 2 Setting" of "Multi Line Setting" is set to "RX Only".
6.12.2  E-Mail Settings (E-Mail/I-FAX)

About E-Mail settings

→ Specify the document name, subject, from address, and message body for sending messages.

![E-Mail Settings](image)

Document Name

Displays the name of the file to be saved. The document name specified later appears as the document name, even if the document name was specified in the File Document screen. You can enter up to 30 characters.

Subject

Automatically displays the text specified in the Utility mode.

→ Press [Direct Input] to change the text.
  - You can enter up to 64 characters.

![Subject Input](image)
From
Displays the administrator E-Mail address specified in the Utility mode.

⇒ Press [Direct Input] to change the text.

Detail
For Internet fax, the E-Mail address of the machine is used.

If you set "Change the From Address" (displayed by touching [System Settings] on the Administrator Settings screen, then [Restrict User Access], then [Restrict Operation]) to [Restrict], you cannot directly enter the from address.

Body
Displays the text specified in the Utility mode.

⇒ Press [Direct Input] to change the text.
  - You can enter up to 256 characters.
6.12.3 URL Notification Setting (User Box/FTP/SMB/WebDAV)

URL notification

→ Specify the E-Mail address where notifications of completion of the job are to be sent.

**Detail**

The destinations that can be specified for URL notification setting include User Box, FTP, SMB and WebDAV destinations.

Even if specified, this feature does not work for the Scan to E-Mail, Internet fax, or G3 fax functions.

**Detail Search**

1. Search for the destination E-Mail address from the address book.
2. Enter the destination name or part of the address to search for the corresponding address.
3. Select [Name] or [Address] and enter the search text.

**Direct Input**

→ Enter an E-Mail address from the touch panel.
6.12.4 Communication Method Settings (G3)

Specify a communication method.

Quick Memory TX

In this method, fax transmission starts as soon as one page of the original has been scanned. Even when there are a large number of pages in the original, this function enables transmission without straining the memory capability. If the line is busy, transmission starts after the line is available.
Polling RX - Normal

This function enables a document specified for transmission or scheduled for polling transmission on the sender’s machine to be transmitted upon a command from the recipient. This is convenient when the recipient desires to bear the communications fees.

→ Select [Normal], then a recipient.
Polling RX - Bulletin

This function enables a document in a bulletin board user box specified for transmission on the sender's machine to be transmitted upon a command from the recipient.

2. Enter the bulletin board number from the keypad.

3. Select a recipient.

**Detail**

A number up to 20 digits can be entered for the bulletin board number.

This function cannot be used together with the following functions.

- Quick Memory TX
- Memory transmission
- Frame Erase
- Scan Size
- Total # of Pages
- Mixed Original
- Z-Folded Original
- Long Original
- Binding Position
- Polling TX
- Overseas TX
- ECM OFF
- Password TX
- F-Code TX
- V. 34 OFF
- Separate Scan
Timer TX
The transmission time can be specified. It is economical to communicate using telephone discount rate hours in early morning and late at night.

Specify the communication start time with the numeric keypad.

Detail
You can only specify the time. Specify the time in hours and minutes.

You may not specify the date.
Password TX
Sends data with a password. If the recipient’s fax machine is set for closed network receptions, the sender’s fax machine should transmit a fax with the same password as the closed network reception password.
This function is available only when the recipient’s machine has the closed network reception (password) function.
→ Enter the password from the numeric keypad.

Polling TX - Normal
This function saves a document scheduled for polling transmission so that it can be transmitted upon a command from the recipient side.
→ Select [Normal] to have the original scanned and automatically saved in a polling transmission user box.

Detail
If user authentication is applied, polling transmission is disabled if the user who is not permitted to access to the saved documents is logged on.
Polling TX - Bulletin
This function registers a document in a bulletin board user box so that it can be transmitted from the bulletin board upon a command from the recipient side.

1. Select [Bulletin].
2. Enter a bulletin board number from the keypad.
3. Start scanning of the original.

The document is automatically saved in the bulletin board user box that has been created beforehand.

Detail
A number between 1 and 999999999 can be entered for the bulletin board number.

Only one document can be registered in one bulletin board user box.

Up to 10 bulletin board user boxes can be registered in this machine.

Detail
This function cannot be used together with the following functions.

Quick Memory TX
Memory transmission
Total # of Pages
Polling TX
Timer TX
Overseas TX
ECM OFF
Password TX
F-Code TX
V. 34 OFF
F-Code TX

Sends data to the specified user box of the recipient by entering the SUB address and Sender ID. The following two types of user boxes can be specified.

- Confidential transmission
  - Sends data to the confidential transmission user box of the recipient. Enter the user box number as the SUB address, and the confidential transmission password as the Sender ID.
- Relay transmission
  - Sends data to the relay transmission user box when the recipient machine has the relay distribution function. Enter the relay user box number as the SUB address, and the relay transmission password as the Sender ID.

Specify the SUB address or transmission ID for the recipient.

Detail
The recipient needs to have the F-code function to use an F-code.

6.12.5 E-Mail Encryption (E-Mail)

This parameter appears when "ON" is selected for "S/MIME Communication Settings" (in [E-Mail Settings] in the Network Settings screen in Administrator mode.

Specify whether or not to encrypt the E-Mail to be sent.

6.12.6 Adding Digital Signature (E-Mail)

This parameter appears when "ON" is selected for "S/MIME Communication Settings" (in [E-Mail Settings] in the Network Settings screen in Administrator mode.

Specify whether or not to add a digital signature to E-Mail messages for transmission.

Detail
This parameter may not be available or may be set to normally sign, depending on the specified S/MIME communication settings.
6.12.7 Fax Header Settings (G3/IP/I-FAX)

1 Specify whether or not to add sender information for transmission.
2 Select one from the list of sender names.

Detail

Use "TTI Setting" in "Administrator Settings" to register the detail added to the original as sender information.

Use "TTI/RTI" in "Administrator Settings" to register how to add sender information.
6.13 Redialing (G3/IP)
Redialing refers to the action to dial the same recipient again.
Redialing takes place after a certain length of time when the line is busy and transmission has failed.

6.13.1 Redial
If transmission has failed because the line is busy, the recipient’s number is automatically redialed as many times as specified in the Line Parameter Setting screen.
Until successfully redialed, the transmission job is handled as a scheduled job in a redialing queue.

Detail
The factory setting for automatic redialing is to have redialing performed three times at an interval of three minutes.

6.13.2 Manual redialing
A job in the redialing queue can be redialed from the Job Details screen.

1 Touch [Job List].
2 Touch [Job Details].
3 Touch [Send].
4 Select a job under “Current Jobs”.
5 Touch [Redial].
6.13.3 Fax Retransmit (G3)

A job is saved in a retransmit user box after the setting for auto redialing specified in the Line Parameter Setting screen has been exceeded without successful transmission. Open the retransmit user box to redial manually.

1. Select the job to be retransmitted.
2. Touch [Fax].

Detail
To save the job in the retransmit user box, “Incomplete TX Hold” must be specified in advance in “Administrator Settings”.
6.14 Menu trees in User mode

Items that can be specified in user settings are as follows. This menu tree includes items related to network scan, G3 fax, and network fax.

6.14.1 One-Touch/User Box Registration

6.15 One-Touch/User Box Registration

A maximum of 2,000 destinations can be registered for Address Book.

**Detail**
If “Registering and Changing Address” in Administrator Settings is restricted, specify these settings with “One-Touch/User Box Registration” on the Administrator Settings screen.

6.15.1 Displaying the One-Touch/User Box Registration screen

1. To display the One-Touch/User Box Registration screen, press the [Utility/Counter] key on the control panel.
2. Touch [One-Touch/User Box Registration].

**Detail**
In the Utility screen, you can also select a setting by using the keypad to enter the number next to the desired button. For [1 One-Touch/User Box Registration], press [1] in the keypad.
6.15.2 Address Book - E-Mail

E-Mail addresses can be registered.

- To register a new address, touch [New].

1/2 screen

![Image of Address Book - E-Mail](image1)

2/2 screen

![Image of Address Book - E-Mail](image2)

Detail

To check a registered address, select a desired registration name, and then touch [Check Job Settings].

To change registered address settings, select a desired registration name, and then touch [Edit]. On the Edit screen, the registration number cannot be changed.

To delete a registered address, select a desired registration name, and then touch [Delete].
No.

→ Touch [No.], and then enter the registration number of Address Book between 1 and 2,000. When the screen is displayed, the smallest available number is displayed.

Name

→ Enter the registration name of the address book using up to 24 characters from the touch panel.

E-Mail Address

→ Enter the destination E-Mail address from the touch panel.

Index

→ Select the index characters.
  - For frequently used destinations, simultaneously specify them in [Favorites]. This setting speeds up searches.
Icon

Select the icon.

Detail

The icons are used in the image panel function which can be operated when the optional LK-101 is installed.
6.15.3 Address Book - User Box

Destinations for user box can be registered.

- To register a new address, touch [New].

**Detail**

In order to register a user box as a destination, the user box must be registered first.

To check a registered address, select a desired registration name, and then touch [Check Job Settings].

To change registered address settings, select a desired registration name, and then touch [Edit]. On the Edit screen, the registration number cannot be changed.

To delete a registered address, select a desired registration name, and then touch [Delete].

**No.**

- Touch [No.], and then enter the registration number of Address Book between 1 and 2,000. When the screen is displayed, the smallest available number is displayed.

**Name**

- Enter the registration name of the Address Book using up to 24 characters from the touch panel.
User Box

- Select one user box where data is to be saved.

Index

- Select the index characters.
  - For frequently used destinations, simultaneously specify them in [Favorites]. This setting speeds up searches.
Icon

→ Select the icon.

Detail

The icons are used in the image panel function which can be operated when the optional LK-101 is installed.
6.15.4 Address Book - Fax

Register fax destinations.

- To register a new address, touch [New].

1/2 screen

![Diagram of Address Book - Fax]

2/2 screen

![Diagram of Address Book - Fax]

Detail

To check a registered address, select a desired registration name, and then touch [Check Job Settings].

To change registered address settings, select a desired registration name, and then touch [Edit]. On the Edit screen, the registration number cannot be changed.

To delete a registered address, select a desired registration name, and then touch [Delete].
No.

- Touch [No.], and then enter the registration number of Address Book between 1 and 2,000. When the screen is displayed, the smallest available number is displayed.

Name

- Enter the registration name of the Address Book using up to 24 characters from the touch panel.
Address

- Enter the fax number of the destination using up to 38 digits. Enter the number using the keypad.

- In order to dial a number without fail to send a fax from an extension number to the outside line when PBX connection setting is enabled, touch [Pause] after dialing the outside line such as "0". On the screen, "P" is displayed.
- When the PBX connection setting is enabled, [Outside] is displayed. Selecting this key displays [E-].
- If the "Confirm Address (Register)" is specified, after touching [OK], a screen appears prompting you to enter the fax number again. Enter the fax number, and then touch [OK].
Line Settings

Specify transmission settings for the line.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Overseas TX</td>
<td>Specifies a slow transmission speed to send a Fax to an area in bad communication.</td>
</tr>
<tr>
<td>ECM OFF</td>
<td>Cancels ECM mode and cuts communication time to send data. The ECM mode is an error request repeat method communication defined by ITU-T (International Telecommunication Union). As faxes equipped with the ECM mode communicate by checking if the sent data has an error, they can prevent image blurring by the noise on the phone line.</td>
</tr>
<tr>
<td>V. 34 OFF</td>
<td>V. 34 is a communication mode used for Fax communication of super G3. There are cases when the communication is not possible in super G3 mode depending on the telephone line conditions when the recipient’s machine or this machine is connected to the line via a private branch exchange. It is recommended that you set V. 34 to off before sending a Fax. This machine automatically returns to V. 34 mode when it completes transmission.</td>
</tr>
<tr>
<td>Check Dest. &amp; Send</td>
<td>A Fax is sent only after a comparison of the specified Fax number with the Fax number information (CSI) for the recipient’s machine indicates a match. This prevents misdirected transmissions since a transmission error occurs if the numbers do not match.</td>
</tr>
<tr>
<td>Select Line</td>
<td>Select [Line 1] or [Line 2] to send a Fax if the fax multi line is installed. Specify a line for transmission.</td>
</tr>
</tbody>
</table>

**Detail**

*To execute [Check Dest. & Send], the destination must have its fax number registered.*
Index

→ Select the index characters.
  – For frequently used destinations, simultaneously specify them in [Favorites]. This setting speeds up searches.

Icon

→ Select the icon.

Detail
The icons are used in the image panel function which can be operated when the optional LK-101 is installed.
6.15.5 Address Book - PC (SMB)

Specify the PC (SMB) address directly. To register a new address, touch [New].

1/3 screen

2/3 screen

3/3 screen
Note
To check a registered address, select a desired registration name, and then touch [Check Job Settings].

To change registered address settings, select a desired registration name, and then touch [Edit]. On the Edit screen, the registration number cannot be changed.

To delete a registered address, select a desired registration name, and then touch [Delete].

No.
→ Touch [No.], and then enter the registration number of Address Book between 1 and 2,000. When the screen is displayed, the smallest available number is displayed.

Name
→ Enter the registration name of the Address Book using up to 24 characters from the touch panel.

User ID
→ Enter the user ID for logging on to the destination computer using up to 127 characters from the touch panel.

Password
→ Enter the password for logging on to the destination computer using up to 14 characters from the touch panel.
Host Address

→ Enter the host address for the destination computer in the format of a host name, IPv4 address or IPv6 address.
  - For a host name, enter 255 characters or less.

File Path

→ Enter the path to the saved file using up to 255 characters from the touch panel.

Reference

The structure of the folders on the destination computer can be checked. This function can be used to directly check the destination folder.

Detail

If the computers or workgroups on the network (subnet) that this machine belongs to are more than the numbers listed below, browsing over the network may not be performed correctly.

Workgroup: 128
Computer: 128
Index

- Select the index characters.
  - For frequently used destinations, simultaneously specify them in [Favorites]. This setting speeds up searches.

Icon

- Select the icon.

Detail

*The icons are used in the image panel function which can be operated when the optional LK-101 is installed.*
6.15.6 Address Book - FTP

Specify the FTP address directly. To register a new address, touch [New].

1/3 screen

2/3 screen

3/3 screen
**Detail**

To check a registered address, select a desired registration name, and then touch [Check Job Settings].

To change registered address settings, select a desired registration name, and then touch [Edit]. On the Edit screen, the registration number cannot be changed.

To delete a registered address, select a desired registration name, and then touch [Delete].

**No.**

- Touch [No.], and then enter the registration number of Address Book between 1 and 2,000. When the screen is displayed, the smallest available number is displayed.

**Name**

- Enter the registration name of the Address Book using up to 24 characters from the touch panel.
Host Address

- Enter the host address for the destination server in the format of a host name, IPv4 address or IPv6 address.
  - For a host name, enter 63 characters or less.

Detail

When the input format is switched to the IP address input mode after the host name was entered, the host name is cleared.

Touching [Input Host Name] after entering the IP address holds the input IP address and displays it in the character input screen.

Before entering a host name, check that the DNS setting is correctly specified.

File Path

- Enter the path to the saved file using up to 96 characters from the touch panel.

User ID

- Enter the user ID for logging on to the destination computer using up to 47 characters from the touch panel.

Password

- Enter the password for logging on to the destination computer using up to 31 characters from the touch panel.

anonymous

- To specify no user ID for logging on to the host name, touch [ON].

PASV

- Select whether to use the PASV mode.

Proxy

- Select whether to use a proxy server.

Port Number

- Enter the port number. (Range: 1 to 65535)
Index

→ Select the index characters.
  
  - For frequently used destinations, simultaneously specify them in [Favorites]. This setting speeds up searches.

The icons are used in the image panel function which can be operated when the optional LK-101 is installed.
6.15.7 Address Book - WebDAV

Specify the WebDAV address directly. To register a new address, touch [New].

1/3 screen

2/3 screen

3/3 screen
Detail
To check a registered address, select a desired registration name, and then touch [Check Job Settings].

To change registered address settings, select a desired registration name, and then touch [Edit]. On the Edit screen, the registration number cannot be changed.

To delete a registered address, select a desired registration name, and then touch [Delete].

No.
→ Touch [No.], and then enter the registration number of Address Book between 1 and 2,000. When the screen is displayed, the smallest available number is displayed.

Name
→ Enter the registration name of the Address Book using up to 24 characters from the touch panel.

User ID
→ Enter the user ID for logging on to the destination computer using up to 21 characters from the touch panel.

Password
→ Enter the password for logging on to the destination computer using up to 63 characters from the touch panel.
Host Address

- Enter the host address for the destination server in the format of a host name, IPv4 address or IPv6 address.
  - For a host name, enter 63 characters or less.

Detail

When the input format is switched to the IP address input mode after the host name was entered, the host name is cleared.

Touching [Input Host Name] after entering the IP address holds the input IP address and displays it in the character input screen.

Before entering a host name, check that the DNS setting is correctly specified.

File Path

- Enter the path to the saved file using up to 96 characters from the touch panel.

Proxy

- Select whether to use a proxy server.

SSL Settings

- Select whether to use the SSL.

Port Number

- Enter the port number. (Range: 1 to 65535)
Index

- Select the index characters.
  - For frequently used destinations, simultaneously specify them in [Favorites]. This setting speeds up searches.

Icon

- Select the icon.

Detail

The icons are used in the image panel function which can be operated when the optional LK-101 is installed.
6.15.8 Address Book - IP Address Fax

Register the IP address fax destination. To register a new address, touch [New].

1/2 screen

Detail
To check a registered address, select a desired registration name, and then touch [Check Job Settings].

To change registered address settings, select a desired registration name, and then touch [Edit]. On the Edit screen, the registration number cannot be changed.

To delete a registered address, select a desired registration name, and then touch [Delete].
No.

→ Touch [No.], and then enter the registration number of Address Book between 1 and 2,000. When the screen is displayed, the smallest available number is displayed.

Name

→ Enter the registration name of the Address Book using up to 24 characters from the touch panel.

IP Address

→ Enter the host address for the destination device in the format of a host name, IPv4 address or IPv6 address.

  - For a host name, enter 63 characters or less.

Detail

When the input format is switched to the IP address input mode after the host name was entered, the host name is cleared.

Touching [Input Host Name] after entering the IP address holds the input IP address and displays it in the character input screen.

Before entering a host name, check that the DNS setting is correctly specified.
Port Number

→ Enter the port number. (Range: 1 to 65535)

Destination Machine Type

→ Select [Color] or [Monochrome] depending on the destination machine.

Index

→ Select the index characters.
  - For frequently used destinations, simultaneously specify them in [Favorites]. This setting speeds up searches.

Icon

→ Select the icon.

Detail

The icons are used in the image panel function which can be operated when the optional LK-101 is installed.
6.15.9 Address Book - Internet Fax

Register the Internet fax destination. To register a new address, touch [New].

Detail

To check a registered address, select a desired registration name, and then touch [Check Job Settings].

To change registered address settings, select a desired registration name, and then touch [Edit]. On the Edit screen, the registration number cannot be changed.

To delete a registered address, select a desired registration name, and then touch [Delete].
No.

Touch [No.], and then enter the registration number of Address Book between 1 and 2,000. When the screen is displayed, the smallest available number is displayed.

Name

Enter the registration name of the Address Book using up to 24 characters from the touch panel.

E-Mail Address

Enter the destination E-Mail address from the touch panel.

RX Ability (Destination)

From “Compression Type”, “Paper Size”, and “Resolution”, select items the destination machine can receive.
Index

Select the index characters. For frequently used destinations, simultaneously specify them in [Favorites]. This setting speeds up searches.

Detail
The icons are used in the image panel function which can be operated when the optional LK-101 is installed.

Icon

Select the icon.
6.15.10 Group

1 Register multiple addresses as a group destination by grouping.
   - Up to 100 groups (00 to 99) can be registered using the Fax/Scan mode.
   - For one group, up to 500 address book destinations can be registered.

2 To register a new group, touch [New].

Name

➔ Enter the registration name of the Address Book using up to 24 characters from the touch panel.

Select Group

➔ Select a destination type, and then select the destination to be registered in the group.
Icon

Select the icon.

Detail

The icons are used in the image panel function which can be operated when the optional LK-101 is installed.

Check Program Settings

Check the address book list registered in the group.
6.15.11 E-Mail Settings - E-Mail Subject (E-Mail/I-FAX)

Up to 10 subjects for E-Mail and Internet fax can be registered. A registered subject can be selected when sending.

➔ To register a new subject, touch [New].

Detail
To check a registered subject, select a desired subject name, and then touch [Check Job Settings].

To change a registered subject, select a desired subject name, and then touch [Edit].

To delete a registered subject, select a desired subject name, and then touch [Delete].

To specify the default for a subject, select a subject name, and then touch [Set as Default].

Subject
➔ Enter a subject using up to 64 characters.
6.15.12  E-Mail Settings - E-Mail Body (E-Mail/I-FAX)

Up to 10 bodies for E-Mail and Internet fax can be registered. A registered subject can be selected when sending.

To register a new body, touch [New].

**Detail**

To check a registered body, select a desired body, and then touch [Check Job Settings].

To change the registered body settings, select a desired body, and then touch [Edit].

To delete a registered body, select a desired body, and then touch [Delete].

To specify the default for a body, select a desired body, and then touch [Set as Default].

**Body**

Enter a body using up to 256 characters.
6.15.13 Scan/Fax Program

Register a combination of destination to which data is sent frequently, scan setting, original setting, and communication setting in program. If these items are registered in program, you can call the registered destination, and the Scan Setting mode, Original Setting mode, and Communication Setting mode by simply touching the [Mode Memory] key.

Detail
Up to 400 normal programs and 10 "temporary programs" that are used temporarily can be registered in program.

If 410 programs have been already registered, delete an unnecessary program, and then register new one.

Register Scan/Fax Program

1 Press the [Fax/Scan] key on the control panel, and then specify Scan Settings, Original Settings and Communication Settings for program registration.

2 Press the [Mode Memory] key.

3 Select an unregistered key, and then touch [Register Program].

The Register Scan/Fax Program screen appears.

Register Program - Name

Enter the program registration name using up to 24 characters from the touch panel.
Register Program - Address

→ Select one address. Select an address using [Select from Address Book] or [Direct Input].

**Detail**

When "Confirm Address (Register)" is specified, after specifying the fax number in [Direct Input] and touching [OK], a screen appears prompting you to enter the fax number again. Enter the fax number, and then touch [OK].

Register Program - URL Notif. Destination

When notifying that the job in the FTP, SMB, WebDAV, or User Box mode has finished, this item is enabled.

→ Select an address using [Select from Address Book] or [Direct Input].
Check Program Settings

1 To check the already registered program settings, touch [Check Program Settings].

2 After checking the settings, touch [Close].

Check Program Settings - Check Address

→ Check the specified address.

Check Program Settings - Check Scan Settings

→ Check the specified scan settings.
Check Program Settings - Check Original Settings

→ Check the specified original settings.

Check Program Settings - Communication Settings

→ Check the specified communication settings.

Check Program Settings - Check E-Mail Settings

→ Check the specified E-Mail settings.
Check Program Settings - Check URL Notif. Destination

- Check the specified URL notification destination settings.

Delete

1. To delete the already registered program, touch this key.
2. If you are sure to delete the program, touch [Yes], then [OK].
6.15.14 Create User Box - Confidential User Box (G3)

For the user box for unauthorized transmission, specify unauthorized transmission settings when registering public user boxes and personal user boxes.

6.15.15 Create User Box - Bulletin Board User Box (G3)

For bulletin board user box registration, refer to chapter "5 Box Operations".

6.15.16 Create User Box - Relay User Box (G3)

For relay user box registration, refer to chapter "5 Box Operations".

6.15.17 Limiting Access to Destinations - Apply Levels/Groups to Destinations

Specify the access allowed level for the address book. Log on as a user with a level who is allowed to specify settings, and then change the destination level.

Detail

The level for a registered destination is "0".

A level and group higher than the login user cannot be specified.

In order to specify a group for a destination, the group must be registered in Administrator Settings mode in advance.

Address Book

1. Select an address of which level must be changed.

2. Touch [Limiting Access to Destinations] or [Apply levels to Destinations].
Group

1. Select an address of which level must be changed.
2. Touch [Limiting Access to Destinations] or [Apply levels to Destinations].

Program

1. Select an address of which level must be changed.
2. Touch [Limiting Access to Destinations] or [Apply levels to Destinations].
6.16 User Settings

6.16.1 Displaying the User Settings screen

1. To display the User Settings screen, press the [Utility/Counter] key on the control panel.
2. Touch [User Settings].

Detail
In the Utility screen, you can also select a setting by using the keypad to enter the number next to the desired button. For [2 User Settings], press the [2] key in the keypad.

6.16.2 Custom Display Settings - Scan/Fax Settings

Customize the Scan/Fax screen.

Default Tab
- Specify settings for the default screen for Fax/Scan mode (Default: Address Book).
Program Default

- Specify settings for the default screen for Fax/Scan mode (Default: PAGE1).

Address Book Index Default

- Select the index characters that appear as a default in [Address Book] (Default: Favorites).
Shortcut Key 1/Shortcut Key 2

Up to two shortcut keys can be registered, each of which is for the Scan/Fax Settings, Original Settings or Communication Settings mode provided at the bottom of the screen.

**Detail**

Two shortcut keys can be programmed. For a machine equipped with the optional image controller IC-409, one shortcut key can be specified.

To cancel the shortcut key, touch [OFF].

**Default Address Book**

→ Select whether the index or address type appear as a default in the Address Book screen.
6.16.3 Custom Display Settings - FAX Active Screen (G3/IP/I-FAX)

The FAX Active screen can be customized.

TX Display

- Specify whether to display messages being sent (Default: No).

RX Display

- Specify whether to display messages being received (Default: No).
### 6.16.4 Custom Display Settings - Search Option Settings
(E-mail/Box/SMB/FTP/WebDAV/G3/IP/I-FAX)

When executing detail search in the address book, specify the contents to be displayed in the Search Options screen.

![Search Options Screen](image)

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Uppercase and Lowercase Letters</td>
<td>Select whether or not to differentiate uppercase and lowercase characters when searching.</td>
</tr>
<tr>
<td>Search Options Screen</td>
<td>Select whether or not to display the Search Options screen at detail search. When &quot;ON&quot; is selected, the Search Options screen appears.</td>
</tr>
</tbody>
</table>
6.16.5 Scan/Fax Settings

JPEG Compression Level (E-Mail/Box/SMB/FTP/WebDAV/Web Service/IP)

Specify the compression level for saving data in the JPEG format.
- [High Quality]: Provides higher quality images, but the data size becomes large.
- [Standard (Default)]: Provides images of data size and quality of a mid-level between “High Quality” and “High Compression”.
- [High Compression]: Provides lower quality images, but the data size becomes small.

Black Compression Level

Specify the coding mode ability for black-and-white image transmission.
- MH: The data size becomes large.
- MMR (Default): The data size becomes small.

Detail

Saved MMR-compressed data may not be opened on a computer depending on the application.
**TWAIN Lock Time**

→ Specify the length of time until the machine operations are unlocked during scanning (except with PUSH scanning). (Default setting: 120 sec.)

**Detail**

To use the machine as a scanner from application software using TWAIN, install the KONICA MINOLTA TWAIN driver software designed for that purpose. For details, refer to the TWAIN driver manual on the bizhub C353 Series CD-ROM.

For a machine equipped with the optional image controller IC-409, this function is not available.

**Default Scan/Fax Settings**

→ Specify the default settings (settings selected when the [Reset] key is pressed) for the Fax/Scan mode.
Compact PDF/XPS Compression Level (E-Mail/Box/SMB/FTP/WebDAV)

- Specify the compression method for saving data in the compact PDF format or compact XPS format.
  - [High Quality]: Provides higher quality images, but the data size becomes large.
  - [Standard (Default)]: Provides images of data size and quality of a mid-level between “High Quality” and “High Compression”.
  - [High Compression]: Provides lower quality images, but the data size becomes small.

Color TIFF Type (E-Mail/User Box/SMB/FTP/WebDAV)

- Select the compression method to be used when saving the TIFF format data in color.
  - If the data that saved with [TIFF (modified TAG)] cannot be opened by applications, change the setting to [TIFF (TTN2)] (factory default).
PageScope Web Connection Operation
7 PageScope Web Connection Operation

By logging on to PageScope Web Connection in User mode, the following functions can be specified.

Detail
For other details on the User mode, refer to the PageScope Web Connection help in the PageScope Utilities CD-ROM.

7.1 Information

This is the first page that appears when you access to PageScope Web Connection.

<table>
<thead>
<tr>

**Detail**

*This may not appear depending on the Administrator mode settings.*
Appendix
8 Appendix

8.1 Entering text

The following procedure describes how to use the keyboard that appears in the touch panel for typing in the names of registered users and custom paper sizes. The keypad can also be used to type in numbers.

Any of the following keyboards may appear.

Example

Password input screen

Screen for entering the name of a custom paper size
Touch [Shift] to switch the keyboard display between lowercase letters (numbers) and uppercase letters (symbols).
Enlarging the keyboard
The keyboard can be displayed larger so that it easier to read.

1. While the keyboard is displayed, touch [Enlarge ON].
   The keyboard is displayed enlarged.

2. To cancel the enlarged display and return the keyboard to its normal size, touch [Enlarge OFF] while the keyboard is displayed enlarged.

Note
The keyboard is used in the same way, even when it is displayed enlarged.
To type text

- Touch the button for the desired character from the keyboard that appeared.
  - To type in uppercase letters or symbols, touch [Shift].
  - Numbers can also be typed in with the keypad.

The entered characters appear in the text box.

Note
To revert to the setting when the keyboard was displayed, touch [Cancel].

To clear all entered text, press the [C] (clear) key.

Some buttons may not appear, depending on the characters being entered.

Detail
To change a character in the entered text, touch ← and → to move the cursor to the character to be changed, touch [Delete], and then type in the desired letter or number.

List of available characters

<table>
<thead>
<tr>
<th>Type</th>
<th>Characters</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alphanumeric characters/symbols</td>
<td>ABCDEFGHIJKLMNOPQRSTUVWXYZabcdefghijklmnopqrstuvwxyz '(){}[]^._`:&quot;&lt;&gt;@%^0123456789</td>
</tr>
</tbody>
</table>
8.2 Glossary

The words used in Copy mode are described below.

**Abbreviation**

ADF
Reverse automatic document feeder; Can be used to automatically scan the original

A

AE Level Adjustment
Set this parameter to adjust the background of the original. The higher the setting, the more that the original background is emphasized. (AE = Auto exposure)

Adjust Color
Set these parameters to adjust the quality of color copies.

APS
“Auto Paper Select” setting

ATS
Automatic paper-tray-switching feature (ATS = Auto Tray Switch)

Auto Zoom
Select this setting to automatically select the appropriate zoom ratio after an original is placed on the original glass or loaded into the ADF and the paper size is selected.

Auto Paper Select
Select this setting to detect the original placed on the original glass or loaded into the ADF, then automatically select paper of the same size if “×1.0” is selected or select the paper size appropriate for the specified zoom ratio.

B

Background Color
Set this function to copy the original using one of the 18 colors available as the color of the background (blank areas).

Background Removal
Select a setting to adjust the density of the background color of the original to one of nine levels.

Blue
Set this parameter to adjust the level of blue in the image, for example, if you wish to emphasize the blue of water or the sky.

Brightness
Set this parameter to make the image either lighter or darker.

C

Change Tray Settings
Touch this button to specify a paper size not loaded in a paper tray or to copy on paper other than normal paper.

Chapters
Set this function to specify chapter title pages that must be printed on the front side of the paper when printing double-sided copies.

Color Balance
Set this parameter to adjust the balance in the concentrations of cyan (C), magenta (M), yellow (Y) and black (K). Each color can be finely adjusted to any of 19 levels between –3 and +3.

Combine Originals
Select a setting to arrange reduced copies of multiple original pages on a single copy page. The settings for the number of pages that can be combined are “2 in 1”, “4 in 1” and “8 in 1”.

Contrast
Set this parameter to adjust the contrast between light and dark.

Copy Density
Set this parameter to finely adjust the copy density to any of 19 levels between –3 and +3.

Copy Protection
Set this function to print hidden text in order to prevent improper copying. When an original printed with copy protection text is copied, the hidden text appears clearly repeated in all pages of the copies so that the reader knows that it is a copy.
Cover Mode
Set this function to add paper from the specified paper tray to the copies as a cover page.

Density
Select a setting to adjust the density of the print image to one of nine levels.

Duplex 2nd-Side
Select this setting to switch the image transfer current of this machine when copying on paper that has already been printed on one side.

Edit Color
Set the functions and parameters that are available to adjust the print image as desired.

Fold & Staple
Set this function to fold the copies in half and staple them together at the center.

Finishing
Select from the settings that are available for sorting and finishing copies when they are fed into the finishing tray.

Glossy
Select this setting for an improved glossy finish of images.

Green
Set this parameter to adjust the level of green in the image, for example, if you wish to emphasize the green of forests and trees.

Group (Copy/Finishing)
Select this setting to separate the copies of each page in the original. The specified number of copies of the second page is printed after all copies of the first page are finished.

Group (reference permission)
Use this feature to limit the addresses that each user can reference and to manage security.

Hue
Set this parameter to make the image either more reddish or more bluish.

Insert Image
Set this function to later scan multiple images from the original glass and insert them at the desired locations in an original scanned with the ADF, then feed out all copies together.

Insert Sheet
Set this function to insert paper from the specified paper tray into the copies as chapter title pages.

Margin
Select the setting for the position of the binding margin for the loaded original. Selecting the appropriate setting prevents the copy from being printed upside-down when making double-sided copies from single-sided original or when making single-sided copies from double-sided originals.

Memory Scan
Scans an original exceeding the maximum 100 pages that can be loaded into the ADF by scanning the original in separate batches. The original can be scanned and treated as a single copy job. In addition, the scanning location can be switched between the original glass and the ADF during the scanning operation.

Minimal
Select this setting to produce a copy with the original image slightly reduced.

Mirror Image
Set this function to produce a copy in the mirror image of the original.

Mixed Original
Select this setting to detect the size of each original page and print a copy on paper of the appropriate size when an original with different page sizes is loaded together into the ADF.
**N**
Neg-/Pos. Reverse
Set this function to copy the original with the light- and dark-colored areas or the colors (gradations) of the image inversed.

**O**
Offset
Select this setting to separate copies that are fed out.

OHP Interleave
Set this function to insert paper between OHP that are being copied. This prevents OHP from sticking together.

Original Type
Select the setting for the image type of the original to better adjust the copy quality.

Original Direction
Select the setting for the orientation that the original is placed on the original glass or loaded into the ADF.

**P**
Paper
Select settings for the type and size of paper to be printed on.

Preview
Print image can be checked as a preview image before printing.

Proof Copy
Press this key to print a single sample copy and stop the machine so that it can be checked before printing a large number of copies. This prevents copy errors from occurring in a large number of copies.

Punch
Select the setting to punch holes in the copies for filing.

**R**
Red
Set this parameter to adjust the level of red in the image, for example, if you wish to redden skin tones.

**S**
Saturation
Set this parameter to adjust the degree of vividness of the colors in the image.

Save in User Box
Temporarily saves the job on the hard disk so that it can later be recalled and used again

Sharpness
Set this parameter to emphasize the edges of text so that they can be read more easily. In addition, this parameter can be used to adjust the original image.

Sheet/Cover/Chapter Insert
Select from the functions that are available to edit copies as desired

Simplex/Duplex
Select the setting to specify if the scanned original and the printed copy are printed on just one side or both sides.

Sort
Select this setting to separate each set of the copies. The second copy set is printed after all of the first copy set is finished.

Staple
Select a setting to staple copies together.

**T**
Text Enhancement
Select a setting for the reproduction quality of text when copying originals consisting of text that overlaps images such as illustrations or graphs (text with a background).
**X**

XY Zoom
Touch this button to use the keypad to specify the zoom ratio for producing an enlarged/reduced copy of the loaded original.

**Z**

Zoom
Specify the zoom ratio of the copy.

8.4 About Adobe Color Profile

ADOBE SYSTEMS INCORPORATED
COLOR PROFILE LICENSE AGREEMENT

NOTICE TO USER: PLEASE READ THIS CONTRACT CAREFULLY. BY USING ALL OR ANY PORTION OF THE SOFTWARE YOU ACCEPT ALL THE TERMS AND CONDITIONS OF THIS SOFTWARE YOU ACCEPT ALL THE TERMS AND CONDITIONS OF THIS AGREEMENT. IF YOU DO NOT AGREE WITH THE TERMS OF THIS AGREEMENT, DO NOT USE THE SOFTWARE.

1. DEFINITIONS In this Agreement, "Adobe" means Adobe Systems Incorporated, a Delaware corporation, located at 345 Park Avenue, San Jose, California 95110. "Software" means the software and related items with which this Agreement is provided.

2. LICENSE Subject to the terms of this Agreement, Adobe hereby grants you the worldwide, non-exclusive, nontransferable, royalty-free license to use, reproduce and publicly display the Software. Adobe also grants you the rights to distribute the Software only (a) as embedded within digital image files and (b) on a standalone basis. No other distribution of the Software is allowed; including, without limitation, distribution of the Software when incorporated into or bundled with any application software. All individual profiles must be referenced by their ICC Profile description string. You may not modify the Software. Adobe is under no obligation to provide any support under this Agreement, including upgrades or future versions of the Software or other items. No title to the intellectual property in the Software is transferred to you under the terms of this Agreement. You do not acquire any rights to the Software except as expressly set forth in this Agreement.

3. DISTRIBUTION If you choose to distribute the Software, you do so with the understanding that you agree to defend, indemnify and hold harmless Adobe against any losses, damages or costs arising from any claims, lawsuits or other legal actions arising out of such distribution, including without limitation, your failure to comply with this Section 3. If you distribute the Software on a standalone basis, you will do so under the terms of this Agreement or your own license agreement which (a) complies with the terms and conditions of this Agreement; (b) effectively disclaims all warranties and conditions, express or implied, on behalf of Adobe; (c) effectively excludes all liability for damages on behalf of Adobe; (d) states that any provisions that differ from this Agreement are offered by you alone and not Adobe and (e) states that the Software is available from you or Adobe and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange. Any distributed Software will include the Adobe copyright notices as included in the Software provided to you by Adobe.

4. DISCLAIMER OF WARRANTY Adobe licenses the Software to you on an "AS IS" basis. Adobe makes no representation as to the adequacy of the Software for any particular purpose or to produce any particular result. Adobe shall not be liable for loss or damage arising out of this Agreement or from the distribution or use of the Software or any other materials. ADOBE AND ITS SUPPLIERS DO NOT AND CANNOT WARRANT THE PERFORMANCE OR RESULTS YOU MAY OBTAIN BY USING THE SOFTWARE, EXCEPT FOR ANY WARRANTY, CONDITION, REPRESENTATION OR TERM TO THE EXTENT TO WHICH THE SAME CANNOT OR MAY NOT BE EXCLUDED OR LIMITED BY LAW APPLICABLE TO YOU IN YOUR JURISDICTION, ADOBE AND ITS SUPPLIERS MAKE NO WARRANTIES, CONDITIONS, REPRESENTATIONS OR TERMS, EXPRESS OR IMPLIED, WHETHER BY STATUTE, COMMON LAW, CUSTOM, USAGE OR OTHERWISE AS TO ANY OTHER MATTERS, INCLUDING BUT NOT LIMITED TO NONINFRINGEMENT OF THIRD PARTY RIGHTS, INTEGRATION, SATISFACTORY QUALITY OR FITNESS FOR ANY PARTICULAR PURPOSE. YOU MAY HAVE ADDITIONAL RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION. The provisions of Sections 4, 5 and 6 shall survive the termination of this Agreement, howsoever caused, but this shall not imply or create any continued right to use the Software after termination of this Agreement.

5. LIMITATION OF LIABILITY IN NO EVENT WILL ADOBE OR ITS SUPPLIERS BE LIABLE TO YOU FOR ANY DAMAGES, CLAIMS OR COSTS WHATSOEVER OR ANY CONSEQUENTIAL, INDIRECT, INCIDENTAL DAMAGES, OR ANY LOST PROFITS OR LOST SAVINGS, EVEN IF AN ADOBE REPRESENTATIVE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSS, DAMAGES, CLAIMS OR COSTS OR FOR ANY CLAIM BY ANY THIRD PARTY. THE FOREGOING LIMITATIONS AND EXCLUSIONS APPLY TO THE EXTENT PERMITTED BY APPLICABLE LAW IN YOUR JURISDICTION. ADOBE'S AGGREGATE LIABILITY AND THAT OF ITS SUPPLIERS UNDER OR IN CONNECTION WITH THIS AGREEMENT SHALL BE LIMITED TO THE AMOUNT PAID FOR THE SOFTWARE. Nothing contained in this Agreement limits Adobe's liability to you in the event of death or personal injury resulting from Adobe's negligence or for the tort of deceit (fraud). Adobe is acting on behalf of its suppliers for the purpose of disclaiming, excluding and/or limiting obligations, warranties and liability as provided in this Agreement, but in no other respects and for no other purpose.

6. TRADEMARKS Adobe and the Adobe logo are the registered trademarks or trademarks of Adobe in the United States and other countries. With the exception of referential use, you will not use such trademarks or any other Adobe trademark or logo without separate prior written permission granted by Adobe.
7. TERM This Agreement is effective until terminated. Adobe has the right to terminate this Agreement immediately if you fail to comply with any term hereof. Upon any such termination, you must return to Adobe all full and partial copies of the Software in your possession or control.

8. GOVERNMENT REGULATIONS If any part of the Software is identified as an export controlled item under the United States Export Administration Act or any other export law, restriction or regulation (the “Export Laws”), you represent and warrant that you are not a citizen, or otherwise located within, an embargoed nation (including without limitation Iran, Iraq, Syria, Sudan, Libya, Cuba, North Korea, and Serbia) and that you are not otherwise prohibited under the Export Laws from receiving the Software. All rights to use the Software are granted on condition that such rights are forfeited if you fail to comply with the terms of this Agreement.

9. GOVERNING LAW This Agreement will be governed by and construed in accordance with the substantive laws in force in the State of California as such laws are applied to agreements entered into and to be performed entirely within California between California residents. This Agreement will not be governed by the conflict of law rules of any jurisdiction or the United Nations Convention on Contracts for the International Sale of Goods, the application of which is expressly excluded. All disputes arising out of, under or related to this Agreement will be brought exclusively in the state Santa Clara County, California, USA.

10. GENERAL You may not assign your rights or obligations granted under this Agreement without the prior written consent of Adobe. None of the provisions of this Agreement shall be deemed to have been waived by any act or acquiescence on the part of Adobe, its agents, or employees, but only by an instrument in writing signed by an authorized signatory of Adobe. When conflicting language exists between this Agreement and any other agreement included in the Software, the terms of such included agreement shall apply. If either you or Adobe employs attorneys to enforce any rights arising out of or relating to this Agreement, the prevailing party shall be entitled to recover reasonable attorneys’ fees. You acknowledge that you have read this Agreement, understand it, and that it is the complete and exclusive statement of your agreement with Adobe which supersedes any prior agreement, oral or written, between Adobe and you with respect to the licensing to you of the Software. No variation of the terms of this Agreement will be enforceable against Adobe unless Adobe gives its express consent, in writing, signed by an authorized signatory of Adobe.
8.5 ICC Profile for TOYO INK Standard Color on Coated paper (TOYO Offset Coated 2.0)

This ICC Profile (TOYO Offset Coated 2.0) characterizes Japanese offset press on Coated paper and is fully compatible with ICC profile format.

About "TOYO INK Standard Color on Coated paper"

This is the standard for color reproduction of sheet-fed offset press on Coated paper made by TOYO INK MFG.CO., LTD. ("TOYO INK").

This standard is made from printing test with using TOYO INK’s sheet-fed offset printing inks and TOYO INK’s own printing conditions.

"TOYO INK Standard Color on Coated paper" is compatible with "JAPAN COLOR".

Agreement

1. The reproduction of images on a printer or a monitor using this ICC Profile do not completely match the TOYO INK Standard Color on Coated paper.

2. Any and all copyrights of this ICC Profile shall remain in TOYO INK; therefore you shall not transfer, provide, rent, distribute, disclose, or grant any rights in this ICC Profile to any third party without the prior written consent of TOYO INK.

3. In no event will TOYO INK its directors, officers, employees or agents be liable to you for any consequential or incidental, either direct or indirect, damages (including damages for loss of business profits, business interruption, loss of business information, and the like) arising out of the use or inability to use this ICC Profile.

4. TOYO INK shall not be responsible for answering any question related to this ICC Profile.

5. All company names and product names used in this document is the trademarks or registered trademarks of their respective holder.

This ICC Profile made by GretagMacbeth ProfileMaker and granted TOYO INK certain license to distribute by GretagMacbeth AG.

TOYO Offset Coated 2.0 © TOYO INK MFG. CO., LTD. 2004
Appendix

8.6 DIC STANDARD COLOR PROFILE LICENSE AGREEMENT

IMPORTANT: PLEASE READ THIS STANDARD COLOR PROFILE LICENSE AGREEMENT ("LICENSE AGREEMENT") CAREFULLY BEFORE USING THE DIC STANDARD COLOR PROFILE, INCLUDING THE DIC STANDARD COLOR SFC1.0.1, DIC STANDARD COLOR SFC1.0.2, DIC STANDARD COLOR SFM1.0.2, DIC STANDARD COLOR SFU1.0.2, PROVIDED BY DIC HEREWITH, AND ANY CORRESPONDING ONLINE OR ELECTRONIC DOCUMENTATION AND ALL UPDATES OR UPGRADES OF THE ABOVE THAT ARE PROVIDED TO YOU (COLLECTIVELY, THE "PROFILE").

THIS LICENSE AGREEMENT IS A LEGAL AGREEMENT BETWEEN YOU (EITHER AN INDIVIDUAL OR, IF ACQUIRED BY OR FOR AN ENTITY, AN ENTITY) AND DAINIPPON INK & CHEMICALS, INC., A JAPANESE COMPANY ("DIC"). THIS LICENSE AGREEMENT PROVIDES A LICENSE TO USE THE PROFILE AND CONTAINS WARRANTY INFORMATION AND LIABILITY DISCLAIMERS. IF YOU DO NOT AGREE TO BE BOUND BY ALL OF THESE TERMS, YOU MAY NOT USE THE PROFILE.

1. License Grant
   DIC grants you a gratis non-exclusive and non-transferable license to use the Profile and to allow your employees and authorized agents, if any, to use the Profile, solely in connection with their work for you, subject to all of the limitations and restrictions in this License Agreement.

2. Ownership
   The foregoing license gives you limited license to use the Profile. You will own the rights in the media containing the recorded Profile, but DIC retains all right, title and interest, including all copyright and intellectual property rights, in and to, the Profile and all copies thereof. All rights not specifically granted in this License Agreement, including all copyrights, are reserved by DIC.

3. Term
   a. This License Agreement is effective until terminated.
   b. You may terminate this License Agreement by notifying DIC in writing of your intention to terminate this License Agreement and by destroying, all copies of the Profile in your possession or control.
   c. DIC may terminate this License Agreement without prior notice to you if you fail to comply with any of the terms and conditions of this License Agreement (either directly or through your employees or agents), retroactive to the time of such failure to comply. In such event, you must immediately stop using the Profile and destroy all copies of the Profile in your possession or control.
   d. All provisions in this License Agreement relating to warranty disclaimers (Section 5) and the limitation of liability (Section 6) shall survive any termination of this License Agreement.

4. License Method and Restrictions
   a. You may install and use the Profile on a single desktop computer; provided, however, that, notwithstanding anything contrary contained herein, you may not use the Profile on any network system or share, install or use the Profile concurrently on different computers, or electronically transfer the Profile from one computer to another or over a network.
   b. You may not make or distribute copies, fix, alter, merge, modify, sublicense, transfer, sell, rent, lease, gift or distribute all or a portion of the Profile, or modify the Profile or create derivative works based upon the Profile.
   c. You acknowledge that the Profile is not intended for any usage which may cause death or physical injury or environmental damage and agree not to use the Profile for such usage.
   d. You shall not use the Profile to develop any software or other technology having the same primary function as the Profile, including but not limited to using the Profile in any development or test procedure that seeks to develop like software or other technology, or to determine if such software or other technology performs in a similar manner as the Profile.
   e. DIC and other trademarks contained in the Profile are trademarks or registered trademarks of DIC in Japan and/or other countries. You may not remove or alter any trademark, trade names, product names, logo, copyright or other proprietary notices, legends, symbols or labels in the Profile. This License Agreement does not authorize you to use DIC’s or its licensors’ names or any of their respective trademarks.

5. WARRANTY DISCLAIMER
   a. THE PROFILE IS PROVIDED TO YOU FREE OF CHARGE, AND ON AN "AS-IS" BASIS, IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THIS LICENSE AGREEMENT. DIC PROVIDES NO TECHNICAL SUPPORT, WARRANTIES OR REMEDIES FOR THE PROFILE.
   b. DIC DISCLAIMS ALL WARRANTIES AND REPRESENTATIONS, WHETHER EXPRESS, IMPLIED, OR OTHERWISE, INCLUDING BUT NOT LIMITED TO, THE WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, TITLE AND QUIET ENJOYMENT. YOU SHALL ASSUME AND BE FULLY LIABLE AND RESPONSIBLE FOR ALL RISKS IN CONNECTION WITH YOUR USE OF THE PROFILE. DIC DOES NOT WARRANT THAT THE PROFILE IS FREE OF DEFECTS OR FLAWS OR WILL OPERATE WITHOUT INTERRUPTION, AND IS NOT RESPONSIBLE FOR CORRECTING OR REPAIRING ANY DEFECTS OR FLAWS, FOR FEE OR GRATIS. NO RIGHTS OR REMEDIES WILL BE CONFERRED ON YOU UNLESS EXPRESSLY GRANTED HEREIN.
6. **LIMITATION OF LIABILITY**
DIC SHALL NOT BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, COVER OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR THE INABILITY TO USE EQUIPMENT OR ACCESS DATA, LOSS OF BUSINESS, LOSS OF PROFITS, BUSINESS INTERRUPTION OR THE LIKE), ARISING OUT OF THE USE OF, OR INABILITY TO USE, THE PROFILE AND BASED ON ANY THEORY OF LIABILITY INCLUDING BREACH OF CONTRACT, BREACH OF WARRANTY, TORT (INCLUDING NEGLIGENCE), PRODUCT LIABILITY OR OTHERWISE, EVEN IF DIC OR ITS REPRESENTATIVES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
THE FOREGOING LIMITATIONS ON LIABILITY SHALL APPLY TO ALL ASPECTS OF THIS LICENSE AGREEMENT.

7. **General**
a. This License Agreement shall be governed and construed in accordance with the laws of Japan, without giving effect to principles of conflict of laws. If any provision of this License Agreement shall be held by a court of competent jurisdiction to be contrary to law, that provision will be enforced to the maximum extent permissible, and the remaining provisions of this License Agreement will remain in full force and effect. You hereby consent to the exclusive jurisdiction and venue of Tokyo District Court to resolve any disputes arising under this License Agreement.
b. This License Agreement contains the complete agreement between the parties with respect to the subject matter hereof, and supersedes all prior or contemporaneous agreements or understandings, whether oral or written. You agree that any varying or additional terms contained in any written notification or document issued by you in relation to the Profile licensed hereunder shall be of no effect.
c. The failure or delay of DIC to exercise any of its rights under this License Agreement or upon any breach of this License Agreement shall not be deemed a waiver of those rights or of the breach.

8.7 **Special notice to user**
The Facsimile has been approved in accordance with Council Decision 1999/5/EC for pan-European single terminal connection to the public switched telephone network (PSTN). However, due to differences between the individual PSTNs provided in different countries, the approval does not, of itself, give an unconditional assurance of successful operation on every PSTN network terminal point.
In the event of problems, you should contact your equipment supplier in the first instance.

The CE marking must be affixed to the product or to its data plate. Additionally it must be affixed to the packaging, if any, and to the accompanying documents.
